GENERAL TELEGRAPHIC NEWS.

Associated Press Dispatches From All Points Reciprocally Proposed.

GEORGE STEEL IS APPOINTED.

The Appointment Gives General Satisfaction in Great Falls and All Around.

Porter Decides that the People of St. Paul Must be Enumerated Again—He Gives His Reasons.

WASHINGTON, July 30.—George Steel has been nominated by the president as agent at the Blackfoot Indian agency.

The news of the appointment of George Steel became known yesterday afternoon and elicited hearty approval. He will be promptly confirmed and will enter on his duties soon. A sketch of his career is given on the editorial page. Mr. Steel received many hearty congratulations yesterday. It may be recalled that he was endorsed by the Board of Trade and was the choice of the people regardless of party lines.

A Reciprocity Scheme.
WASHINGTON, July 30.—In the house today Representative Stanford of New York offered, for reference to the ways and means committee, the following preamble and resolution:

"Whereas, the secretary of state has expressed the opinion that the remission of duties upon sugar and molasses ought to be accompanied by reciprocal arrangements between the United States and Spain and the republics of South and Central America, whereby these sugar-producing countries can be induced to remit or to reduce their import duties upon products of American agriculture as to secure to the people of the United States import trade with reciprocal relationship.

"Therefore, resolved, that it is the sense of the congress of the United States that legislation touching the subject of duties upon sugar and molasses should be postponed until the next session of congress.

"Resolved, that the president be requested to cause negotiations to be entered into with the governments of Spain and of the republics of South and Central America in regard to the consummation of reciprocal arrangements of trade heretofore mentioned and to institute such other investigations as to him may appear to be proper in order that he may be prepared to furnish to congress at its next session such information and conclusions as will enable it to legislate upon the subject without delay."

St. Paul Must be Re-counted.
WASHINGTON, July 30.—Senator Davis of Minnesota called at the census office today and again protested against what he believed to be the wholly uncalculated and indefensible implication of corruption and fraud against the people of St. Paul, contained in the recent order directing a recount of the population of that city.

Supp. Porter in speaking of the senator's several visits and the probable arrival today of a delegation of citizens of St. Paul to further the protest against the proposed recount, said in substance that he would be glad to meet the gentlemen from St. Paul as it would give him an opportunity to prove to them that if but half the fraud which had come to his knowledge had been committed, a recount, in justice to himself and all others concerned, must be had. It had been charged, he said, that his action in ordering a recount of St. Paul was based upon the fact that fraud had been committed in Minnesota. Nothing could be farther from the truth. The case of St. Paul had been considered alone, as dozens of cities had been considered, each wholly independent of others. The fact is that in 10 districts out of 20 returns, he said, were overflowing with evidence of fraud. Business men in large numbers were enumerated at their homes and again at their business places. In one large newspaper office 91 editors, reporters and compositors were enumerated as "lodgers." On one street, out of 98 families, 15 were returned as having 10 members each; just 10, all our schedule would hold. Large buildings in different parts of the city had been given as the homes of a number of people who never lived there.

Chicago in Danger.
CHICAGO, July 30.—A disastrous conflagration broke out tonight on the lake front at the foot of Michigan street near the mouth of the Chicago river. At 8:30 p. m. the indications were that the fire might be one of the most extensive that has occurred in Chicago since the destruction of the most valuable part of the city in October, 1871.

By 10 p. m. the fire was under control though still burning fiercely. A potent factor in bringing about the result, was the lucky circumstance that the wind was blowing directly off shore. Between 10 and 15 acres of lumber were consumed with not far from 40 freight cars.

Several huge store buildings and a gigantic pile driver were destroyed. The principal losers are as follows: Ayer & Co., \$140,000, partially insured; Fitzsimmons & Connell, \$4,000, no insurance; Chicago & Northwestern railway, \$25,000 and the city of Chicago, \$10,000.

People Greatly Alarmed.
TOLEDO, Ohio, July 31.—A special to the Commercial at 1 o'clock this morning from Barletstown, Ohio, says that all the residents have their goods packed ready to move out at the slightest intimation of fire. Citizens are suspicious of each other and armed men are patrolling the streets to guard against incendiaries. The town has about 800 people and all of the prominent buildings have been burned by incendiaries.

Sad Accident at Minnetonka.
MINNETONKA, July 30.—Lewis D. Washburn, a leading civil engineer of this city, was drowned in Lake Minnetonka this evening with his wife, Gussie Buckman, daughter of E. H. Buckman of Sioux City, Iowa. He was in the water near his cottage, trying to teach the girl to swim when he was seized with cramps and both went down. Mary Buckman, sister of the unfortunate girl, was in a boat near by, but could render no assistance.

AN EXCITED CORN MARKET.
What Does It Mean?—Good or Bad Crop?

