WOMAN'S TEMPER.—No trait of character ...re valuable in a female than the poss... of a sweet temper. Home can never ...e happy without it. It is like the ...ain spring up in our pathway, revivi... and cheering us. Let a man go home ...e wearied and worn by the toils of ...e, and how soothing is a word dictated ...y good disposition. ...ediately falling upon his heart ...ll the petty cares of life are forgotten ...e presence has a soothing influence ...on the minds of a whole family. ...ere it is found in the wife and mothe... may observe kindness and love pre... among over the bad feelings of a natu... ...ness, kind words and looks character... the children, and peace and love have ...r dwelling there. "FAR HER PLACE."—A correspondent of ...St. Louis Reveille in writing from Ar... says a Dutchman was the first pe'e ...who visited Hot Springs, (in the year ...and something.) One evening his ...horse, waggon and the *rest* of the fam... encamped five miles distant—next mor... with his gun shouldered, and leaving ...boy to keep camp, the old fellow *sheli...* to explore, remarking, "maypee I'll gill ...dinner." Judge of his son's surprise, ...when in less than an hour, he saw *father* ...coming back; outblowing a shoal of ...porpoises. He had been to the Hot ...Springs!

"Hitch up, hitch up, Hans," panted he ...when up and let us pack! I've been fifteen ...mile; and *hell's only half-mile further.*"

But from what I can learn—Mynheer ...was'n't right. Its *farther to Texas*—a devil... ...ish long sight.

NATURALIZATION LAW.—Aside from ...mere party considerations, there is little dif... ...ference of opinion concerning the necessity ...and desirableness of a change of the natu... ...ralization laws. Almost all disinterested ...men, of all parties, including a large and ...most respectable portion of the adopted citi... ...zens, agree and most respectable portion of ...the adopted citizens, agree that the present ...state of things is proving destructive to the ...best good of the country. But there are ...some exceptions, and these consist mainly ...of moderate party retainers who imagine ...they have unsettled claims for past services, ...and who are auxious to have their accounts ...settled by their party, and paid in the form ...of some comfortable office. This they call ...patriotism and consistency.—*Rochester A...merican.*

DUFF GREEN.—The Texas correspon... ...dent of the N Y. Tribune says Duff Green ...secured President Jones a bribe to hurry on ...annexation. This is assigned as the reason ...why he has revoked Duff Green's recog... ...nition as Consul. The same writer declares ...that a majority of the people are opposed to ...annexation.

THE MCNULTY DEFALCATION.—The ...house of Lecor & Co., in New York, with ...whom Mr. McNulty alleged he had deposi... ...ted $15,000 of the missing funds, have pub... ...lished a card, in which they positively af... ...firm that such is not the fact, and that they ...are nowise indebted to him. We also see ...it is stated that about $30,000, part of which ...was gathered up in New York, and the ...balance in Ohio, has been forwarded to ...Washington to meet the claim of the gov... ...ernment against Mr. McNulty.—*Balt. Am. Rep.*

RATS.—If they are troublesome, sprinkle ...unslaked lime in their holes and about ...where they congregate, and they will depart ...without fail.

VALUABLE RECEIPTS.

CANDLES THAT DO NOT REQUIRE SNUFFING.—Candles may be made to burn their own wicks by saturating them with a strong solution of nitre, and then thoroughly drying them. The cause of the wicks refusing to burn is, that the air cannot get access to them The nitre, however, at a high temperature, will supply oxygen enough for this purpose.

BUTTER PUDDING.—Beat up from four to six eggs with a quart of milk, add a little salt, and flour enough to make it pour with ease, boilthree-quarters of an hour.

APPLE PUDDING.—Pare and stew three pints of apples, mash them, and add four eggs, one quarter of a pound of butter, sugar and nutmeg, or grated lemon. Bake it on short crust.

