WHEN AMERICA WAS YOUNG—

THOSE WERE THE DAYS—when people traveled by stage-coach—when John Jacob Astor was a fur dealer—when Cornelius Vanderbilt ran a ferry-boat—when Robert Fulton amid jeers launched the first steam-boat—when Lorenzo Delmonico ran a lunch wagon.

MARION DAVIES by her quaint and whimsical performance—even greater than her work in "When Knighthood Was in Flower"—will win your heart completely. Marion Davies as the boy Pat, is one of the most captivating figures you ever saw. When she removes her boy's disguise she steps out in all her radiant beauty.

To see this great romance is to add an unforgettable memory to your store house of treasured pictures.

without increasing the revolutions per minute or fuel consumption.

Both high and low speed tests have further proved our increased efficiency.

Summary

More perfect mixture by increased churning.
 More perfect expansion.
 Increased piston speed.
 Greatly increased torque.
 Far less side slap.
 A tremendous advantage thru leverage.
 Less vibration, by using half the fuel to get same power.
 We are convinced our engine bears out the above.
