

TAG DAY SATURDAY TO RAISE FUND FOR AN INFANT CLINIC

Institution Will Give Free Advice to Mothers of City; Held Once Each Week.

A Tag Day for the benefit of the infant clinic to be established during the summer months in one of the rooms in the old Franklin school on the west side will take place Saturday. At this time the citizens of Great Falls will be asked to donate their bits and little, to help the babies. The clinic will be held once a week under the direction of a registered nurse appointed by the state board of health. She will be assisted by a local physician and three nurses from one of the hospitals.

The clinic will be free to the mothers of the city, who may bring their babies to the clinic every week and have them weighed and examined. Proper food will be prescribed for them, the nurses will show them how to prepare the food and will visit the homes and do all they can to help the mothers make their babies more comfortable during the trying summer months.

Mrs. W. O. Lamb is chairman of the tag day committee and Mrs. L. S. Thurston and Mrs. J. F. Kleinpell will assist her.

Mrs. Laurie Jean Reed of the child welfare department of the state board of health will be in the city today to confer with the local committee about the arrangements for the clinic. Much of the equipment has been loaned by the home service section of the Red Cross.

St. Mary Students Hold Annual Picnic at Sun River Park

Last Wednesday occurred the annual picnic of the high school of St. Mary's institute. The pupils were given the day off and at 8 o'clock Wednesday morning they were motored to Sun River park by friends of the school.

During the early part of the forenoon there were sports under the supervision of the junior class, who conducted the picnic. At 12 a picnic dinner was served to all including several priests of the parish and visitors. At 1 o'clock the juniors and freshmen were defeated by the sophomore-senior aggregation in a game of baseball. The game was full of pep from beginning to end. The seniors also proved themselves to be superior in the amateur interclass hurdlings event.

Seeks to Foreclose on Great Falls Lot

Suit to foreclose a mortgage on Great Falls real estate, given to secure a note for \$4,500, was filed in district court Saturday by American Bank and Trust company against T. H. and Myra Larkin and C. E. Reed. The note was given to the Cascade bank on March 17, 1918, to mature in six months and it is alleged that all of the principal and \$250 interest remains unpaid. Property described in the mortgage consists of lots 6 and 7, block 31, of the Great Falls townsite. Defendant Reed claims an interest in the lots, it is stated, but the plaintiff bank alleged that the mortgage must be satisfied before his rights can be asserted.

Divide Property Before Suit Filed

Stating that their property interests have been settled, William Pritchard on Saturday brought in district court a suit in which he asks to be divorced from Dora M. Pritchard, to whom he was married, at Helena, Nov. 19, 1894. Mrs. Pritchard deserted him May 1, 1919, he alleges, but the controversy over division of their property has been avoided by an agreement reached before the husband's suit was filed.

DAMAGE CASE DISMISSED.

The case of Carl Liedholm against Bert Huffman, in which \$3,000 damages was asked as a result of an automobile accident, has been dismissed in district court on motion of the plaintiff. Liedholm brought the suit alleging that he purchased the car under misrepresentation, but in the motion of dismissal it is stated that the case has been settled on its merits.

OH, DEAR! MY BACK!

Merciful Heavens, how my back hurts in the morning! It's all due to an over-abundance of that poison called uric acid. The kidneys are not able to get rid of it. Such conditions you can readily overcome, and prolong life by taking "Anuric" (anti-uric-acid). This can be obtained at almost any drug store, in tablet form.

When your kidneys get sluggish and clog, you suffer from back-ache, sick-headache, dizzy spells, or twinges and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night, get Dr. Pierce's Anuric, it will put new life into your kidneys and your entire system. Send Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., ten cents for trial package.

SAN FRANCISCO, CALIF.—"I have used Dr. Pierce's remedies in my family for fifteen years and have found on every occasion that they gave satisfactory results. Recently I was troubled with my kidneys and my back constantly pained me. I took three packages of Dr. Pierce's Anuric Tablets which removed all pain and cleared up conditions. I advise every one to give Dr. Pierce's remedies a fair trial."—Mrs. E. ...

NOT BUGABOOS, BUT JUST MILEPOSTS YOU MEET WITH IN TOURING KOREA

Korean "mile posts" is what the photographer who filed 'em calls 'em. Well, be that as it may, Korea is a long way off, and American investors have plenty to probe at home. However, wouldn't they make excellent sign posts for speeding automobilists, though, wouldn't they?

Church Services Today

First Methodist, Edgar L. White, pastor.—Boys' Sunday school at 12 noon. Regular morning worship at 10:30, with sermon by the pastor, subject, "The Divine Way." UNITE MONTANA AND NORTHWEST IN IRRIGATION CONGRESS, PLAN

Washington Men Meeting in Seattle Propose That Section Co-operate to Bring More Land Into Cultivation and Representative Gathering Is Being Planned.

A great irrigation and development congress which will unite Montana, Idaho, Oregon and Washington in a concerted effort to secure complete and effective co-operation so that the comprehensive development of arid lands will become a reality, to get due recognition of the needs of projects in the northwest, and to focus national attention on the possibilities for the settlers on these tracts, is one plan suggested by a group of prominent Seattle and Spokane business men and state officials who gathered in Seattle to discuss the irrigation needs of this section.