To Sweeten Rancid Butter—The Ech. du Monte Servant says:—"An agriculturist in the neighborhood of Brussels, having succeeded in removing the bad smell and disagreeable taste from butter by beating, or so mixing in fresh water with chloride of lime. he was encouraged by this happy result to continue his experiments, by trying them on butter so rancid as to be past use; and he has restored to butter whose oder and taste were insupportable, all the sweetness of fresh. This operation is extremely simple and practicable to all; it consists in beating the butter in a suficient quantity of water, in which put 25 or 30 drops of chloride of lime to two pounds of butter. After having mixed it till all its parts in contact with the water, be left in it for an hour or two, afterwards withdrawn, and washed anew in fresh water The chloride of lime having nothing injurious in it, can with safety be augmented! but, after having verified the experiment. it was found that 25 or 30 drops to a kilogramme of butter wer suficient.

INDIAN SLAP JACKS.—Scald a quart of Indian meal; when lukewarm, stir in a half pint of floor, half a pint of flour, half a tea cup of yeast, and a little salt. When light, fry them in just fat enough to prevent their sticking to the frying pan. Another method of making them, which is very nice, is to turn boiling milk or water on to the Indian meal, in the proportion of a quart of the former to a pint of the latter; stir in three table spoonsfulls of flour, three eggs well beaten, and a couple of tea spoonsfull of salt.

PRODUCT FROM MANURE.—Experiments in Germany have led to the following conclusions:—if a given quantity of land will produce five times the quantity sown, when manured with old herbage, putrid grass or leaves, garden stuffs, &c.—seven times when manured with cow dung—nine times with pigeon's dung—ten times with horse dung—twelve times with goat's and sheep's dung—fourteen times with human manure or bullock's blood.

MOLASSES POSSET.—Put in a saucepan a pint of sugar-house molasses, a tea spoonful of powdered ginger, and a quarter of a pound of fresh buter.—Simmer it over hot coals for half an hour, stiring it frequently. Then stir into it the juice of two lemons, two tea spoonsfull longer. This is an excellent preparation to relieve colds, and is also particularly serviceable to persons subject to consipation.

TANNER'S BARK is slow of decomposition O this account it is generally neglected as a manure. The best way of employing it is, undoubtedly, in the form of compost with lime and earth, or with liquid or solid farm yard manure, by which procedure decay is speedily effected. Tanners frequently burn their spent bark, and apply the ashes to their ground.

COOKING BEETS.—Having washed them free of dirt, roast them in the fire as you do potatoes—When cooked, peel and serve up in the usual manner. It is a dish fit for the stomach of the most fastidious epicure—at least, so says one who tried it.

TURNIP FLY.—L B. Parsons, says the New Genesee Farmer, soaks his ruta bagaseed in anther's oil; and then rolls it in plaster. The oder keeps away the insects. A small quantity of oil answers.

COMMERCIAL.

MEMPHIS, *Feb.* 6 1845.

COTTON.—We have another slight improvement to notice in our market, consequent on the recent foreign advices, and the condition of the market at N. Orleans Considerable animation has characterised our market for the past two days, at prices ranging from 4 1-2 to 5 cents average; several crops round have been sold at 5, and one or two at 5 1-4 cents. We quote extremes at 3 to 5 1-2 cents; the bulk of sales being made at 4 1-2 to 4 3-4 cents. The market wears a firm aspect.

Our total shipments this season are 75,000 bales.—*Eagle.*

DR. JAMES M. MARTIEN'S *INVINCIBLE RESTORATIVE PILLS,*

For the Treatment and Cure of Fevers.

1st.—Intermittent, or Ague and fever. 2d—Bilious Fever. 3d—Typhus, or Winter Fever 4th—Remitent, or Yellow Fever. Inquire for *Dr. James M. Martien's anti-bilious Vegetable Universal Life Pills.*

Dr. Martien having used these Pills for many years in an extensive practice, is fully persuaded that they are superior to any medicine of a cathartic nature now before the public, for general use. The preparation is scientific, and is the result of much research, labor and experience. It will be found mild, yet effiencious in its operations—removing all the acrid matter from the stomach, bowels and intestines, without occasioning either sickness or debility. For sale by R. P. LEWIS,
