The New Wage Scale

Increase of three cents a ton in pick and machine mine coal.

Miners increased from $3.75 to $3.80 per day.

Tracklayers increased from $3.75 to $3.80 per day.

Miners taken from face work to do company work will receive $3.85 per day, as against $3.75 under the old scale.

After the above the changes the day work and yardage and dead work scale remains the same.

A slight reduction in cost of coal to miners was made.

The miners were also granted a semi-monthly pay day, this provision going into effect January 1st, 1911.
