

It makes good sense to have an umbrella  
*(even if you never use it)*

When you do need an umbrella, it comes in mighty handy. We're offering you three forms of umbrellas, too. We call them financial umbrellas. They come in mighty handy in case of an accident. Or if you're in the hospital or need a nurse in the home after hospitalization, or undergo surgery. Our financial umbrellas help cover the sometimes staggering medical and hospital bills that can develop.

You owe it to yourself to find out about our financial umbrellas. There's no obligation. All you do is send this coupon with your name and address. Why not do it now?
