Who Mrs. Butler Was.

Butler came here as Miss Fanshawe during the winter of 1832-33, accompanying her father, Mr. Charles Kemble. She was then in the fresh bloom of womanhood and the first flush of girlhood, crowned by praises from Sir Walter Scott and Professor Wilson; and received the first night, without any previous arrangements, such an ovation as perhaps was never accorded to any artist before or since. In one box were the judges of the supreme court, with the venerable Chief Justice Marshall; in another was Mrs. Madison, attended by Vice-President John Quincy Adams; while the house was filled with the elite of all that were distinguished in literature, arts, politics, and general society of that day. The name of Kemble received to that illustrious assemblage the heroic age of the drama; and nobly did the father and daughter sustain the reputation of their lineage.

Again, in 1839, this bright and beautiful girl, ripened into the nature woman, in the full development of her wondrous gifts of intellect and emotion, appeared before a Washington audience, reading, not acting. I remember to have heard her read "Hamlet." Since she made her first appearance at the capital, she had had experiences of human life and vicissitudes of fortune —sorrows, disappointments, trials—equal to, if not exceeding those of the Prince of Denmark or Ophelia. The pensive melancholy of the principal characters, therefore, were not incongenial to the reader, or her auditors, awakening deep regrets and some virtually cherished recollections. Mrs. Butler is, as my readers may know, the aunt of Mr. Bartoris; who married ex-President Grant's daughter, Miss Nellie. —Ben. Perley Poor.

A Cure of Pneumonia.

Mr. D. H. Barnaby, of Oswego, N. Y., says that his daughter was taken with a violent cold which terminated with pneumonia, and all the best physicians gave the case up and said she could not live but a few hours at most. She was in this condition when a friend recommended Dr. Wm. Hall's Balsam for the Lungs and advised her to try it. She accepted it as a last resort, and was surprised to find that it produced a marked change for the better, and by perseverance in its use a permanent cure was effected.

The San Francisco Small Boy.

From the San Francisco Chronicle.

In a family of bright, pretty children in South San Francisco—the father of whom is a well-known mechanic of this city—exists a bright little boy, not yet 3 years old, whose exploits are somewhat remarkable. His eccentricities, unlike most precocious children's, do not seem to detract from his other qualities either of head or heart. Not long since, yet before the little fellow was 30 months of age, his father had occasion to look after some repairs at the top of a number of flat-roofed buildings of several stories' elevation. Taking the little one along with him and placing him on his coat at the foot of a ladder fastened perpendicularly against the back of one of them, he proceeded to the roof to make an investigation of the work to be done. This occupied more time than he expected, but was finally completed, and just as he was on the point of returning, judge of his surprise to see the little one's head peering above the topmost round of the ladder, and on a level with himself. To secure him and descend to the ground require no little command of nerve or exertion of muscle, but it was finally, to his great joy, accomplished. A week or two after this occurrence this little prodigy of fearlessness was missing from the family circle. A most thorough search, under great paternal anxiety, for a long time failed to discover his whereabouts. Finally, in passing through the street on which the above mentioned buildings front, the object of so much solicitude was discovered sitting on the edge of a projecting cornice, dangling his feet about a most lively rate and looking at the objects below in a most unconcerned manner. By dint of perseverance and tact the little waif was finally brought to terra firma in safety. To reach the perilous position in which he was found he had climbed the ladder on which he had made a previous exploit, walked over an eight-inch plank in the face of a strong gale of wind, to the second building and then scrambled over or crawled around a high frontage to the cornice.

Lord Dufferin cheers the Canadians from a London banquet with the prophecy that at the end of the next century they will number 40,000,000. This prophecy is at long range but still may be fulfilled. Lord Dufferin, while governor-general of Canada, visited all portions of the vast territory embraced in the Dominion, and is amply qualified to express an intelligent opinion. It is an interesting scheme for speculation, at at any rate, but what will be the population of the United States at the end of the next century is still more interesting. It is probable that the population of the two sections will show the same disparity as at present, if not greater—if the Dominion shall exist at that time, of which there is reason to doubt.

A NOTED BUT UNTITLED WOMAN.
From the Boston Globe.

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents have to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Almost Given Away

It is the common practice of the gold and silver refiners in England, France and Switzerland to purchase from the manufacturers of their respective countries all gold and silver watches which have been condemned, simply for the sake of the gold and silver cases. The works are sold to a interested watch firm, and skillful workmen put them in good condition as possible. These works embrace every variety of movement, some of them being very fine and perfect time-keepers, others not quite so good, but take the watches as they average, they are certainly the best value for the money ever offered. The cases are heavy white metal. You are sure to get your money's worth, and in most cases a great deal more than the trifling cost, and often a splendid time keeper. We have put the prices right down to the lowest point, viz: We will send ONE watch by express for TWO DOLLARS. THREE watches by express for FIVE DOLLARS. SPECIAL We will send one watch by registered mail, postage paid, for $2.25; three watches by registered mail for $5.35. For Fifty Cents extra, we will send our new and ELEGANT WATCH CHAIN, with a WHISTLE CHARM and D'OG CALL ATTACHMENT, as the thing for Hunters and Sporting Men.
What our Customers say:—"I received the 25 cent watches and sold one for 5th. Could have sold a dozen if I had them. Send price per doz. same."—T. McCLELLON, Peoria, Texas." I received your watch in good order, keeps splendid time. I have been offered $4 for it. Give me four dozen of the best dozen."—W. L. FISHER, Middleport, W. Va.
