

If You Want To Make Your Wife Really Happy

Take home a new Ford—and thus save on the price of your car buy your wife a fine diamond, a silver service, a piano, a radio, or the beautiful living room suite you never felt you could afford. She'll say you know how to use your money wisely.

And remember—if you have not RIDDEN in the improved Ford models you do not really know the Ford car at all.

STUDENTS GRADES IN OTHER SUBJECTS TO RAISE OR LOWER GRADES IN ENGLISH

Students' grades from all their teachers of other subjects will be considered in making up grades in English for each period of six weeks. Teachers of other subjects are advised to make it plain to students that manuscript rules will be followed in all written work—rules for capitalization, punctuation, spelling and sentence structure. A writing scale will be furnished teachers by which students may test their own writing. This plan will make it possible for students to raise grades in English—or lower them.

EDITORIAL

This issue of the paper concludes the work of our English I section for this year. We have enjoyed our news writing very much and would like to keep on with it. But as there is so much other work to be done we can give only six weeks time to the news paper work.

Now we are going to give it to the other Freshman section and hope they profit by it and get as much enjoyment out of it as we have.
