The Spring Style Question Is Solved in These Beautiful Garments.....

Such a wealth of interesting merchandise is arriving every day to take it's place with the season's best apparel. Among these many new arrivals are these

CHARMING NEW DRESSES

Soft, draped folds of foulards, silk faille, tricolette and similar fabrics are fashioned into most exquisite gowns, which are narrow at the bottom and widened near the top by loose and draped folds.

Featured among these dresses are navy blue georgettes, flowered in white and tan, combined with taffeta silk of a solid color; also there are the plain georgettes over soft, lustrous foulards, making a most attractive garment. These two styles and many others are waiting for you to make your selection—but even if you are not ready to choose your dress for early spring wear we would like you to see these models, anyway. They are so attractive, so cleverly designed, and so dainty in their style that we want every woman in Great Falls to view these dresses.

20 Dozen Georgette Waists \$5.95 Each.

A wonderful collection, indeed! Styles aplenty and a different trimming for each style of waist. Never before did Fashion demand so many varieties and never before did we ever have so many blouses to offer you. There are beaded and embroidered designs in "stouts" as well as regular sizes, and the regular prices of these blouses range from \$6.90 to \$7.50.

Flowered and figured blouses—navy blue combined with rose.

Pearl gray and light blue—white combined with blue.

Navy blue and red—plain white, pink and gray.

There are a few washable satin blouses in this assortment and a great many blouses that feature the vestee effect. You may have your choice for each—\$5.95.

Protect and Preserve Your Good Figure

You owe it to yourself to protect and preserve the natural charm and grace of your good figure.

You know women who, at forty, are as stylish in figure, as graceful and erect as they were at twenty. If you ask them how they have kept their figures so youthful looking, they'll answer: "By always wearing the right corset."

That is it—wearing the right corset, the corset made for you, for your exact type of figure. Insist on having a corset that is designed for your exact type of figure.

There are many good corsets, good in material, in workmanship and outward appearance but you can never be so sure of getting the right model for your figure as you are if you ask for
