Deputy Clerk and Recorder Hovind has returned from his trip through North Dakota and reports most roads in excellent condition. He says that there is much work being done on the T. R. in our sister state, which prevents fast driving. The Red trail is in good shape; he made 300 miles in one day over it.

Domestic wheat harvest large; foreign small. The wheat-harvest season in the United States as it affects the world's supply is being watched this year as it has at no time since the signing of the armistice, say officials of the Bureau of Market, United States Department of Agriculture. Estimates thus far indicate that this country will have a crop around 809,000,000 bushels, as compared with 787,000,000 bushels last year, which, it is thought, will make up somewhat for less encouraging reports from other parts of the wheat-producing world.

The Southern Hemisphere—Australia and Argentina—started the present calendar year with two good crops, which seemed to assure the importing countries of ample supplies for the remainder of the present crop year, which ends July 31. India began the season's wheat harvest in the Northern Hemisphere, completing cutting in May; and the outcome was, as had been forecast, a short crop. India is not only out of the exporting list for the next 12 months but may, and probably will, be an importer.

With the winter wheat prospects in the United States cut down to 55,000,000 bushels to a total of 574,000,000 estimated in the July report of the Bureau of Markets and Crop Estimates, and the spring wheat conditions reduced by heat, drought, and rust, the importers will apprehensively watch the harvest of the winter wheat in Canada's farthest north crop finally secured. Canada's wheat is threatened by drought and rust.

Baptist Church Notes.
 Here's joy to the City of Glasgow To her people all "good cheer" My visit so immensely delightful 'Til love to be always here.

Just one thing wrong with Glasgow The only one I see; Don't be harsh or unkind I mean it well Pray listen a moment to me.

You say the tourists are coming I'm sure they'll enjoy the town, There's pleasure and peace and contentment Just everywhere to be found.

Should Jesus come to Glasgow Nature's smile would greet him here, But, Oh! if he went to the churches How few in His worship found there.

So this is what's wrong with Glasgow That those who love her best, Are not in the congregations To hallow the Day of Rest.

I. B. March.

Sunday school at 10 a. m.
 Morning worship at 11:00 a. m.
 Evening service at 8:00 p. m.
 Rev. I. B. March will speak both morning and evening. Rev. Tillman R. Brady of Chicago has accepted the call to become the pastor of the Baptist church and will be here to give his first sermon, August 7th.

TO FRIENDS OF MISS TILLMAN.
 Miss Tillman's health has been restored and she has followed her ambition of many years and offered herself for Foreign Missionary work, herself accepted, and sails September 15th for north China to do hospital work.

Her friends are helping to provide her transportation and equipment, which totals a cost of about \$600.00. Miss Tillman has sent Miss Moore, at the hospital, a partial list of necessary things and her numerous friends in Glasgow and community will be glad to help. Leave gifts or money with donors name on, with any of the following persons: Mr. Ackerman at Glasgow Drug store, Miss Moore at the hospital, Mrs. Glen Maris, Mrs. Otto Christensen, or direct to Miss Fern Tillman, Renton, Washington. What is done should be done at once to save her anxiety and to prevent duplicating needed articles.

NEW MAN JOINS WOLF POINT NATIONAL FORCE

Rudolph Hoel and family are now residents of the city, occupying the H. B. Tyson residence. Mr. Hoel has joined the First National bank force and will become an official of the bank.

Mr. Hoel is a banker of long experience. For eight years he was connected with a bank at Ray, Williams county, N. D., and for the past five years has been with the Northern Securities Company of Minneapolis. In this connection he has made many trips through the northwest and kept in touch with business conditions and has made frequent visits to Wolf Point. He says that he has had his eye on Wolf Point for some time and has great confidence in its present advantages and future prospects. He was well acquainted with L. C. Wingate, vice-president of the First National, in North Dakota. Mr. Hoel's family consists of a wife and two children.—Wolf Point Herald.

Ideal in Name— Ideal in Performance

Over 20,000 owners of Rumely Ideal separators know what genuine threshing satisfaction really is.

For they are using the most scientifically designed machine obtainable—the one with over 80 years of manufacturing experience back of it—the one with a well earned reputation for fast, clean threshing.

It takes all varieties of grain in any condition—headed or bundled, long straw or short, wet or dry, in good weather or bad. And it puts *all* the grain where you want it—in the wagon—not in the stack.

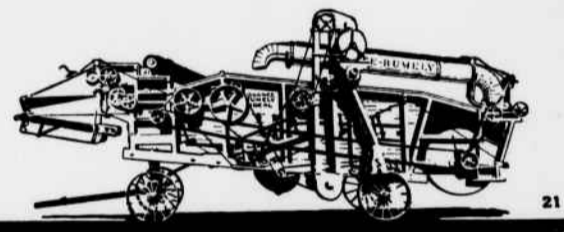

Vibration is eliminated by a perfectly counterbalanced cylinder which has the effect of relieving the bearings of wear and keeping the shafts in proper alignment.

And, instead of having to stop the Ideal and crawl into and under it to make adjustments and do the oiling, you do this work from the outside while the machine is running.

We can offer you five sizes: 22x36, 28x44, 32x52 and 36x50—all standard in design, all possessing large capacity and thorough cleaning.

And remember we also handle the famous OilPull tractor.
