

THE TANK TRUCK

John Hamon, former County Agent, tags a sack of certified seed, his specialty. Mr. Hamon says Conoco Super Motor Oil is "super" for all engines.

Evidence of Mr. Hamon's expertness in everything he does, business or hobby, is this black-and-white version of a fine Kodachrome picture he made in Glacier National Park.

Takes Pictures—and Prizes

THE LIBRARY at Kansas State College buzzed, as usual, with the subdued chatter of students "studying." Before a rack of newspapers stood a boy and a girl. At the same instant, each reached for the same hometown paper. Thus John Hamon met Bertha Cook, strangers up to then, although their homes were within a few miles of each other.

John and Bertha are still reading the same paper. In it they have seen the story of their wedding. In it they have read accounts of Mr. Hamon's graduation from Kansas State, his appointment as County Agent in Wilson County, Kansas, his transfer as County Agent to Torrington and later Thermopolis, Wyoming. They have seen articles about his

prize-winning photographs, his lifetime hobby.

The paper has recorded the birth of their son, Charles, and followed the boy's career as a prize-winning 4-H'er.

And they have read the headline that announced John Hamon's resignation as County Agent and his return to Valley Falls, Kansas,

to become a full-fledged farmer. From time to time there have been stories of his outstanding success at raising certified seeds—Pawnee wheat, Cherokee oats and Atlas sorgo. And maybe the Hamons will even see a writeup in the paper about *this* story!

Anyway, we hope you'll read what he has to say about Conoco Super Motor Oil. "Our experience with Conoco Super," Mr. Hamon reports, "convinced me that it is truly a 'super' oil for all engines."

"Conoco quality is unsurpassed . . . and Conoco Super is standing up under hard use in our tractors. I was offered many opportunities to change to another brand of oil, but I passed them up because I believe Conoco has something better. I'm satisfied!"

Gets More Power..Uses Less Oil with Conoco Super

★ ★ ★

"I've used Conoco oils and greases in my old combine harvester for 22 seasons straight," says John E. Brooks, Ashton, Idaho. "In all this time, only one ring job was necessary. So I didn't hesitate to change to new Conoco Super Motor Oil—and right away I noticed I got increased power and used less oil between drains. That sure is a good oil!"

Corn Meal Rolls

... by Mrs. Mary England, Dahinda, Illinois
 $\frac{1}{4}$ cup milk
 $\frac{1}{4}$ cup yellow cornmeal
 $1\frac{1}{2}$ cups flour
 4 t. baking powder
 1 t. salt
 4 T. melted shortening

Scald milk, remove from fire, mix with cornmeal. Sift flour, baking powder and salt, add shortening and mix with fork. Add cornmeal and milk. Turn on floured board and toss until smooth on both sides. Roll out $\frac{1}{4}$ " thick. Cut with biscuit cutter, brush top with melted butter. Crease through center with knife, fold over in pocketbook style. Bake in oven 425 degrees F. about 15 minutes. Makes 24.

FARM KITCHEN

Pickup Tiedown

If your pickup has no tie-down rope stakes, do this, suggests A. F. Ekstrom, R. 2, Mt. Morrison, Colorado: Use $\frac{1}{2}$ " or $\frac{3}{4}$ " pipe, full length of bed, and bolt to body flare with three $\frac{3}{8}$ " bolts with nipple.

"50,000 MILES— NO WEAR"

After a punishing 50,000-mile road test, with proper crankcase drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence . . . in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000! This test proved that new Conoco Super, with OIL-PLATING, can make your cars and trucks last longer, perform better, use less gasoline and oil.

Speed Wrecking Tool

For quick removal of flooring, siding, etc., with a minimum of splitting, make wrecking tool 3 feet to 4 feet long of 1" shaft, as shown, says Tom J. Smith, Box 25, Rose Creek, Minnesota.
