SOON TO ASK COURT TO ESTABLISH THE VALIDITY OF BONDS

Helena, July 26.—A test case to determine the validity of the \$250,000 issue of state terminal elevator bonds, passed up by private bidders when offered for sale by the state board of examiners under authorization of the legislature, probably will be instituted soon, Attorney General S. C. Ford says. Effort will be made to have the state supreme court hear the case without the preliminary of going thru district court.

If the bonds are declared valid, it will remove all obstacles in the way of the reported willingness of members of the state land board to purchase the bonds with state funds.

Lieutenant Governor W. W. McDowell then gave the provisional Irish president a formal welcome to the state. He was followed by a number of other speakers, President De Valera concluding in an address in which he outlined the aims of what he termed patriotic Irishmen who hoped thru the help of America to establish a free government for Ireland. De Valera today visited points of interest around Butte and conferred with local Irish leaders.

GERMAN LANGUAGE BAN CONTINUES TO HOLD GOOD OVER MONTANA

Helena, July 26.—The ban on the use of the German language in Montana, for church services or otherwise, continues in force, along with all other orders issued by the state council of defense, according to statements issued following the meeting of the council at the capitol today. Legal existence of the council continues until three months after peace is signed, under the law creating it, but the governor is permitted to shorten this period or lengthen it if he feels such action necessary. Since there is some doubt as to what constitutes the signing of peace, the council voted today to leave the entire matter to the governor. Only \$11,000 of the appropriation of \$25,000 set aside by the legislature has been spent by the council, according to a report presented by Secretary Charles D. Greenfield. The council thus has a cash balance of \$14,000.

Residence at Cut Bank Destroyed by Fire

It was occupied by Wilbert Fee and wife, who lost all their personal effects as well as household furniture. The fire had gotten such a start before being noticed that all the department could do was to confine it to the building and protect nearby homes. The origin of the blaze has not been determined. DIVISION HEARING IS ON BEFORE BOARD OF FERGUS COUNTY

Chouteau County Petition Is Waived—Question Hinges on Percentage Decision.

Special to The Daily Tribune. Lewistown, July 26.—The hearing on the county division petition is now formally on before the commissioners; the divisionists being represented as attorneys by Odell McConnell of Helena; Earl Wineman and A. D. Strout, of Stanford, and J. J. Jewell of Hobson. Ralph J. Anderson and M. C. Groene represented the protestants while Judge H. L. DeKalb is the special legal advisor of the board. At the beginning of the hearing the bond of the petitioners for \$5,000, conditioned for the payment of all expenses of the election, should the division proposal be defeated, was accepted. The sureties are H. S. Woodward, W. C. Flitcroft, W. W. Galt, N. B. Matthews, A. C. Edwards, Frank Meredith, H. T. Goodell, G. W. Cowan, R. Condon and G. J. Dunn. Mr. Anderson, for the protestants, made an offer to show that not a single signer of the Chouteau county division petition was a qualified elector within the boundaries of the proposed county. There were a few signers to that petition anyway and Mr. McConnell conceded that there were no qualified electors among them and consented that Chouteau might be eliminated at the start. Testimony is now being taken as to whether or not the individual signers of the Fergus county petition are qualified electors but the protestants are expected to break in on this with a showing upon the withdrawals from the division petition. It seems to be conceded by both sides that the question is going to be decided upon the contention that less than 58 per cent of the signers of the division petition are qualified electors. The indications are that the hearing may take considerable time.

Only Six Cars of Farm Outfits Leave Because of Drouth

Special to The Daily Tribune. Lewistown, July 26.—Not over six cars of immigrants left at bank today could be attributed to the drouth. However, several carloads of cattle have been shipped to market, but these shipments would have been made later anyway, being beef cattle. There is quite considerable grain to the north of the city that will be cut for hay, thus relieving an otherwise unfavorable condition for stock and will help those fortunate enough to have it to tide their stock over another year. Should rain come within a reasonable length of time a very substantial amount of spring wheat and flax will yet be harvested in this locality.
