WOULD CREATE NEW BOARD

Petitions have Been Circulated Seeking Repeal of Law Creating State Board of Railway Commissioners.

Very little headway is being made over the state by John C. Lyndes of Helena, who is actively behind the move to secure signers to petitions repealing the law creating the state board of railway commissioners and constituting in place of it a new board composed of one elective and two appointive officers, according to reports from the larger centers of the state where an effort has been made to secure signers.

The Board of Railway Commissioners was created by legislative act in 1907 and its members are elected by vote of the people; one member being elected every two years for a term of six years.

According to reports from Helena since the petitions have been circulated, the office of the board has received a great many letters from all parts of the state, tendering the assistance and support of commercial organizations, industries and individuals, to the end that the present organization may not be disturbed or hampered in any way. Many of the petitions have been returned unsigned to Mr. Lyndes.

You must work out your own destiny in the campaign. You must keep the pace. The result is still in the balance. Mark how well you will stand from the view point of friends who are watching you.
