TELEPHONE NUMBER NINE

Patronize home where your interests are and help maintain and support these interests—your interests, your neighbor's interests. Get that selfishness out of your heart that is envious of every success; that wants to pull down every interest that seems to reach beyond yours, and is in reality an advantage to it and the town. Neither imagine when a few shekels accumulate in your wallet you must necessarily go out of town to spend them, thinking it would never do to distribute a little cash to your home merchants, since you can stand them off for six months or a year. Mistaken idea. They'll appreciate the cash and give you just as good bargains as any merchant in neighboring towns or cities that may get your cash. Encourage home dealers and manufacturers in everything, not only by your patronage but by words of encouragement and commendation. This is the way to build up a town and make business lively; and be sure you patronize your home paper when you see it stands by your interests, lauds every legitimate enterprise, and wafts to the world doings, transactions picturing advantages, holding out inducements, and in a thousand ways building up your interests. If it deserves not your hearty and liberal support, pray, who does? Don't keep it down then floundering for an existence and gasping for breath. It is a mighty poor rule that won't work both ways. Stand by your town and support all its interests.

THE BEST MAN IN TOWN

The best man we have in our town for the general good of the town is the one who will always see on the front seat in the progressive band wagon. He is the first one to extend an open and warm hand to greet the stranger and welcome him to the best town in the state. He will resent an insult to our town as quickly as he would a slur at a member of his family. He very politely invites the chronic croaker to "move on." He is ever ready to give his just proportion to every public enterprise. He talks up our town at home and abroad and believes it the best place upon God's green earth in which to live and desires to be buried here when he dies. Let us all try and be like this man for one year and our little city will take on new life and improve as never before in its history.

ed here when he dies. Let us all try and be like this man for one year and our little city will take on new life and improve as never before in its history.

MINES TAX

The Chronicle is in receipt of a booklet gotten out by the Anaconda Copper Company, called the Copper Target. This is a most interesting booklet, as it gives the amount of taxes paid by the Anaconda Copper Mining Company, whether they make money or not. This little booklet should be in the hands of every voter before November 4th. It shows the number of men employed for a number of years past, and the expenditures of this great industry. As the gross proceeds tax is being made the issue in the Campaign, every voter should inform himself as to the facts, so that he may be voting for the best interests of the state, and not against his own interests. This little booklet gives the inside history of the development of the mining industry in Montana. It is our opinion that if the gross production tax passes, that it will retard development in Montana for years to come. We are situated in an industrial locality with mountains of undeveloped ore at our very door, which will ever remain undeveloped, if this gross proceeds tax is voted by the people. There would be no danger of their doing this, if they are properly informed. The propaganda that is being spread by the proponents of the gross proceeds tax, that the Anaconda Company paid only \$1.00 of taxes in 1921 and \$1.00 in 1922 is a bare-faced misrepresentation to fool the voters. The people of Montana will give anybody a square deal, if they have the facts. We would urge upon the readers of the Chronicle to secure a copy of the Copper Target and read it before voting on November 4th.

Many Untruths are Told About Prince

Montreal—Public interest in the Prince of Wales is so great, members of his staff said here Tuesday, that certain newspapers have not hesitated to indulge in the creation of fabrications concerning him when no actual news existed.

It was said, that these publications take advantage of the prince's position and the fact that he is a visitor in a foreign land to say things about him which an ordinary citizen could meet by court action. They know that the prince will take no notice of their falsehoods, rather than intensify the focus on himself.

At this point, the spokesman for the prince's party cited a story in a New

Helena—Helena is to be made the accounting center for all of the offices of the Western Union Telegraph company working through the Helena relay office, it is announced by General Manager A. B. Coowan of Denver, here on his semi-annual tour of inspection.

The central accounting idea was proposed by District Commercial Manager U. G. Life of Salt Lake, and simply means that the accounts will be handled here and will be in the hands of expert accounts. Installation of the center is in charge of H. H. Hardy, division commercial manager, and R. Van Time, division auditor, both of Denver.

Yorak paper Monday, in which the prince's name was coupled with that of an actress who was "reported to be sailing for England on the same ship."

The story included an alleged telegram from General Trotter, the prince's aid, to the actress.

The spokesman branded the telegram as false and said that the prince not only had never met the actress, a high degree."
