(From a Staff Correspondent.)
DES MOINES, Ia., Sept. 10.—(Special Telegram.)—The state railroad commission has decided the live stock minimum weight case which has been twice heard before the commission, fixing a compromise between what the shippers demanded and what the railroad desired as the minimum weight for live stock carloads. The commission fixed upon 16,000 pounds as the proper weight for a carload of hogs, though the railroads were contending for a higher figure. The carload on fat cattle is 20,000 and of stock cattle, 22,000 pounds.

Curran, chairman of the committee, the mayor declined to appear unless subpoenaed or notified to do so, adding that he could not "enter into any petty and partisan inquiry" and asserting that in his efforts to lift government up he had never allied himself "with any one who was not himself above reproach."

BANKERS MEET AT DETROIT

President Urges Association to Support Aldrich Plan.

OFFICERS MAKE THEIR REPORTS

Robert W. Bonynge of Monetary Commission Makes Address on Banking and Currency Reform.

DETROIT, Sept. 10.—The annual convention of the American Bankers' association began here today, brought to Detroit between two and three thousand delegates from the United States, its territories and Canada. After the convention had heard several addresses of welcome at today's opening session, it was planned to dispose of a number of formal reports of the various officers and then listen to the address on "Banking and Currency Reform" by Robert W. Bonynge of Denver, member of the national monetary commission. Reports were scheduled for this afternoon's session. The convention however, planned to break the routine by listening to an address from United States Senator Charles E. Townsend of Michigan and considering proposed constitutional amendments which have aroused some comment. The formal address of President William Livingstone of Detroit and Fred E. Farnsworth of New York, together with the report of the association's executive council, preceded Mr. Bonynge's speech. Much of the secretary's annual report dealt with the part which Detroit and Michigan has played in the ultimate formation of the banker's organization: He traced the growth of the association since its inception in 1870 and dwelt upon the work accomplished during the last year. President Livingstone's speech was for the most part a compliment to the work of the association and the affiliated associations. The Aldrich currency plan was warmly approved by the president. Commenting on the favorable action toward the Aldrich suggestion taken by the convention at New Orleans last year, he urged the delegates to continue their efforts to secure its adoption by congress.

"The association should stand by its guns" in this important matter in the fullest sense of the word," said President Livingstone, "and should continue to support the bill as previously recommended and again so on record as favoring its adoption."

Notes from Yankton. YANKTON, S. D., Sept. 10.—(Special.)—Yankton college opened Monday with by far the brightest prospects for the coming year in any year in the school's history. A number of changes on the faculty are announced and college folks are greeting again Prof. G. H. Durand, who returns to the college, after several years' absence. As the result of two jail deliveries within a month, both daring and successful attempts at liberty, a shakeup has resulted in the office of Sheriff Rathgeber, who called for the resignation of Deputy August Moses and has appointed A. P. Johnson, formerly of the city police, to the vacated position. A deal was closed Monday with F. H. Perry, of Hot Springs, by which that citizen will at once erect in this city a pressed brick plant for the manufacture of the new silicate lime brick. The plant will cost \$200,000 to install. Myron Jencks, younger brother of Theatrical Manager M. W. Jencks, of Sioux City, was recently very badly burned in the legs by stepping into a pan of hot lard. It will be months before he will be able to get about.

(From a Staff Correspondent.) LINCOLN, Sept. 10.—(Special.)—J. L. McBrien, chief lieutenant to F. P. Corrick, Nebraska manager of the bull moose campaign, in a speech at the Lincoln Ad club this noon admitted that trust money was used in the Roosevelt campaign. "Taft has his Rockefeller trust, Wilson his Ryan Tobacco trust and Roosevelt his Perkins of the Steel trust," Mr. McBrien said further in his address, which was listened to by men of all political beliefs, "Mr. Wilson cannot stop the flow of tainted money, although he may refuse to accept any. His campaign is supported by money from Tammany Hall that is dripping with the blood of Roosevelt crying from his grave." The address caused something of a sensation, as it was not supposed that any leader of the bull moose movement would admit the use of Steel trust funds in the Roosevelt cause. Kinkaid Visits Lincoln. Congressman Moses P. Kinkaid of the "Big Sixth" today called at the different political headquarters affiliating with the republican party.
