Candidate for

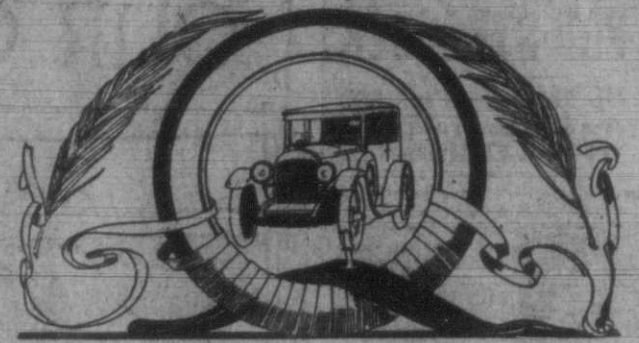

**COUNTY
COMMISSIONER**

The farmers, with one of their number on the Board of County Commissioners, would feel that they were represented by someone who had been through the ups and downs of a farmers life and who understands their conditions as they really exist.

I believe that the Board should convene only long enough to conduct the business of the county in an efficient and economical manner.

I am the only candidate for County Commissioner on the Republican ticket living outside of the city of Great Falls.

Take Your Tax Bills to the Polls and Nominate J. E. Erickson for Governor

We Charge

**The Dixon Administration
With Wanton Wastefulness**

**Here Is the Evidence
You Are the Jury**

"Business enterprises are languishing, the development of the State's resources is being retarded, ruin and bankruptcy are facing the farming industry of the State; taxes have increased to a point where they are well nigh confiscatory. I believe that the greatest service which can be done for the people of Montana at this time is to check the present extravagant and reckless expenditures of the public funds."—J. E. Erickson.

On March 1, 1918, Montana had a balance on hand of	\$153,469
On March 1, 1919, we had a Deficiency of	\$46,706
On March 1, 1920, this Deficiency was	\$963,161
By June 30, 1921, the Dixon Administration had raised this Deficiency to	\$1,292,927
By June 30, 1922, the Dixon Administration had boosted it to	\$2,762,471
By June 30, 1924, the same administration had further increased our indebtedness to	\$3,595,547

FOUR YEARS OF DIXON EXTRAVAGANCE HAVE COST US MORE THAN \$2,300,000.00, IN ADDITION TO NEW REVENUES PROVIDED

"If nominated and elected Governor, I shall insist that THIS STATE SHALL LIVE WITHIN ITS INCOME."—J. E. Erickson.

**NOW AS NEVER BEFORE IS THE TIME WHEN
"HE SERVES BEST WHO SAVES MOST"**

This is the issue. It is definite and clean-cut. Make your choice.
