SHEEP GULCH WATERS AGAIN ON A RAMPAGE

Landslide Drops Hundreds of Tons of Rock and Dirt Into the Creek Bed.

Anaconda, May 29.—Sheep gulch waters rose again to flood tide this morning and Mayor Hasley instructed the street department force to control the rising flood at all hazards. Nine teams and scrapers were ordered to the front and are working today in an effort to clear the ditch of the sand and gravel. All of the workers are kept busy, as the water brings down the debris and silt about as fast as they are able to scrape out the channel.

About a mile up the Sheep gulch canyon a landslide dropped hundreds of tons of the mountainside down into the creek bed, and from this comes a constant supply of gravel and sand, carried in the swift-moving stream like a sluice box.

WORLD AT HOME SHOWS HAVE UNIQUE FEATURES

Anaconda, May 29.—No matter how hard they are to please, visitors at the World at Home shows, scheduled to appear here during the week of June 4, will surely find something worthy of patronage. James T. Clyde, owner of this attraction, is offering amusements that are not only interesting but also unique, and in doing so has put his enterprise so far in advance of any carnival company which has preceded it that even comparisons cannot be drawn.

To begin with, there is the world-famous Kilties band, with 80 musicians, singers and dangers, the original organization which toured the world. This organization will furnish the band concerts daily, free of charge, commencing at 1 and 7 p. m. Then there is Venus, the most perfect woman in the world; and Creation, the original spectacle as exhibited at the Panama-Pacific fair in San Francisco, is one of the headliners. The Zeppelin airplane show; Reuben Town minstrel singers, dancers, comedians and musicians; the Millionaire Cowboy and his trained stallions; the Ice Skating Ballet, fresh from its New York success; the Monkey Speedway and Happyland; Will Hill's Pony Hippodrome; the House of a Thousand Wonders, Illusions and Mysteries; the Submarine Girls, disporting under water; the sensation of all sensations and novelties, entitled a "Mile a Minute," and a host of living curiosities and other attractions.

BURGLARS TURN TO GROCERY SUPPLIES

Looters Appropriate Edibles, Including 40 Hams, From a Smokehouse.

Anaconda, May 29.—Hungry burglars with an eye to the present day difficulty of obtaining generous prandial allowances because of the high cost of living broke into the M. Riberdie grocery store last evening and appropriated a healthy supply of groceries, as well as $5 in cash, for future needs. Then they or others entered the smoke house in the rear of the home of George Pupich at 810 East Third street and helped themselves to 40 hams which were being smoked. The officers are searching for the night prowlers.

MAY GIVE UP PLAN OF MEMORIAL DAY PARADE

Unfavorable Weather Conditions Hinder Work of Decorating Committees.

Anaconda, May 29. — Unfavorable prospects for a fair day tomorrow gave discouragement to the committees in charge of the annual Memorial observance. Owing to the rain and snow they have been unable to secure the evergreens for the crosses it has been customary to decorate in the cemeteries, and work planned in the decoration of the graves has been for the same reasons hindered.

Under these conditions some of the committees favored abandoning the march to the cemeteries tomorrow morning, with the idea that it would be wrong to ask or to expect school children or adults to expose themselves to inclement weather such as has prevailed for several days. In this event the parade will be called off, and the observance of the day restricted to the program in the Margaret theater at 2 o'clock in the afternoon, when the exercises as announced yesterday will be given.

WOODMEN OF THE WORLD

All neighbors are requested to meet at Carpenters' hall Wednesday at 8:30 o'clock to participate in the Memorial day parade.

Anaconda, May 29.—In a six-inning, creditably played game on the city common last evening, the Goodfriends shut out their opponents, the Panamas, by the score of 3 to 0. Despite the soggy condition of the grounds a good article of ball was dished up to a large sized and enthusiastic crowd of fans.

CALL OUT MEMBERS OF BOILERMAKERS' UNION

State Officials Meet at Clarkdale in Effort to Settle the Strike.

