ENJOYABLE SOCIAL BY THE HIBERNIANS

T. J. McCarthy Presides—Musical Program is Followed by a Dance.

The social party given by the Ancient Order of Hibernians last evening at the hall in Centerville, the first of a series of monthly social sessions, was most enjoyable in every respect. The evening was devoted to song and story and dance. T. J. McCarthy presided and ably introduced the several numbers. Following an instrumental duet by John McNamara and Miss Madge Downey, the Hibernia Trio, consisting of James Gleason, Attorney Ed Fitzpatrick and James Cummins, gave two selections. Rev. P. J. Crawley made a brief address on patriotism in war times. Emmet O'Neill, the champion debater of the high school, delighted with two readings.

Judge J. J. Lynch made a few remarks and James Gleason entertained among some parodies. The program concluded with Mrs. Marnie Malia of the auxiliary expressed on behalf of the ladies their pleasure at being present. The musical program concluded with "The Star Spangled Banner" by the trio. A dance followed. It was announced that the Ladies' Auxiliary would give a dance on May 28 at the hall. McNamara's orchestra, which played for the dance last evening, has been engaged for the coming event by the ladies.

THREE AMERICANS LEAVE ARGENTINA TO SERVE U. S.

Boston, Mass.—Raymond R. Newcomb, James J. Rogers and Walter Buckley, three American boys who have been living in Argentina, arrived here recently on an American steamer from there and went at once to the nearest recruiting station. All three have fared well in the southern country, but the call of the flag proved too compelling and they shipped on the first vessel they could find bound north. The steamer, in addition to the passengers, brought in a large cargo of wool and hides, which will be welcomed by the trade to meet the shortage of both materials.

HOW ONE U-BOAT WAS DESTROYED

An American Naval Lieutenant Tells the Story in London.

New York, May 17.—The story of how the American steamship Mongolia fired the first shot of the war for the United States in defending herself from an attack by a German submarine was told by Lieut. Bruce R. Ware, Jr., commander of the United States naval gunners on board the ship, at a dinner given here tonight in honor of Capt. Emery Rice, commander of the Mongolia, and Lieutenant Ware.

"On the 19th of April the sun came up one minute before 5 o'clock when we were nine miles northwest of Beechey Headlight in the English channel on the southerly part of the English coast," said Lieutenant Ware. "We drove into a thick fog, which obscured the sun. At 5:31 o'clock a. m., Captain Rice ordered a sounding taken and when the quartermaster came back with the report of his soundings we went into the chart-house to determine our position.

Sighting Her.
"The chief officer at 5:22 a. m., looking from the chart-house, shouted, 'My God! A submarine; and he's got us!'"

"Captain Rice cried, 'Not by a d— sight!' and, leaping to the wheel, threw the helm hard starboard and zigzagged to leeward. Righting ourselves quickly we charged the Hun U-boat and made the black snake that attacked us on our port bow submerge.

"I leaped to the chart-house and shouted into my transmitter for the gun crew to man number three gun and train it on the starboard quarter. The answer came back from the gun crew, 'We sight her wake!'"

"Control!" I shouted, and then I gave the range—1,000 yards, scale 50. "We saw the thin smoky oil coming to the surface in slow bubbles, and suddenly a periscope appeared.

Order to Fire.
"Commence firing!" I shouted. "It's gone," was the answer from the gun crew.

"Fire at will!" I cried, and suddenly the blackened shell hurled forward from the six-inch gun, preceded by a puff of smoke, struck the water six inches from the periscope.

"I saw that shell plough through the water six inches from the periscope and shatter that slim object. End over end hurled the periscope, the smoke rising to the surface, while the gun crew jumped up and down shouting, 'Burr! We got her!'"

"Again came the report through my transmitter, 'We sighted her again. Shall we fire?'"

"I shouted, 'No, it's all over.' "I'd much rather take the Mongolia through the war zone than make a speech," said Captain Rice, when he called on me. "All I will say is that I'm ready to go again and I hope to have another chance at a U-boat."

BRAKE BOLT BROKE AND CAGE RAN AWAY

That the breaking of a turn knuckle bolt on the engine brake caused the cage at the Alice mine to run away and resulted in the death of Charles Borlace Sunday afternoon was the finding of a coroner's jury which investigated the accident last evening. John Davis, hoisting engineer at the Alice, was exonerated of all blame for the accident. Borlace fell a distance of 230 feet to the bulkhead on the 600-foot level of a coroner's jury which investigated the accident last evening. Testimony showed that the engine had been inspected by the company machinist the morning before the accident and that the inspection did not disclose any defects.

HE ALMOST FELL DOWN.

A. M. Hunsucker, Bogue Chitto, Miss., felt so grateful because of being freed from pain and distress that he wrote the following letter: "I was suffering from rheumatism, kidney and bladder trouble, also dizziness; would almost fall down at times. Disordered kidneys give warning by pains in side and back, rheumatic aches, sore muscles, swollen joints, puffiness under eyes, tired and languid feeling. For sale by Newbro Drug Co.

That is why increasing thousands of motorists see the first cost saving in Diamond Tires and enjoy the further benefit in their long, dependable service.

Every Diamond Tire must deliver full value in service. If ever a Diamond Tire fails, a cheerful, willing adjustment will be promptly made.

EXPOSE HALTS WIDOW'S PLAN TO WED CONVICT

He Was a Fast Wooer, But When She Heard the Truth It Was Good-Bye.

Topeka, Kas.—Prospects of freedom in return for 16 months of love-making through his prison bars dissolved for Winston Salisbury, former bigamist and gentleman crook, now serving a term in Lansing penitentiary, when Mrs. Alma Ford, a wealthy New York widow who wanted to marry him, returned home with her mind changed. Mrs. Ford became interested in Salisbury through an article written by him which appeared in an eastern magazine. She came from New York to visit him in the penitentiary at Lansing, bringing with her letters which influenced William Allen White, Henry J. Allen, David Mulvane and other prominent Kansans to promise their aid to her efforts to obtain a pardon for the convict.

When she saw Salisbury in the visitors' room at the prison, he took full advantage of his opportunity, making love to his new friend, and promising to marry her and reform if she could continue her efforts to procure his release.

The widow bore down upon Governor Capper with her romance converted into hundreds of letters asking his intervention. She agreed to marry Salisbury immediately upon his discharge from Kansas penitentiary and to wait for him while he served such other sentences as might be imposed upon him by various other states which have charges against him. Governor Capper referred the widow to Judge Samuel Kimble of Manhattan, who sentenced Salisbury.

What the judge told Mrs. Ford about the notorious prisoner sent her back home resolved that Salisbury was better let alone.

Judge Ormsby dismissed the charges against Sullivan and assessed the costs on missing complainant. John Gleason was given 30 days for stealing another miner's clothes. Johnny Anson was acquitted of third degree assault. The case against Thomas Shea, charged with petty larceny, was continued.

YOUR WORST ENEMY IS CARELESSNESS

Carelessness is more powerful than the combined rivers of the world. It has destroyed more men than all the wars of the nations. It is more deadly than bullets and has wrecked more homes than the mightiest of siege guns. It spares no one and finds its victims among the rich and poor, the high and low, the young and old, the strong and the weak. It will cast its shadow over every field of labor. It will lurk in unseen places, and do most of its work silently. You are warned against it, but you heed not. It is relentless—it is everywhere—in the home, on the streets, in the factory, at the railroad crossings, and on the sea. It brings degradation and death; yet few seek to avoid it. It destroys, crushes and maims. It gives nothing, but takes all. This is Carelessness, your worst enemy.

If you have cultivated carelessness about your teeth, cast it aside at once and cultivate pride; have your DEFORMED and DECAYED teeth placed in a presentable condition, not only for appearance sake; but for Masticating Purpose. The expense is small and the improvement large. EXAMINATION FREE.