The meeting adopted a resolution, introduced by former United States Senator S. H. Piles, of Seattle, favoring the idea of such a congress, following the taking of steps to acquaint the various states and communities with the plan, and urged the Seattle and Spokane chambers of commerce to take preliminary action by appointing a joint committee on ways and means. The Spokane delegation favored Seattle as the city in which to hold the congress.

Statement of Conditions. The following statement of present conditions was approved by the conference: 1.—That our urban and suburban population has been rapidly increasing. 2.—That our agricultural and rural population has shown a marked proportionate decrease, until at the present time our rural population is less than 50 per cent of our total population, as against 75 per cent a third of a century ago.

3.—That all of the free lands of our country, and those capable of easy agricultural development have been settled upon and improved. 4.—That in spite of this easy agricultural expansion in the last half century the rural population has not increased in proportion to the increase in the rural population.

5.—That agricultural production has shown a proportionate decrease until at present our agricultural exports are practically equalled by our agricultural imports. 6.—That this trend has brought this country to a point where it is not upon a self-sustaining basis, but must depend upon other countries for a steady increasing proportion of its food and clothing.

7.—That the only lands available for agricultural expansion in this country and in this state are those which must be reclaimed by irrigation, by clearing stumps, brush and timber, or by draining or diking, and that there are millions of acres of such unused, but potentially highly productive agricultural lands.

8.—That in the state of Washington there are approximately five and one-half millions of acres of such lands, suitable for agricultural development. 9.—That these lands now have little or no taxable value, but when improved will have a taxable value of \$200 or more per acre, will produce each year crops of the value of \$100 or more per acre, and will sustain a rural population of several million people.

Need Better Understanding. S. H. Hedges, president of the Seattle chamber of commerce, presided, assisted by W. S. Gilbert, president of the Spokane chamber.

Mr. Gilbert called attention to the need of a complete understanding between the Pacific northwest states, so that national attention can be focused on projects in the northern districts instead of those in the southeast. He pointed out that because southern California had put aside any individual interests and had united in a forward movement, the attention of the nation is directed to the Colorado basin project, although other western states have greater projects and can

Adams, speaker, house of representatives, state legislature; Frank Sweeney, vice president Spokane chamber of commerce; W. T. Day, president Day & Hansen Security company; Senator Miles Poindexter; Thomas H. Brewer, president Fidelity National bank; E. T. Coman, president Exchange National bank; A. B. Fosseen, president Washington Brick, Lime and Sewer Pipe company; Frank T. McCullough, director Old National bank; M. E. Hay, president Lincoln Trust company; Ben C. Holt, president Northwest Harvester company; James A. Ford, managing secretary Spokane chamber of commerce.

The Canadian government is building 60 ships with a deadweight tonnage of 35,000.

offer more advantages to the settler in the way of a better climate than is found on the California desert. E. F. Blaine, who developed the Sunnyside project in Washington, said the project developed three times its original cost the first year, and said other projects had made almost as good a showing. He said the Columbia basin project, with 750,000 acres, was such a wonderful enterprise that it commands world-wide attention. It has no engineering, cost or soil obstacles.

Calkins Approves Plan. "The colonization scheme of the California basin project is in the making, and there will be no trouble on that score, as past experience with irrigated tracts in the northwest has shown that there are more applications than is available. He pointed out today settlers on irrigated tracts do not have to solve the transportation problems so serious some years ago.

R. M. Calkins, vice president of the Milwaukee railroad, approved the idea of a congress, and said his railroad was committed to the policy of development of irrigated tracts in the northwest.

United States Senator Miles Poindexter said the government must realize that it will have to adopt a big policy toward the development of arid lands, and said there was need of a "wake-up" on the part of legislators entrusted with this kind of legislation.

Fred A. Adams, speaker of the house of representatives of the Washington assembly, said that Washington's need of agricultural development was typical of that of the Pacific northwest. He urged the wisdom of a big irrigation and development congress that would be participated in by Washington, Oregon, Idaho and Montana. The meeting adopted a resolution calling upon Seattle and Spokane chambers of commerce to take the preliminary action by the appointment of a joint committee on ways and means.

Those Who Attended. Representation for Seattle was: Attorney John P. Hartman, R. M. Calkins, vice president C. M. & St. P. railway; E. F. Blaine, Lowman building; S. H. Hedges, P. S. Bridge and Dredging company; Ralph Stacey, Scandinavian-American bank; Senator S. H. Piles, Marion building; Clark Nettleton, Post-Intelligencer; J. A. Wood, Post-Intelligencer; A. J. Rhodes, the Rhodes company; R. H. Parsons, Northwest Fruit exchange; Abe Hurwitz, the Star; J. W. Spangler, Seattle National bank; Nathan Eckstein, Schwabacher Bros.; Paul A. Lovering, editor, the Times; George W. Dilling, New York block; Harbey Lindsey, 512 White building; Thomas B. Hill, director state development bureau, Seattle chamber of commerce; Roy O. Hadley, secretary Seattle chamber of commerce.

The Spokane delegation consisted of W. S. Gilbert, president Spokane chamber of commerce; R. Insinger, vice president Spokane chamber of commerce; Thaddeus S. Lane, president Western Empire Development company; George W. Dodds, managing editor the Spokesman Review; Arthur D. Jones, president Arthur D. Jones company; Fred A.