Jerome, Ariz., May 29.—Members of the boilermakers' union were called out today at Clarkdale in the third sympathetic strike starting since the demands of men on strike in 20 mines Friday morning. Carpenters and electricians previously were called out.

Union officials said all the men would be out by night. The sympathetic strike affects the United Verde smelter, where strike leaders said all employes agreed to go out last week but failed to keep their promise.

Meantime Gov. Thomas Campbell of Arizona; John McBride, representing the department of labor; Lieut. Col. James J. Hornbrook of the Sevententh United States cavalry and mine owners were meeting at Clarkdale in an attempt to arrange a settlement. Increases in wages have been granted by operators but the men's demand for recognition of the union was refused.

PRICE SETBACK IS SHORTLIVED

Stock Declines Incident to Realizing Give Way to Upturn.

Stocks today reacted sharply from a setback early in the session, due to realizing and unfavorable Russian news, and then under the influence of short covering made substantial gains, closing from 1 to 4 points higher than the opening. United States Steel sold down to 130¾ from an opening price of 131½ and then on the upturn sold up to 133¾, at which it closed. Junior Steel issues participated in like manner in the advance. Stop orders were uncovered in the declines incident to early trading and later transactions showed a big short interest. While the copper stocks sagged off yesterday on heavy profit-taking, the copper metal market held firm. Sales for August delivery were made at 29½c. Large buying orders for foreign delivery in the third quater at 28½c are reported.

Anaconda opened today at 84¾, was low at 83½ and high at the close, 85. Butte and Superior opened at 45½, was high at 46, low at 43¾ and closed at 44¾. North Butte was quoted at 23, East Butte at 13, Davis-Daly at 5¾ and Tuolumne at 1¼.

The Hutton stock letter received over wires of the Heilbronner company says: "With a holiday tomorrow we will probably have more or less of a trading market today. Traders will want to even up contracts and this may give us lower prices for active issues such as United States Steel. The deplorable state of things in Russia, as depicted in the newspapers, will induce some selling, but we have known all this before. The allies are not counting on any help from Russia, but merely hope to keep Germany out of that country. Conditions in Russia are really no worse. The people want united action, but do not know how to get it. In other respects the outlook is good, although the rise in stocks has discounted a great deal. At this level we should see some back-and-forth swings of 3 to 4 points before another upturn of any dimensions. We favor purchases on the setbacks."

The Logan & Bryan stock letter received over wires of the Lauzier-Wolcott company today says: "The Russian news in the papers this morning looks bad, but when you come to read it there is no news there at all, only opinion. This development, however, taken with the holiday tomorrow may have some effect on the market today. It looks to me as if the reaction would be a very small one and that after the holiday stocks will go soaring upward, with Steel leading.

Logan & Bryan also say: "Steel feels the effect of a tremendous amount of long stock distributed within the past few sessions. While we think the general trend of the list is upward, the market probably will be more of a two-sided affair from now on than recently."

GRAIN PRICES UP BUT SAG AGAIN

Reports From Grain Districts Show Better Crop Than Was Expected.

Chicago, May 28.—Wheat prices developed strength today owing to decided upturns in the value of coarse grain. At first, however, the wheat market was inclined to sag on account of a bearish crop estimate from Missouri. Trade was only of a scattered character. Opening prices, which ranged from unchanged figures to 2½c lower, with July at $2.02½ to $2.03, and September at $1.83, were followed by a rise all around to well above yesterday's finish.

Later the market eased off a little as a result of reports that continued cool showery weather was bringing out the Kansas crop wonderfully and that yields were likely to be larger than had been expected. The close was unsettled 2½ lower to ½c above, July at $2.03 and September at $1.83½.

Corn was ⅝c to 2¼c higher. Prices scored further gains and then underwent something of a reaction.

When the wants of shorts had been supplied leading houses became active sellers and forced a setback in prices. The close was heavy at ⅜ to 2¼c net decline.

Oats hardened with corn. Sellers were scarce.

Provisions like wheat and oats followed the lead of corn. Shorts found but little for sale when they tried to cover.
