### RIDDICK GIVES SUPPORT TO ALL FARM MEASURES

The farmer members of the Riddick-for-Senator club of Fergus county, composed of men and women who have long known Congressman Riddick as a farmer, county assessor and member of congress, recently issued the following statement to the farmers of Montana. Among the members of the executive committee of this club are John Quickenden, president of the Taxpayers association and Mrs. A. F. Burnson, president of the Farm Bureau of Fergus county. The statement of these friends and neighbors of Mr. Riddick follows:

"To the Farmers of Montana: "Agriculture is the foundation of prosperity in the nation and state. Unless and until it is put on a paying basis there will be no return of good times.

"In recognition of this fact President Harding's administration has sought to use all proper and effective means to promote the interests of the farmer.

"The Honorable Carl W. Riddick has been a consistent supporter of the program of the administration, and in pursuance of this policy has supported every measure for the betterment of agriculture.

"Among these measures are the Emergency Tariff bill, especially designed for the protection of agriculture; the Agricultural Credits Act, which enabled the War Finance Corporation to lend money to the farmers and livestock growers and provided a billion-dollar revolving fund for that purpose; the amendment of the Farm Loan Bank Act, increasing the funds available for its operation in the sum of twenty-five million dollars; the law regulating grain exchanges and dealing in "futures"; the Packers and Stockyards Act; the Co-operative Marketing Act; the Seed Loan Act, and other legislation beneficial to agriculture.

"Mr. Riddick's experience in Montana has given him a full appreciation of the needs of the farmers, and he is

CARL W. RIDDICK

one of the recognized champions of the agricultural interests in Congress. He has received the public commendation of Senator Capper of Kansas, the recognized leader of the farm bloc in the senate, and of Mr. J. R. Howard, president of the Farm Bureau Federation. Both of these men say that Mr. Riddick has been absolutely right in his support of agricultural interests. "Mr. Riddick's supporters believe that his support of all proper measures designed to promote the agricultural interests in his state and the United States entitles him to the support of the farmers of Montana. It has never before happened that the farmers of this state have had an opportunity to cast their votes for congressman or senator for one who has himself been a farmer and who has been consistent in his support of all measures intended to promote agricultural prosperity."

## TO VOTERS OF VALLEY COUNTY

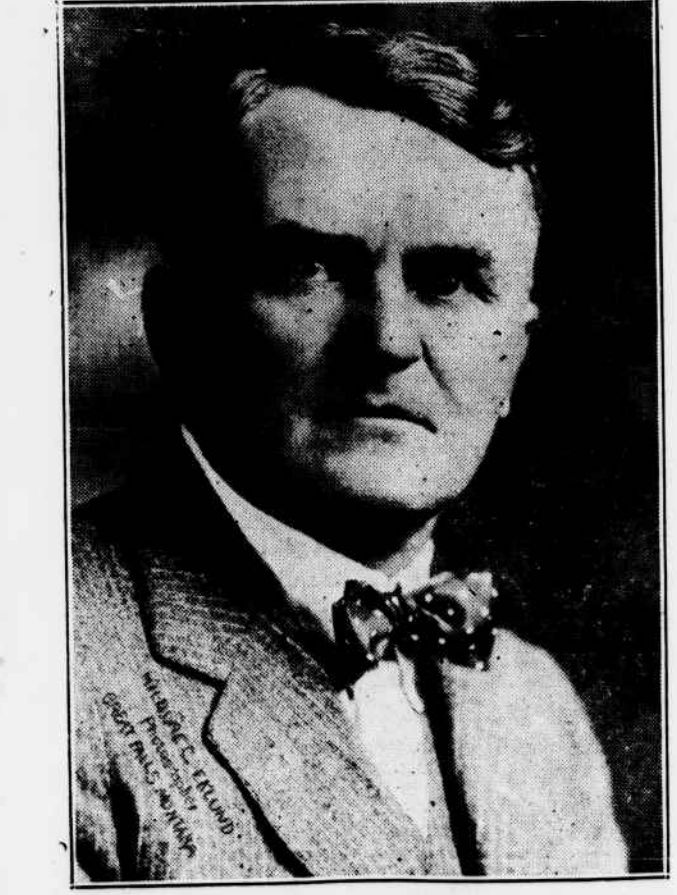

In the Glasgow Democrat of August 18th, 1922, appears an article over the "signature" of "Political Advertisement" wherein is set forth by several stockmen and farmers residents of the district north of Hinsdale that stock rustling has become so bad in that vicinity that it is necessary that they go out of business, unless one, J. R. Stephens be nominated and elected sheriff of this county.

I am therefore taking the opportunity of making this statement in behalf of my office. Since January 3rd, 1921, the day upon which I took office, there has been only one complaint of anything in the nature of stock stealing made to me by any of the gentlemen whose names appear at the bottom of the article mentioned. This complaint was immediately and vigorously followed up at a very considerable expense to the taxpayers, only to find that the missing cattle had strayed to another part of the range.

If any of the gentlemen who signed the statement in the Democrat will make a complaint to this office, same will be immediately and thoroughly investigated.

CHAS. A. HALL,  
Sheriff of Valley County.
