PANIC IN THEATRE

MORON MORE THAN 250 KILLED IN MOVING PICTURE PLACE AS "FIRE" WAS YELLED.

CINCINNATI, July 26 (Telugu).—A panicky crowd of more than 250 persons was killed in the Family Picture Theatre here today, as a panic terrifically swept the place during the showing of an American film, "Footsteps in the Night," which was on the screen. Some 300 persons were killed in a second show. The cause of the panic was the noise made by pictures in the back of the theatre, said to be a "flying bomb." There were two shows on the same screen, one at 2 p.m. and the other at 3:30 p.m. The first show was uneventful, but the second show had started when the panic occurred.

Washington State News.

Washington, July 25.—The office of the state bureau of statistics was set afire by a man who had been denied a job in the employ of the state. The bureau was housed in a two-story brick building in the heart of the city, and the fire was started by the man who had been denied a job. The bureau was destroyed, but the damage was not great. The man who started the fire was arrested and charged with arson.

WASHINGTON FARMERS

IRRIGATION STATISTICS FROM REPORT OF THE CENSUS BUREAU OF U.S.

The census of irrigation in the United States, conducted by the U.S. Census Bureau, shows that irrigation is increasing rapidly in the country. The total amount of land irrigated in 1910 was reported as $15,014,000, as compared with $9,000,000 in 1900. The increase is due to the growing importance of irrigation in agriculture, particularly in the western states. The census shows that the greatest amount of land is irrigated in California, with 4,600,000 acres, followed by Oregon with 2,600,000 acres.
