ONE MONTH LATER!

FROM the "Photographic and Fine Art Journal," published in New York City, November number, page 332:

"THE MELAINOTYPE.

"This style of picture we have spoken of in a former number, and we can only add here that our previous notice of their manner of executing the Ambrotype is fast becoming perfect. There is a pleasing artistic effect about them that can never be produced by the Ambrotype. This, together with the perfect ease with which they can be made, the certainty of their everlasting quality, and the impossibility of their destruction by any of those accidents which would be the ruin of an ambrotype, will secure their general adoption."

W. H. DeSHONG,

187 Main street, opposite Worsham House, Memphis, Tennessee, has the privilege of that city for the MELAINOTYPE PATENT. They are much superior to the Ambrotype, Ambrotype or Sphynotype, and can be taken in all kinds of weather. Give him a fair trial. n47-1y
