

"Grandma's wire came this morning and before dinner I had refinished her favorite chair with Duco—two coats too!"

DUCO is famous for quick drying. But that is not its only advantage for home decorating. Here at last you have a finish that can be successfully applied by anyone. Just brush it on.

Try DUCO on furniture, woodwork, floors or walls. See how easily it brushes on, how quickly it dries, how the brush marks disappear, and then the final hard, lustrous finish that never chips, peels, cracks or fades.

Here are some of the things you can do with DUCO:

- finish the kitchen floor with DUCO in the morning and get lunch in the kitchen that noon
- do a perfect "white enamel" job on your woodwork with DUCO, without requiring the use of any of the usual under-coats
- finish your automobile with DUCO Saturday afternoon and drive it that evening.

We carry DUCO in sixteen popular colors and black and white. Any special shade can be secured by intermixing.

Voters ATTENTION! PLEASE

I am a candidate for County Commissioner on the Republican ticket. I have been a resident of Cascade County for 32 years. I believe in good roads for farmers. I drove teams for years when we had practically no roads and for that reason know what good roads mean.

I believe in Economy in public business, the same as in private business and in order to make it effective it must begin with the governing body.

It is my opinion that quite a saving can be made to the taxpayers in conducting the County's business, beginning in the office of County Commissioners and all through the different departments, and the work to be done efficiently. If nominated and elected I pledge myself to do all in my power, with my colleagues, to serve the people of Cascade county to the best of my ability and understanding.

With this assurance I respectfully ask you for your vote and support. Yours for economy in public business.
