**BANK HAS PROMINENT  
PART IN COMMUNITY LIFE**

Since Its Establishment the Miners Savings Bank & Trust Company Has Played an Envious Role in the Lives of Butte and Silver Bow County People.

Cities and prosperous communities do not happen—they are built. It is only through the united efforts of public-spirited men and institutions that our American communities come into existence. In a like manner they grow and prosper under the guidance of these men and institutions, or falter and disappear for lack of such guidance.

The Miners Savings Bank & Trust Company is such an institution; one that has done much in promoting the prosperity that this section has enjoyed in past years. Its influence on the home life of Butte has been marked indeed for its willing assistance and able advice, many who might never have known the satisfaction of owning their own homes or businesses are now substantial citizens and home owners.

Their savings department has always been an active and important part of their business. Interest on savings accounts is compounded, and with a consistent program of saving over a period of years security and independence in old age are assured.

The policy of the Miners Savings Bank & Trust Company, in every banking department, is one of accommodation and convenience to the customer. It has always extended every courtesy and the utmost in service, consistent with good banking practice, both to borrower and depositor alike.

Its executives are men of wide experience in banking circles and are capable of giving you dependable and authoritative advice relative to any financial problem which may confront you.
