is vacationing in North Dakota. Jerry Closser states he had a grand time on his recent trip to Seattle but is happy to be back. Mrs. Earl Buckingham is expecting her granddaughter and great granddaughter for a short visit soon. Mrs. James Shanholtzer attended the Rainbow Mothers dinner, Saturday evening. The next dinner will be October 19. The Rocky Range Breakfast Club

met at the home of Etta Mae Garren, Saturday afternoon. All ladies and eight members were present. It was decided to have Achievement Day, Saturday, October 19 in the Community room. We hope it is possible to have a good crowd out that day. This is the close of our club year. At this meeting all fines and awards will be given. There will also be some exhibits.—Peggy Boomer, club reporter.

What Chiropractic Has Done For Children

The following Statistics Speak for Themselves:

From over half a hundred children's clinics throughout the U. S. A. the following statistics have been compiled and recorded and every one signed by the parents of the children.

The children ranged in ages from 3 to 13.

More than 85 per cent of the children were found to have spinal curvatures already developing, which resulted in poor posture, general sluggishness, low internal resistance to diseases, resulting from disturbed or impaired NERVE ENERGY.

These statistics clearly indicate that sickness begins in early life and we are led to the conclusion that "birth injuries" which pass unnoticed until Nature's resistance is broken down are the basic CAUSES of the majority of adult illness.

The above quotations from the doctor's report under whose supervision this great work was carried on.

Do not allow your children to grow up under such a handicap. Have their spines straightened so they may enjoy health.

Table with 5 columns: Name of Disease, Number of Cases Reported Completely Recovered or Improved, No Change, Name of Disease, Number of Cases Reported Completely Recovered or Improved, No Change. Rows include Appendicitis, Asthma, Ankle Ailment, Abcess of Ear, Bronchitis, Bladder Trouble, Backache, Blindness, Colds, Constipation, Convulsions, Croup, Cross-eyes, Deafness, Dysentery, Earache, Bed-wetting, Ear Ailments, Foot Trouble, Gland Disorder, Hay Fever, Headaches, Heart Trouble, Indigestion, Kidney Trouble, Knee Ailment, Liver Disorder, Leg Ailment, Menstrual Disorder, Mental Disorder, Nervousness, Nose-bleed, Abnormally Fat, Facial Paralysis, Infantile Paralysis, Spastic Paralysis, Rheumatism, St. Vitus Dance, Sinusitis, Skin Eruptions, Spinal Injury, Stomach Trouble, Speech Impairment, Tonsillitis, Throat Trouble, Malnutrition, Poor School Work.

The X-Ray Will Show the Cause of Your Child's Illness
