**EVANGELISTS WORK
EARNESTLY**

**LEADERS WHO WILL CONDUCT
THE MISSOULA JANUARY CAM-
PAIGN ARE GENTLEMEN.**

Evangelists Lowry and Moody, who will begin a series of union evangelistic meetings in January, are now at Park Rapids, Minn. They are not strangers in the northwest, having held meetings in Iowa, South Dakota, Wisconsin, Colorado, Montana, and in 21 towns in the state of Minnesota. Last winter they conducted a very successful meeting at Anaconda. During that meeting there were nearly 500 decisions for a better life.

Mr. Lowry is in no sense sectarian and in all respects is impartial in his attitude toward the churches. At the close of each meeting those who have indicated their desire to unite with some church are given the opportunity to give their church preference to a committee. The names of these persons then are given to the pastors according to the church preference indicated.

It is confidently expected that these meetings will be of absorbing interest to this city. The chorus will be large and Mr. Moody is a singer of high standard. Mr. Lowry is a man of splendid physique and pleasing voice. He is very direct in his method of preaching. He will be a free lance and will say what he thinks without regard to whom it fits. But he is always a gentleman.

**BUTTE EVENING NEWS
WILL SOON SUSPEND**

Word was received here yesterday that the Butte Evening News, which has been the vigorous afternoon newspaper of the big mining city ever since it was started by F. Augustus Heinze, is to suspend publication and that this will be its last week of existence. No reason is assigned for the withdrawal of the News from the field which it has so conspicuously filled, but it is assumed that the cause is the usual one, that the business of its field does not meet the cost of production. The suspension of the News will leave the afternoon field in Butte to the Inter Mountain. The Miner and the Standard will share the morning field unless the consolidation of the two, which has been so often rumored, is made.

HUNTERS WELCOME.

All hunters and fishermen are hereby cordially invited to hunt and fish for all they can get during the open season for this year on the premises of the undersigned, with the understanding that calves, colts, tame goats, sheep and domestic fowls shall be immune. (Signed)

**HIGH SCHOOL SHOW
WILL PLEASE**

**ENTERTAINMENT TONIGHT WILL
BE NOVEL AND FULL OF
ORIGINAL FUN.**

At the high school tonight the students will present one of the funniest entertainments of the year. It is called a circus, but it merits a different name, for it is more entertaining than any circus and more amusing than any comedy. The program abounds in stunts which have been evolved and developed by the different classes, and last night's dress rehearsal had the limited audience convulsed with laughter. Those who have seen the show say it is a winner.

Not all of the entertainment will be humorous. There are serious numbers alternating with the ridiculous, and the best talent in the school has been enlisted for the evening. Lawton Beckwith will open the program with a violin solo, which will be followed by the stunt of the senior class. It is hinted that this burlesque will hit the freshmen in a good-natured way, but nothing is given out as to its details.

Next will be a German dialect recitation by Miss Leyenburger, the German instructor in the school, who has won a reputation as an entertainer. Her contribution to the evening's entertainment is certain to be delightful. Miss Leyenburger's number will be followed by the junior class stunt, concerning which no inkling has been allowed to leak out.

Miss Chadwick will follow with a vocal solo, and then the sophomores will give their stunt. The only hint which has been given as to the nature of this number is that the class has borrowed Professor Eldred's big stereopticon sheet and it is stretched across the assembly room, adding mystery to this part of the program. Miss Pritchard, with a solo, will add further dignity and harmony to the entertainment, and then the freshmen will get even on their lives. They have a stunt which will pay off a lot of old scores and will make lots of fun. The whole will be concluded with a dance, to which all the audience is invited. The students promise a good time to all their friends who attend tonight.

The junior class will have an extra attraction in the hall, and there will be some side shows to the circus which will interest as well as entertain.

**FORT GEORGE LAND
AND LOTS SELL FAST**

Great progress has marked the opening of the Fort George campaign in this city, according to A. L. Hayward, the representative of the Webb Realty company of Spokane, who is selling the townsite and farm land property in the now famous city of Fort George.

It is remarkable, said Mr. Hayward, the extraordinary interest which is being displayed in our properties in British Columbia. When one stops to consider 12 months ago Fort George was practically unheard of, but that today every other person on the street is talking about it, and about the great undeveloped country in British Columbia. There is no question, continued Mr. Hayward, that this section will develop most rapidly into one of the best balanced and best developed countries in North America. Already the Grand Trunk Pacific which is building into the country, has an estimated daily expenditure of \$100,000, which, according to the best authorities, will continue for the next five years. Some of the biggest banking and financial firms have established in the country, population is pouring in at an unprecedented rate and the mining and timber capital interested runs into the millions.

Naturally, the investment opportunity which is thus afforded to buy townsite property at Fort George, at \$400 for business lots in the center of the whole situation, cannot be overlooked, in fact, our Vancouver office reports \$750,000 of sales in the last 60 days. Agricultural land is also in good demand, the price being \$12.00 per acre, deed guaranteed and insured by the province of British Columbia.

Amongst local investors who have seen fit to take a hold are included: C. W. Morris, Patrick Murphy, Charles R. Moore, A. L. Dallas, V. Wilson, John Dugal, Joe Leaver, and H. L. Gardner.

Mr. Hayward is stopping at the Savoy hotel and will be glad to meet all persons interested and answer inquiries.

THE WEATHER

NEW YORK IS TRYING TO DRINK UP THE TRAFFIC IN BAD EGGS. WE PRESUME NEW YORK IS ENCOUNTERING STRONG OPPOSITION.

Yesterday there was little change in the general situation; sidewalks are just as slippery as usual and yesterday's sun did little to melt the snow. The day was fairly clear and the storms promised by the weather bureau seem to have missed connections somewhere. The observations:
