After the usual order of services were held several booklets were presented by the president. One a year book containing monthly programs, which we think will be quite interesting if executed as planned. Another, an appeal for the correct rendering of Southern history. This we also feel the need of as we have been, in many instances, misrepresented. These books will be circulated from house to house for a careful decision from each member as to whether or not we will adopt them. We hope the small price will not deprive any of making a favorable decision.
