Address

Move grain fast
with a
**HUTCHINSON
AUGER**

Choice of 5 sizes
from 16 to 41 ft.

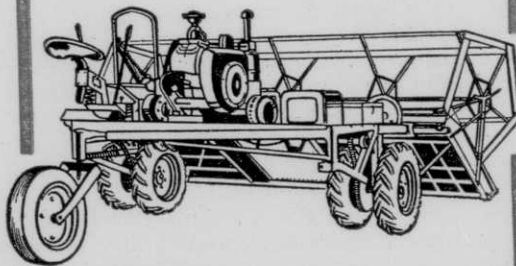

- 1800 BU. PER HOUR capacity with no bearings or hangers inside tube to interrupt flow of grain
 - EASY TO MOVE, easy to trail; economical to use
 - 35 FINER FEATURES make HUTCHINSON your best buy
 - ACCESSORIES AVAILABLE to individualize a HUTCHINSON to your exact needs include sectional spouts, grain auger-hoppers and extensions
 - TRUCK GRAIN LOADERS also available with or without carriages
- ALSO AVAILABLE IN 4" JR. HAND AUGERS, SIZES 11 TO 31 FT.

**OWATONNA
Windrower**

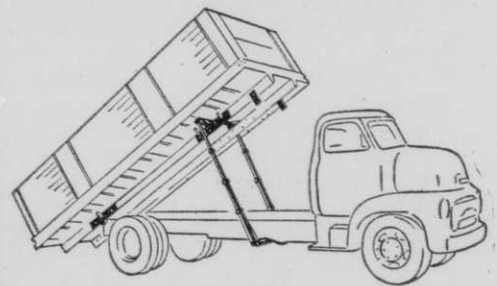

has dual wheels,
is self-propelled

- DUAL-DRIVE WHEELS for increased flotation and sure traction
- POWER FOR HEAVIEST CUTTING
- OPEN FIELDS ANYWHERE; cut only the crop that's ready
- TURN ON A DIME, trim close to poles or fences
- HEAVY DUTY, MOWER TYPE cutterbar using mower guards, mower-type sickle with HERCROME ledger plates and sickle sections which eliminate gumming
- CRISS-CROSS CENTER DELIVERY lays every hay or grain crop in fluffy, heads-up windrows, ready to bale, load, field-chop or combine

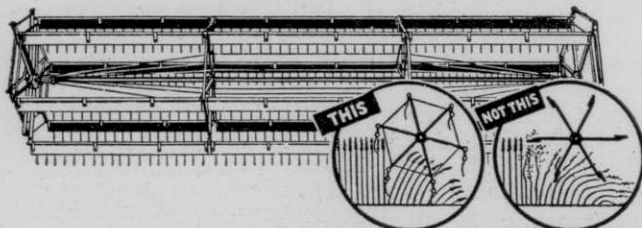

**A HARSH
Hydraulic HOIST**

is the most hoist for
the money

- POWER AND DURABILITY for less cost
- LIGHTWEIGHT keeps down the taxable weight of your truck—increases your payload
- MAKES UNLOADING EASY . . . does it in mere seconds
- MODERNIZES FARMING by applying hydraulic power to trucking
- SIZES TO FIT ALL UNITS from pick-up to tandem axle trucks—14' to 20' and capacities up to 20 tons
- POSITION OF TRUCK BOX is not altered with a Harsh hoist

A HUME REEL harvests without shattering

THIS: Hume Reel
—gentle action

NOT THIS: Ordinary
reel — shattering

- PERPENDICULAR BATS on a HUME REEL cause narrow edge to divide grain, wide face to press grain gently against cutterbar
- LONG TINES comb the field to assure complete pickup
- EASILY ATTACHED to all combines and swathers—sizes from 40" to 242"
- "FLOATING POLYGON" gives effect of a double drive. Bat torque is reinforced
- PAYS FOR ITSELF by picking up all the crop—standing or down
