

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

"CATCHY" PASSWORD FOR THE AD CLUB MEETING

"Clean-Up" Week Will Be the Keynote of Luncheon Tomorrow.

"Clean-Up" week is the next activity of the Butte Advertising club. The plans for that event, which is of just as much importance, if not more so, than the "Dress-Up" week, which was such a great success, will be laid at the regular luncheon-meeting of the club tomorrow noon at the Butte Grill, to be known as an enthusiasm meeting.

Mayor-Elect W. H. Maloney will be present and deliver an address as will Fire Chief Martin; Superintendent Maddock of the schools, J. L. Carroll, president of the Butte Chamber of Commerce; Malcolm Gillis, president of the Rotary club; C. T. Shearer of the Post, W. W. Walsworth of the Standard and Charles Cleveland, Cohen of the Miner. A. H. Heilbroner will preside as chairman.

Each member is urged to bring a guest to the luncheon. Every civic organization in the city will be asked to join in the work of "Clean-Up" week. The Boy Scouts of the city will also be invited to help in the movement. H. T. Snyder, the secretary of the organization, has issued very catchy invitations for the luncheon tomorrow. "Smallpox" is the heading of the invitation.

UTAH GOVERNOR WILL MAKE BIG CONTRIBUTION

New York, April 10.—Henry Morgenthau, chairman of the campaign to raise \$10,000,000 for suffering Jews in the eastern war zone, gave out today a telegram from Gov. Simon E. Benson of Utah, pledging Mr. Benson to give one-tenth of the total amount that Utah may raise for Jewish war relief.

A Druggist's Experience With Dr. Kilmer's Swamp Root

After thirteen years of selling Dr. Kilmer's Swamp-Root it has been my experience that Swamp-Root is a high standing medicine, sells about the best of any medicine of its kind and I know that it has been the means of bringing relief to sufferers of rheumatism. I take it occasionally myself and always obtain good results, and I believe Swamp-Root to be a good medicine perhaps fully as good as any medicine I have seen.

F. M. PRETTYMAN, M. D.,
Sept. 21, 1915. Mallard, Minn.

Letter to Dr. Kilmer & Co., Binghamton, N. Y.

Prove What Swamp-Root Will Do For You. Send 5 cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information telling about the kidneys and bladder. Write to mention the Butte Daily Post. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

MINER IS KILLED BY FALL OF ROCK

George Evans is Victim of Accident at Never Sweat Mine.

George Evans, 40, was killed by a fall of ground while working with Gus Freese in a stope on the 1,400-foot level of the Never Sweat mine at 3 o'clock this morning. The body was removed to the Sherman & Reed undertaking establishment and Coroner Lane will hold an inquest on Thursday.

Evans and Freese were mining in the stope when a huge slab of rock fell from the back and struck Evans on the head, killing him instantly. His body fell between the rails of the track and into a chute just underneath, from which it was recovered when Freese summoned help.

Evans was single. He had worked at the mine for about four months and stopped at the Florence hotel. During the past few years he worked in various mining camps in Idaho and Colorado. A brother lives in Iowa.

Succumbs to Exhaustion.

Charles Stoessel, 33, miner employed at the Stewart, succumbed shortly after midnight at a local hospital, apparently to heart failure. The man collapsed while at work in the mine at 10:30 o'clock last night and after vain efforts were made to revive him for some time, he was taken to the hospital. He died without regaining consciousness. It was at first reported that Stoessel was overcome by gas, but there is no gas in the Stewart. Heart failure, following physical exhaustion is the cause of death given by attending physicians.

Stoessel lived with his wife at 217 Curtis street. He was a native of Switzerland and had been in Butte for about two years. The body is at the Sherman & Reed establishment and Coroner Lane will hold an inquest either Friday or Saturday.

INVESTORS LOOKING FOR LARGE TRACTS

Inquiry is Made Concerning 200,000 Acres for Grazing Purposes.

Throughout the eastern and northern part of the state landowners are extremely active not only in showing land to prospective homeseekers, locating homesteaders, but also looking for some big tracts for investors who plan to enter the stockraising business in this state on a big scale, according to A. L. Rankin of the Butte hotel, who returned today from an extended trip.

Mr. Rankin produced a letter from an eastern concern which asked him about the opportunities for buying big tracts of grazing land in this state and mentioned tracts of from 200,000 to 300,000 acres.

"The landowners are to be found in every city which has big farming sections about it," Mr. Rankin said today.

"Throughout the agricultural sections of the state trainloads of immigrants are arriving daily with their cattle, horses, household goods, members of their families and farm implements.

"The lambing season has started in the vicinity of Great Falls and a number of the big owners have prepared for the crop of lambs with sufficient shelter.

"Spring plowing is well under way about Great Falls in the Helena valley and in a number of other sections of the state. While the season is somewhat later than the last two years, little anxiety is felt by Montana farmers that the prolonged stay of the snow and cold will injure the crops planted last fall. The lower valleys are already well cleared of snow, although it sticks in the hills.

"Most of the ice has gone out of the Missouri river and in some instances has occasioned some trouble. Ice jams in the Marias river, between Great Falls and Shelby on the old Turkey trail, took out a railroad bridge and, although an outfit has been on the ground, it has been unable to put in any piling because of the continued rush of ice and the jams formed on the bridge site."

