EIGHT WELLS OF KINTLA

If Proposed Arrangements Are Carried Out the Old Fields WILL BE WELL PERFORATED

In More Ways Than One Newsmen—The Butte Company Will Trade the Kalispell Bee and Kintla Company and Canadian and Others Proposed.

The Butte company will have two drills in operation in the Kintla reserve for the next few days and to the present location near the head of Kintla lake, and the other on the north about ten miles this side of the old well. This announcement made that morning by B. T. J. O. Concentration, and the time of operation last night. On account of the lack of heavy pay, no announcement has been made, but it is expected that sufficient casing can be secured, and operation resumed it will be continued until wells on their land, the work to completion was accepted and it is now only will arrive at Belton some time this of men will keep their word. If these and will at once be taken to the site Hanan concern for some time. The most promising in the entire fields. and will be delayed en route. They also agree to employ union and will be double the com- the business of the union in Mis-
