KIND DEED DONE MEETS REWARD

Big-Hearted Jack Turner Took a Chance, Like He is Always Doing.

There is one man in Butte who will not allow any friend of his to be buried without the true funeral ceremonies befitting a Christian. That man is Jack Turner.

When Oliver Thornley died on July 28, it was not known whether there was any money to pay for the funeral arrangements. Mr. Thornley was a native of Ontario, Canada, of which place Mr. Turner is also a native. Those who know Mr. Turner well would not expect anything else than that he would make arrangements for the funeral. Mr. Thornley was buried with due formalities and just as his entire family had been here to make provisions for the occasion.

After Mr. Turner had performed the very meritorious action, without any expectation of being reimbursed later, it was discovered that Mr. Thornley had a small estate in Madison county. Yesterday Mr. Turner was appointed administrator pro tem of the estate by Judge Clark with County Attorney Allen consenting. Mr. Turner returned last night from Virginia City, where he took the first steps to prove up on the estate of his late friend.

CAN YOU USE GIANT? THIS ONE WANTS JOB
 Omaha, Aug. 10.—Ralph Madsen, 18, of Creighton, Neb., wants a job. It must be a man's size job, too. He is 8 1/2 inches tall, and a six-foot man can stand under his outstretched arm without bowing his head, while an ordinary sized man can just about look into Madsen's coat pocket without tipping.

Young Madsen has lived on a farm all his life. He weighs 196 pounds. He is obliged to have all his clothing made to order; no ready-to-wear garments are large enough. He wears a No. 12 shoe, an 18-inch collar. When he stretches out his arms the tips of his fingers are more than seven feet apart. In an ordinary bed he has to get himself into the shape of a letter Z. At the farm he has a specially constructed bed eight feet long.

"I started growing when I was 12," he said. "I am still growing. All my brothers and my father are more than six feet, but my mother was small."

Madsen is not after a "position"; he wants a "job," and that is what he came down to the city to get.

BILL FOR EXPERT BOARD IS FAVORABLY REPORTED
 Washington, Aug. 10.—The administration bill by Senator Sheppard for an expert board to develop the war air service was reported favorably today by the senate military committee. FIRST BUTTE MAN TO BE ADMITTED

Howard Johnson Joins Aviation Section of Officers' Reserve Corps.

Attorney Howard A. Johnson of this city, who left here a week ago for San Francisco, where he had been summoned to take the examination for admission to the aviation section of the Signal Officers' Reserve Corps, successfully passed the stringent examination and has been recommended for admission to the training camp at Berkeley, Cal., according to word received by friends in this city this morning. He is the first man from Butte to be admitted to this department of the service.

Mr. Johnson graduated from the law school of the State university at Missoula last June and came to Butte soon after and was associated with Attorney E. B. Howell for the past two months. During his three years at the State university he was prominent in athletics, an honor man in his class work and a member of the State university debating team.

His recommendation will be sent to Washington and upon its confirmation he will be admitted to the aviation school at Berkeley. He will be given two months of training in general military training, theoretical and practical instruction, and the use of the aeroplane in military work. Following this two months' course, the men in this department will be sent to an aviation camp for three months' training in actual flying, after which, if they successfully finish the required work, they are given a commission as first lieutenant, entitling them to fly. The preliminary school is called the School of Military Aeronautics of the University of California.

The physical examination for entrance to the aviation service of the United States army is the most grueling on record and only about 29 per cent of the applicants for the department pass it. Johnson's announcement of his success contains portrayal of the examination. It follows:

"Oh! It's a grand and glor-ee-yus feeling—after you have been pounded and plunked like a watermelon, looked into like a gift horse, sounded and sighted and searched; have been whirled in a chair till you're sea-sick; have been made to hop backwards and forwards and sideways; and have been given every test yet devised, then to be told 'you passed.' Oh! It's a grand and glor-ee-yus feeling."

Johnson and Forest Longeway, son of Dr. Longeway of Great Falls, are the only Montana men in the Berkeley school.

MRS. PHILIP VAN VALKENBERG
 Mrs. Van Valkenburgh, known as the \$10,000,000 widow, noted American beauty, will make the Duke of Oporto, brother to the late King Carlos of Portugal, her third husband. She was divorced from her second husband in 1914.

DISCRIMINATES AGAINST THE SHEEP INDUSTRY

Salem, Ore., Aug. 10.—Gov. James Withycombe announced here today he intends to ask the northwest governors, who are to confer in Portland tomorrow, to protest to Herbert Hoover against the United States food administration's recent decision that mutton be taboored at hotels and restaurants.

Hoover's attitude toward mutton as food discriminates against the western sheep industry, the governor said.

Seattle, Aug. 10.—The four German residents of Seattle arrested the past three days, suspected of conducting spying operations, are believed by federal authorities to have operated a wireless station at Long Lake to intercept navy wireless messages, it became known today.

Minneapolis, N. Y., Aug. 10.—A threat uttered by John Longer De Saulles never to let his former wife, Mrs. Bianca De Saulles, have their baby again, was the immediate provocation of her act in shooting him to death, according to a sworn deposition made here today by her maid, before the district attorney.
