

Dry Farming In California

Conditions There Less Favorable For Raising Grain Than In Northwest

The following is taken from an article published in the Bell's Home Journal by Mr. R. H. Russell, to the west coast south in California, there is a serious problem that will hinder the raising of grain in that section.

The best method of dry farming is a more scientific one than the ordinary method of dry farming. It is a more scientific one than the ordinary method of dry farming. It is a more scientific one than the ordinary method of dry farming.

In the case of wheat, the California farmer, who is not a specialist, will find it difficult to raise a crop of wheat in California. The California farmer, who is not a specialist, will find it difficult to raise a crop of wheat in California.

Jury Says Hedrick Is Not Guilty

After Being Out Eight Hours Jury Returns Verdict For Acquittal

In the case of State vs. Wm. Hedrick that was called yesterday in District Court, a verdict of not guilty was brought in. The case went to the jury at 2 o'clock in the afternoon and a decision was not made until 10 o'clock at night.

The action has been pending for some time, having been appealed from Justice Court, and involved the ownership of a number of horses.

Judge Carpenter of Lemmon assisted in the prosecution. Attorney Goble of Baker represented the defense.

The case of State vs. Armstrong and Codax came to trial Monday, the defense being represented by H. O. Tracy of Ekalaka. Armstrong had previously plead guilty to the charge and had paid his fine. Codax plead not guilty and was given a verdict of acquittal.

The charge of larceny was brought against the defendants, it being alleged that they "borrowed" a buggy without the consent of the owner. The fact that they had done this was established, but in the trial of Codax, Judge Tracy raised the point that temporary possession of an article of this kind is trespass and not larceny, and as Codax was charged with larceny, the court ruled that he be released.

Will Read Records
F. H. Trandina, deputy county clerk of Fallon county, will be in the city next week, and to him and Earl Kirkpatrick of the county clerk and recorder's office of this county, will fall the task of going over the records of Fallon county that were transferred or alleged to have been subscribed by Carl Skinner of happy memory.

For this work of comparison, which will embrace all papers and documents relating to real estate, Fallon county will pay Chester county six dollars per month for Mr. Kirkpatrick's services as the law provides. Chester county could insist on furnishing both of the men who will do the comparing, but inasmuch as Fallon has had its own trouble in the matter, the comparison will be made by an employee from each county. It will take four or five months to do the work.

Telephone Directors Meet
At the annual meeting of the board of directors of the Ekalaka Telephone Company held Thursday, a change in the personal of the board and of the officers was made. Chas. Lavell, who has been acting as president of the company resigned from that office and from the board and was appointed superintendent. Geo. Farwell was elected to the office of president and retains his place on the board. Geo. Sykes goes in as vice-president and remains on the board. W. H. Peck was elected secretary-treasurer and will fill the place on the board caused by the resignation of Mr. Laven.

The five-year-old son of Mr. and Mrs. Aubrey Jolley was badly scalded last Sunday with a kettle full of boiling water. The little fellow is getting along nicely however and will soon be as well as ever again.
