In a series of papers issued by the United State Commissioner of Education, John D. Rockefeller is extolled as one of the greatest educational and religious benefactors of the age, "a faithful churchman, stimulating others to fulfil religious obligations," etc. It is quite time the Republican administration and its appointees are coming to the rescue of Mr. Rockefeller, for his gifts of gold will no longer avail him. He has been arrigned before the bar of public opinion, his cruel and illegal methods have been exposed, and he has been condemned, repudiated by all honest people. Republican officials may advise any number of schemes to defend him, they may issue numberless books and papers and biogrphical sketches, but they will never restore Mr. Rockefeller in the confidence of the people.

The Journal has accepted the female theory. It admits that the female brigade has created a vast amount oi depression since the time the woman ate of the forbidden fruit in the beautiul garden of Eden. All the way down the line they (that is the female) have been heaping trouble of various kind upon mankind; and now learned men come to the front with proof sufficient to convince the most skeptical that the little female mosquito alias Mrs. Stegomyia is the instigator and holds the patent right on the diffusing of the dread yellow fever that has caused our denizens to loose their equilibrium.—Wiggins Journal.

Better look out Jim Walker, you are treading on dangerous ground. You will wake up some morning and find yourself baldheaded.

In the state of Massachusetts the crime of; rape is punishable by a term of four to seven years in the penitentiary. A negro who brutally outraged a little white girl ten years old was recently sentenced to four years in the penitentiary by a Massachusetts judge. In that state the sanctity of the home is not so secredly guarded as in many other states of this Union, and in that state more than two thousand white women are living with negro husbands.

A New York newspaper shows that a large number of American women who married titled foreigners have become the mother of twins. This affords a rational and effective method of breaking up the custom of foreig marriages. Let the news be wildly circulated.

A Mighty Safe Truth.

A farmer who knows what he is talking about hits the nail on the head whe nhe says thrt nothing pays better than good roads It costs samething to secure them, but they are the best articles that connects villiage and countries along which the life current of buisness prosperity, safety and solid comfort perpetually flow. Bad roads full of chuck holes, sloughs and bottomless mud holes, kills time, teams, and temper.—Brandon News.

From the Plaindealer, an exceedingly bright paper published at Lucedale, it is noted that Howerton Bros., will plant out very large commercial archards and establish one of the largest nurseries in the South near Lucedale. The enterprise will be watched with the greatest interest in this section, but the excellent quality of fruit grown here and the growing demand for fruit trees furnish every assurance hat it will be a success.

Gov. Longino has returned from a short business trip to Magee, where he investigated the prospects of the oil well company recently organized at that place with a capital stock of $50,000. The company will immediately commence boring, and the promoters confidently believe that that oil will soon be struck.—Jackson News.

Talk about race suicide. Why does not the government tax the bachelors and those people who are married and do not have children and give each mother who gives birth to a child a certain sum of money? It might do some good.

A certain lawyer in New Orleans, in a speech recently, said, "as long as the money last the fever will last, when the money gives out the fever will give out" and the doctors all got very mad.

Now comes the city of Natches the first place to establish a "shot gun quarantine" with her 9 cases of fever, 8 negroes and one Jewess. Mild type of course.

"Men who stay at home at night are not good for anything," says Dr. Julia Holmes Smith. We dont know who Mrs. Smith is, but hurrah for her any way.

A handy and convenient way of paying debts without money would be greatly appreciated by many people. Would-be investors kindly take notice.

No improvement has been made on the kiss old Adam invented in the garden of Eden.

A Song of Southland.

(BY R. F. LACKEY.)

Oh Southland! dear Southland, the home of the brave
True and chivalrous, are the sons that you gave,
When the horrors of war, swept over the land,
Thy heroes in gray, were close at thy hand.
Undaunted, unswerveing, but gladly they came,
Their life-blood an offering, for the Southlands dear name
But whether for glory, or an unknown grave,
They recked not of danger, to the life that they gave.
And yet, not alone, in their grandeur they stood,
Our mothers and daughters, did what they could;
Heroic and true, they gave up their all.
And smiling, through tears, THEY answered the call.
Oh Southland! dear Southland! what memories sweet,
Of courage and love, we lay at thy feet,
While garlands of faith, in the coming years,
Encircling thy brow, shine bright through our tears.
With sadness we fold, the dear tattered flag,
So riven with shot, 'tis only a rag;
No taint of dishonor, 'ere touched its folds,
To the Southland more precious, than silver or gold.
And now in the peace, like a calm after the storm,
Still hopeful and loving, we strive to perform,
The still sacred duties, we owe to our land,
Still guarding our treasures, with o'er jealous hand.

Vincennes, Ind., Aug. 25.—As the result of a race war at Carlisle, the negro Baptist Church was destroyed early to-day by dynamite, which was placed under the alter. Bloodhounds have been put on trail of tht dynamiters. Threats are being made that if any arrest are made every negro in the town will be driven out.

Some men who would raise the neighborhood if the dog was missing at night are not at all concerned as to where their children may be. Curious situation, isn't it?

They do say that Madame Stegomyal wears stripped stockings. On account of our timidity, we confess that we have made no examination.

The old adage; "Man's inhumanity to man has made countless millions mourn", speciolly applies now, some cruel, inhuman quarantines.

There are lots of henpecked men but we believe more wives are mistreated than husbands.

HARDY & ARNOLD, Solicitors. J. H. CRAWFORD, Commissioner.

The fever at Mississippi City is of a very mild type. in fact it could scarcely be called yellow fever. Twenty five cases and no deaths in the report. Who knows, that "quack doctor" may have been right in his diagnosis after all.