WAGON LOADED WITH DYNAMITE BREAKS DOWN

A wagon carrying a load of dynamite broke down at Hamilton and Granite streets this afternoon. No damage was done. The dynamite was transferred to another wagon. It was consigned to the Davis-Daly company and other companies.

Glad to Learn of It.

April's changeable weather causes colds that lead to expensive doctor bills—bills that could be avoided if the cold were checked in time. C. Smith, 1421 12th St., Augusta, Ga., writes: "I got one 25c bottle of Foley's Honey and Tar and my cough and cold is about well. I was glad to learn of a great medicine like that." Foley's Honey and Tar enjoys a splendid reputation that is often imitated. Of course, no substitute or imitation is as good as the genuine. Newbro Drug Co.—Adv.

HAYES JOHNSON.

Peter J. Hayes, one of the old-time residents of Meadville and a pumpman employed at the Berkeley, was married today to Ada H. Johnson. In the application for the marriage license Hayes gave his age as 55, while the age of the bride was given as 42.

The louder a man talks, the less you are missing if you do not wait to hear him.

DOWLING, ON STAND IN OWN BEHALF, TELLS WHY HE SHOT

Man on Trial, Charged With Murder of Stanley Sims, Says the Latter Approached Him With Large Knife. Fired Bullet to Scare Assailant and Make Him Drop the Weapon. Witness Says He Knew of Sims' Quarrelsome Disposition. Wife of Dead Man Also on the Stand. The Case May Reach the Jury Late This Afternoon.

John Dowling, on trial before Judge John V. Sawyer for the murder of Stanley Sims on the evening of Nov. 17 at the boarding house of the latter, took the witness stand in his own behalf today and declared that he shot at Sims for the purpose of making him drop the knife he had in his hand and which he feared would result in Sims killing him. Dowling declared that he knew of the quarrelsome disposition of Sims and that he was aware of three rows he had started, and that he knew of one occasion when Sims attacked his partner in the mine with either a pick or an axe.

When court resumed this morning there were a few character witnesses put on the stand, after which Mrs. Stanley Sims, widow of the man Dowling killed, took the witness stand. She said that she and her late husband had conducted a small boarding house and that besides Dowling there were three other boarders. The witness told of William Oliver after supper going to his room and starting to play a photograph, which was objected to. The witness said that her late husband was sitting in the kitchen reading a paper when Dowling entered and shouted: "What's the trouble, hit me?" She said that her husband replied: "You will find out." At the same time, the witness said, her husband jumped up off the chair and made towards Dowling with a knife in his hand which he picked up from the dining room table. She said that the two men started to scuffle. The witness said that she rushed to Oliver's room and after she heard the shot fired she ran through the kitchen and into the front room. The witness said that it was after Dowling came from his room that her late husband picked up the knife and made for him. The witness said that she was in Dowling's room on the day of the shooting and that the gun Dowling had was in his bureau drawer.

Defendant on Stand.

The state rested and after the defense had put on the witness stand some character witnesses, Dowling took the witness chair in his own behalf. The defendant said that Sims made an attack on him with a knife and that he never displayed his gun until after Sims had attacked him. The witness declared that he knew that Sims was of a quarrelsome disposition and that while they were engaged in a scuffle on the floor he pulled the trigger of the revolver for the purpose of scaring Sims and making him drop the knife.

"Why did you shoot Stanley Sims?" was asked of the witness by his attorney, Frank C. Walker.

"Why, if I had not he would have got me with the gun," replied Dowling.

"Did you shoot to kill?" was asked of the witness.

"No, I did not," replied the defendant. "I wanted to scare him and make him drop the knife."

The direct examination of the defendant this afternoon, the cross-examination is being conducted. The case is expected to reach the jury late this afternoon.

Self-Defense Plea.

Yesterday afternoon Attorney Frank C. Walker in behalf of the defendant made an opening statement to the jury in which he outlined that the defense would attempt to show that Dowling in shooting Sims acted in self defense.

William J. Oliver, who was a boarder at the Sims' house where the shooting took place, testified that on Nov. 17 last he was talking to Mrs. Sims about leaving the place and paying his bill when she called out there was a fight between her husband and Dowling. He rushed into the room and the two men were on the floor. He said that blood was coming out of Sims' shoes and witness thought he had been shot in the foot. While witness went to call a doctor and to get a taxi-car.

William Rows told of the start of the trouble between Dowling and Sims. The witness said that he separated the men and Sims cried out "Come on." Dowling made a rush at Sims as he had been invited to do and on grasping the knife was knocked out of Sims' hand. The witness said that Dowling held his gun pointed downward and Sims got hold of it. While in that position the gun went off.

MINERS STRIKE BECAUSE THE BOSS IS NOT SAFE

Tacoma, April 10.—Six hundred miners, demanding the removal of Mine Superintendent John McDowell on the ground that "he is unsafe" to work under, struck yesterday in the Carbon Hill Mine company mines at

Carbonado, 30 miles from Tacoma. Manager J. S. Menzies of the company declares McDowell is not unsafe and that the strike is prompted by personal prejudice. He says the men will probably be out and the properties closed down three or four months.

FRATERNAL BROTHERHOOD

All members of Silver Bow lodge No. 421 are requested to attend business meeting Wednesday. Meeting calls at 1:30 p. m.