CHICAGO, July 29.—Wheat—Quite a large business was transacted in this market, and the feeling developed was unsettled and narrow. Prices were subject to sudden fluctuations and easily influenced, on account of the fevered condition of the market. The opening was about 1/8c lower than yesterday's closing; ruled easy and further decided but later suddenly developed strength and within five minutes prices were advanced 1 1/2c. The upturn was rather unexpected and was a general surprise. The advance, however, brought out rather free offerings, under which prices receded 1/4c, fluctuated some and closed about 1/8c lower than yesterday. There was considerable selling; it was claimed, by heavy "longs" and foreigners were reported to have sold both here and at the seaboard.

Corn—There was another large day's trading in this market and fluctuations covered a wide range. The market opened wild and excited at 1 1/4c under closing quotations of yesterday, under which, but soon turned up, advancing 1c, and later reached 1 1/2c and sold up again to 1 3/4c; ruled easy and closed 1 1/2c 1/4c lower than yesterday.

ORDER REIGNS IN THE SOUTH.

The Buenos Ayres Revolt Appears to Have Ended.

PRESIDENT CELMAN RESIGNS.

The Civilians are to go Scot Free—Army Officers are to Lose Their Rank.

Vice-President Pellegrini Becomes President—Conflicting Reports Received.

LONDON, July 29.—A dispatch to the Times, dated Buenos Ayres, Sunday, 28 7 p. m. says:

"It is rumored that terms for a settlement between the government and revolutionary forces have been agreed upon. According to these the civilians who have taken part in the insurrection will not be punished. All captains of the revolutionary forces above the grade of captain will be deprived of their rank. The artillery of the insurrectionists will be surrendered tomorrow.

The above dispatch is President Celman's version of the situation at Buenos Ayres. Private dispatches received here from that city dated Sunday, 9:30 p. m., state that there is no change in the situation, and no chance for a compromise between the two factions. The matter, the dispatches say, must be fought out.

Stevens and Dickey are both held on the charge of conspiracy. Bail was fixed at \$2,000 in each case, the prisoners being released on bonds furnished by C. C. Dunn, J. A. Nash, Loren Fletcher and others.

Nearly every county in the state was represented and the gathering comprised something over 800 delegates. Of these members of the Farmer's alliance predominated with a good following of grangers. MARY ANDERSON'S RANCH.
A SHIRAZ Relative Converts It into a Withers.

DENVER, July 29.—The Mary Anderson ranch on the Klondike is now almost abandoned. The actress purchased the place several years ago and stocked it with blooded horses and cattle, for which she paid thousands of dollars. The property and stock she made a present of to her relatives and placed a half brother in charge, hoping thereby to help him, as he appeared totally incapable of helping himself. Instead of keeping up the valuable ranch they have shamefully neglected it, selling off or letting the fine stock die, and it is now almost a white man's abandoned to the coyotes and jack rabbits.

BUSY TIMES AT YOGO.

The Camp Shows Considerable Activity. [Special Correspondence of the Tribune.]

Yogo, July 29.—The Yogo mining camp shows more activity and mining progress at the present time than she has at any time since the days of '78 and '79. The Belt Mountains Mining company is shut down at present on account of some breakage in the machinery of their mill. As soon as the breakage is repaired, everything will be running in full blast again.

There are several fine prospects in and around Yogo. Among the most prominent that I saw were the prospects of Thos. Ring, Scott and Bradley. The Last Chance and Fraction mines, owned by Scott and Bradley, assays \$35 in gold and 75 ounces in silver and 15 per cent in lead.

The Mining Star, owned by King, Wilson, Winkler and others, is a fine prospect, the vein is about 10 feet wide and will assay about \$150 in gold and about 20 per cent lead.

The Gold Belt mine, owned by the Belt Mountains Mining company, has fair to rich veins in the Belt mountains. There is a tunnel in on the vein 300 feet, all the way in ore.

There appears to be considerable vim and energy amongst the prospectors at Yogo. They are all working hard to develop their properties. Grow and Ferris have some fine looking prospects and are doing some first class development work.

With flattering prospects for future success, and in Spring coal. Chas. F. Martin has one of the best mines of hard carbonates in the Belt mountains. It is from 18 inches to five feet wide and assays way up in gold, silver and lead. Hank Northam has some nice prospects adjoining. The grass in the mountains between Yogo and Barker is fine. I saw three mowing machines making hay, where there was never a machine seen before. There will be considerable hay put up in these mountain valleys this summer.

WASHINGTON, July 29.—The senate committee on judiciary has practically concluded its consideration of the bill for the relief of the supreme court and will report it to the senate in a few days.

Fifteen Acres of Lumber and About Forty Freight Cars were Destroyed by the Flames.

SENECA FALLS, N. Y., July 30.—About 3 a. m. the Deas building here took fire. In a few minutes the entire structure was on fire. At 7 o'clock the commercial portion of the town was in ashes or in flames. All three newspapers are burned out and the telephone service is suspended.

An area of nearly three acres was burned over and many of the best business buildings in the town were wiped out. A careful estimate by insurance men and others, places the loss at between \$600,000 and \$700,000, with insurance amounting to only \$100,000.
