M. MARSHALL'S SCHOOL.

THE Undersigned wishes the public to be advised that, in compliance with the wishes of several friends, he has undertaken the arduous though pleasing task of instruction, in this vicinity, and that, for this purpose a private school has been opened at that convenient retreat, commonly known by the name of Severson's place, which is now ready for the reception of youth of both sexes.

The terms of Tuition as follows:

Spelling, Reading & Writing, per quarter,	$7 50
Arithmetick, English Grammar & Geography,	9 00

The undersigned having had considerable experience in this department of humane enterprise, is fully aware of the weighty responsibilities which are assumed by him to whom parents confide the important trust of assisting and controlling the incipient and progressive operations of juvenile mind. He is convinced that one false step may crush, in embryo, and thus doom to perpetual withering the bud just ready to unfold its beauties, upon the light which under skilful culture might have attracted the admiration of the world. But while experience has made him acquainted with the difficulties which are to be met in the instruction and judicious management of youth, it cannot be considered unreasonable to suppose that the same experience has also introduced to his acquaintance some of the best modes of operation, and put within his reach facilities for accomplishing the great purpose of instruction fashioning the mind and heart and conduct of youth, not otherwise easily acquired These modes, he will adopt, and of these facilities it is his purpose in the present case to avail himself. They who have already favoured him with their confidence and those who may hereafter confide the education of their children to his care, may be assured that his untiring efforts will be devoted to the improvement of his pupils. With these views he hopes to receive, and *he is determined to merit* the patronage of an enlightened community.
