Deputy Sheriff King is the proud possessor of a new Chevrolet coupe

When the father was returning to Great Falls with the two runaway girls who had been stopped at Denton his car left the road near the Josclyn ranch and rolled over twice, outside of bruises and sprains little damage was done to the occupants. The accident was caused by blinding headlights and lack of acquaintance with the road. The driver stated that as the car turned over it hung for a moment as if to drop back and he had the intuition to give it an extra push which sent it over again and all fell clear. The car was not badly damaged.

Mr. and Mrs. Mat Shannon, Chas. Jackman and Sam King drove to White Sulphur Springs last week to enjoy the baths and to go fishing. They found some excellent fishing about 40 miles out and enjoyed themselves thoroughly. On the way back Sam left the party at Monarch and went up Dry Fork to Sawmill creek but was disappointed as the fish were so small to be attractive.

Lan' sake child where did you get those beautiful dishes?

Oh! Eliza, I got those by doing my trading at McConkey's. They give me tickets with each purchase then I take them and cash them in for the pieces I want. I've got nearly an entire set. You would be surprised how fast they count up.

You, too, can secure a set, concentrate your trade at McConkeys and set your table with the beautiful dishes. We share the profit with you.

Referring to the power of will

Sunny Jim Says

If you think you are broken, you are! If you think you dare not, you don't! If you like to win but think you can't It's almost certain you won't!

The power of will is a strong factor in determining one's journey through life.

If you have power of will to save you are one of those who

"WALK TO DAHL'S AND SAVE DOLLARS!"

Wm. Yarnell, insurance man well-known for many years in this section will leave next Wednesday for Kansas where he will visit his mother who is 86 years old and whom he has not seen for seven years. He will also visit a brother in Oklahoma who is engaged in the newspaper business. A meeting of the agents of the insurance company for which he is working is the ultimate object of the trip. This will be held in Denver.

Charles Beckstrom of Kibbey made a trip from Great Falls to Stanford yesterday and intended to return to Raynesford on the afternoon train. The train did not stop at our sister town and Charlie continued his journey to Belt where he had a 25 minutes wait for 238 which took him back to Raynesford. He reports that the Kibbey section had a fine rain two weeks ago which caused their grain to fill in an unexpectedly fine manner. They are beginning to harvest and will have a fair crop.

Mrs. S. A. Remington and the girls are taking a two weeks vacation on Highwood creek camping.

The school board has decided to tear down all the old buildings on the lots between the auditorium and Dahl's store and will erect a neat frame manual training shop using such of the material of the old buildings as may be salvaged. The new structure will be 24 feet by 40 feet one story on concrete foundation and will be painted the same color as the auditorium. Janitors Johnson and Jeffries are already engaged with Evert Auren and Arvid Hauskama in tearing down the old buildings.

The current issue of the Army and Navy Register notes the promotion of John A. Bemis to a first lieutenant. For the past year or more, Lt. Bemis has had command of the marine detachment of the U. S. S. Cleveland of the special service squadron cruising in Central American waters. His ship recently returned to New York for refitting and Lt. Bemis will probably be on duty at that port for a couple of months.

The county commissioners through their road crew have done a fine job on the lower Belt road for which as a community we should be duly appreciative. The Indians would no longer recognize the old trail. Corners have been cut, old familiar rocks have disappeared and in their place is a wide road bed, not with high crown in the center but in gently rounded style well ditched at the side for drainage. A succession of rains for packing purposes is all that is needed to put the road in excellent shape.

W. V. James of Red Coulee was in town on business Tuesday.

Stanley Goo has been having trouble with some new grain harvesting machinery but now has the right parts. He will have a fair crop.

Arthur McCafferty made a business trip to Belt Tuesday. Junior Stoffel is still Red McNally's right hand man on the Little Belt farm.

Mrs. A. L. Winston has been out at the Dolin ranch helping her mother during threshing. She also visited the Guy Winston family. They are planning on moving to Great Falls at once.

Messrs. Fergie and Graham and their families who have been visiting at the M. J. Senecal home for a month left Tuesday for Los Angeles via Yellowstone National Park.

Ed Landry and M. J. Senecal are taking a long trip today. They are hauling a load of wood by team to Great Falls for Joe Levelle.

Mrs. W. C. Blomquist is at Logging Creek this week. She has as house guests, Mrs. E. Rector and Sarah Gee.
