

### Cops Busy Warning Motorists Concerning New Auto Lens Law

The Box Butte county police authorities and the Alliance city officers are not as hard-hearted as some people give them credit for being. The new state auto lens law went into effect last Thursday, whereby any automobile driver subjects himself to arrest and a good stiff fine unless his automobile wears a set of legal lenses. The auto dealers and hardware men carried on a campaign of advertising, but there were just scads of folks who failed to heed the warning.

The police authorities started on the job along about noon Thursday, and since then have put in every spare minute talking nice to motorists. One police officer estimated that he chatted with at least fifty law violators the first day the new law was in effect, and about the same number every day since. So far, no arrests have been made, the police desiring, apparently, to give every man the fullest opportunity to comply with the law. But patience ceases to be a virtue after a time, and some of these days the cops are going to quit warning, and begin hauling the offenders into court.

Kay and son will breed Stanley Mischief cows to Col. Mischief. This should be a profitable exchange for both parties. This line of breed is followed by Mansel Bros. and is producing some of the highest priced herds living today. John would not state the value of his bull, as he was calved on the Linton ranch, seven years ago and has never been off of it until today. ### RANDOM SHOTS

Maybe these "cut price" printers figure like the merchant who bought an article for \$12.25 and sold it for \$9.75. "How can you make a living that way?" he was asked. "Well," was the reply, "I may lose on the dollars, but I gain on the cents."

Mosquitoes weren't down on the program for the Nebraska City chautauqua, but they came anyhow, so Sweet discovered.

This morning we had occasion to call a preacher on the telephone. A sour, hard voice growled at us over the wire: "Well—whaddya want?" We wondered idly, while waiting for the minister to come to the phone, how he could keep the peace that passeth all understanding in his heart. Then we discovered that central had given us the wrong number.

After you've hired half a dozen electricians to puzzle out an eccentricity in the construction of a metal pot, and have paid all of them from \$1 to \$3 to fix it, and you finally find a fellow who really does find what's the matter, and he only nicks you one buck—oh, boy, ain't it a grand and glorious feeling!

Ash Grove trimmed Berea, 46 to 6, but with a score like that we refuse to call it baseball. That is only a batting rally, or a relay race.

Every time we get nerved up to swim, it rains.

A married man of several years' standing assures us that we have made a sad error so soon in our matrimonial career. "I never carry any kind of packages," he said. At the time he admonished us, we were loaded down with three.

Why is it that none of these experienced fellows ever give a friend the benefit of their experience until it's too late?

Another married man assures us that "Most of 'em will listen to reason if you choke 'em a little."

At that, you can't really blame the preacher. He's already licensed to be a fisher of men.

They tell us that on one historic occasion, four preachers went on a fishing trip, and three of them didn't have a license. Wasn't it a shame the game warden didn't come along that day? Judge Tash would have had the opportunity of his life to get even.

Tonight's attraction at the Imperial is "Her Husband's Friend," starring Enid Bennett. The story was written by Marjorie Benton Cooke. Miss Bennett has the role of Judith Westover, and the plot contains a delightful mixture of a carousing husband, a divorcee, hubby's chum, alimony, love and mix-ups. It all turns out well, of course, but there is some tangle to straighten out.

Jack London's stirring story of the sea, "The Mutiny of the Elsinore," is the Wednesday feature. Mitchell Lewis plays John Pike, the mate who battles with the mutineers when they try to take over the ship; Helen Ferguson is seen as Margaret West, the daughter of the ship's owner; Cason Ferguson as Dick Somers, the extravagant son of the skipper, and William V. Mong as "The Rat."

"The White Dove" is scheduled for Thursday. The story is taken from the powerful novel by William J. Locke. The story told is that of a doctor who does not learn until after the death of his wife that she was unfaithful to him. Stunned by this discovery, and doubting the love of another woman of whom he has since become fond, and the very identity of his own daughter, he leaves. In London are played out the remaining chapters, wherein is unfolded another theme which proves that the doctor's mother sinned even as did his wife.

### Rheumatism Relief--25c.

Nature's Remedy (NR Tablets), Are Helping Thousands Who Tried Expensive Things Without Result. It's Guaranteed.

There are three vital processes of human existence—the digestion of food, the extraction of nourishment from it and the elimination of waste. Poor digestion and assimilation means failure to derive full nourishment from food and that in turn often means impoverished blood, weakness, anemia, etc. Poor elimination means an accumulation of waste matter which poisons the body, lowers vitality, decreases the power of resistance to disease and leads to the development of many serious ills.

Rheumatism—due to some interference with the process of elimination, failure to get rid of certain body poisons—cannot be expected to yield to any medicine that fails to correct the condition responsible for it. Could any reasonable person expect to rid himself of rheumatic pain as long as rheumatic poison is allowed to remain in the body?

Think of this. It explains the success of Nature's Remedy (NR Tablets) in so many cases where other medicines have failed. Thousands are using NR Tablets every day and getting relief. Why pay five or ten times as much for uncertain things? A 25c box of Nature's Remedy (NR Tablets), containing enough to last twenty-five days—must help you, must give you prompt relief and satisfactory benefit or cost you nothing. Nature's Remedy is not only for the relief of rheumatism. It improves digestion, tones the liver, regulates kidney and bowel action, improves the blood and cleanses the system. You've tried the expensive medicines and doctors, now make the real test. You'll get results this time. Just try it. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

Its very simplicity—three rows of diagonal knobs, gripping the road—is the result of all the years of U. S. Rubber experience with every type of road the world over.

# If every one listened to experience, how much they'd save

**STOP** and talk to the next man you see with U. S. Tires on his car. Ask him why.

Most likely you'll hear an interesting story about his tire experiments—before the answer was found. Money wasted. Promises unkept. Trouble on the road—humorous to every one except the man who went through it.

Finally U. S. Tires. And U. S. Tires ever since.

Perhaps it's the experience of U. S. Tire buyers that makes them more emphatic in their preference than ever this year.

everything by the way of "staggering bargains", "hurrah discounts", "discontinued lines at less" and so forth they know what not to get.

They want a fresh, live tire. With a good reputation. That's everything it says it is. With the people behind it who back it up.

There are 92 U. S. Factory Branches. Your local U. S. Dealer is drawing upon them continually to keep his stocks sized up, complete—to give you service. Whenever he gets one or a hundred tires from a U. S. Factory Branch, they are newly made this season's tires.
