## Rebels Reoccupy Country and Furnish Hard Fighting.

### THE TROOPS THAT WERE ENGAGED

**Insurgents Venture Back in the Train of Lawton's Main Column—One American Killed, Fourteen Wounded—Good Results Accomplished in March of Twenty Days to Fortified.**

**MANILA, May 25.**—Two companies of the Third Infantry and two companies of the Twenty-second Infantry, formerly General Lawton's rear guard, returning from San Miguel to Balaguay yesterday, escorting a signal party, which was picking up wire laid with General Lawton's expedition, found that the insurgents had reoccupied the country, and hard fighting followed from daylight until the Americans camped at night. But the troops completed their work, though harassed by the enemy. One American was killed and fourteen were wounded. The troops captured twenty prisoners and thirty wounded.

It developed yesterday that five men instead of one were drowned by the sinking of a raft loaded with soldiers of the Fourteenth regiment at the Pasig ferry.

Twenty insurgents were killed and forty were wounded in the engagement with Major Bell, a reconnoitering party, consisting of two companies of the Fourth cavalry, in the vicinity of Santa Arita, yesterday.

General Lawton, with most of his troops, has arrived at Malolos. His expedition marched 120 miles in twenty days, had twenty-two fights, captured twenty-eight towns, destroyed 300,000 bushels of rice and only lost six men killed and thirty-one wounded. On the other hand, General Lawton estimates that his troops killed 400 killed insurgents and wounded double that number.

The Oregon and Minnesota regiments are returning to Manila. The Spanish newspaper, Ocania, has been suppressed for publishing seditious editorials.

The United States commissioners and many American officers celebrated Queen Victoria's birthday yesterday on board the British first-class cruiser Powerful.

Generals MacArthur and Funston, with the Kansas and Montana regiments and the Utah battery, have dispersed 800 insurgents who were entrenched on the railroad beyond San Fernando, near Santa Arita.

The American scouts were fired upon from the trenches unexpectedly and withdrew. The firing was heard at San Fernando, and General MacArthur assembled his troops and marched quickly after the scouts. The Montana regiment flanked the trenches on the left and the Kansas regiment attacked the enemy's right flank, General Funston leading the charge at the double-quick.

The insurgent loss was large, many prisoners were captured and it is reported that twenty Americans were wounded.

**Greetings to the Queen.**  
**MINNEAPOLIS, May 25.**—After the opening prayer by the moderator in the Presbyterian assembly this morning Rev. John M. Ingham of New York, addressing the moderator, said: "We are dwelling in a day which has marked a notable increase in friendship between this country and Great Britain, and I would remind you that this is the 80th anniversary of Queen Victoria's birth. I therefore move that the assembly send to her a communication congratulating her on her successful reign."

This motion was carried unanimously and the following message was immediately cabled to Queen Victoria:

To Her Majesty, Queen Victoria, Windsor, England: The general assembly of the Presbyterian church in American tenders congratulations on the eightieth anniversary of your birthday and rejoices in the divine guidance which has blessed your long and prosperous reign.

ROBERT F. SAMPLE, Moderator.

### Kaiser Picks Up Cab Driver.

**BERLIN, May 25.**—An exciting street incident was witnessed by Emperor William in the Tiergarten today. A cab horse bolted and its driver was thrown from the box. His majesty, accompanied by an aide-de-camp, was passing at the time and they immediately dismounted from their horses and his majesty superintended the work of picking up the cab driver and restoring him to consciousness. The emperor also took the name and address of the man with the view of assisting him.

Coghlan to duty as commandant of the Puget Sound naval station, June 30, by which time the Raleigh will be out of commission. The remaining officers of the Raleigh are also detached and placed on waiting orders or leave. Captain Coghlan relieves as commandant Captain J. G. Green.

## DEWEY WANTS TO REST.

**Worn Out by Onerous Duties and Responsibilities.**

**NEW YORK, May 25.**—A dispatch to the Journal and Advertiser from Hong Kong quotes Admiral Dewey as saying on board the Olympia: "The courtesy of these visitors I warmly appreciate, but I am to much worn out and sick to receive them. I am sorry to leave Manila at this time. I could not stand the care and responsibility much longer. It is vastly easier sometimes to be under orders than to issue them."

"It is the responsibility that kills. During the year that has elapsed since we came to Manila I have not had one sick day until now. A year is long enough in this climate for an old man and I am glad to be permitted a rest. On this account I expect to remain in Hong Kong two weeks. That ought to recuperate me. My intention is to spend the time at Victoria Peak, where I hope to be absolutely free from worry. Nobody is more sensible of the kindness of the people who have extended me invitations, but I do not wish for entertainment. My health would not stand it at present. Two weeks of perfect quiet at the peak ought to make a new man of me."

"I have the greatest enthusiasm in the future of the Philippines. I hope to see America's possessions the key to Oriental commerce and civilization. The brains of our great country will develop the untold agricultural and mineral richness of the islands."

"We must never sell them. Such an act would bring another great war. We will never part with the Philippines, I am sure, and in future years the idea that anybody should have seriously suggested it will be one of the curiosities of history."

"The insurrection is broken. There will be no more hard battles and the new era for the islands that was temporarily delayed by the rising will soon begin. Aguinaldo and his generals must be captured and then the very semblance of an insurrection will cease."

"The Olympia will go home leisurely. I want all my officers and men to get the greatest benefit of all the stops we make. We will pick our places with this in mind. They have earned a rest by a year of steady duty without respite."

"While I am glad to be going home, I cannot leave Manila without regrets. There have been many pleasant occurrences among the months of harassing responsibility, and we will not forget them."

### Surgeon on Dewey's Health.

**WASHINGTON, May 25.**—Surgeon J. E. Page of Admiral Dewey's flagship, the Olympia, has arrived here on leave. He came ahead of the Olympia to avoid the long delays of the sail via the Suez canal. Surgeon Page has been on the flagship ever since Dewey took command, seeing him daily and having general charge of medical affairs so that he is in a position to give an intelligent view of the admiral's health and general condition. He said today:

"Admiral Dewey is in no sense a sick man, but is as well as any man could be after spending a year in the tropics. I was on the Olympia at the time he came aboard and from that time to the present I do not believe there has been any appreciable change in his appearance, weight or general condition. Anyone who thinks he is a physical wreck should hear the admiral on the quarter deck when he gets aroused. He is the gentlest man I know, and yet he expects every man to do his exact duty, and when there is any shortcoming the admiral will be heard from in no feeble or sickly manner. Of course, everyone in the fleet has suffered in health more or less in the last year, owing to the terrific and long sustained heat and the enervating climate. It takes all the life out of a strong man, kills his energy and ambition. In that way Dewey suffered with all the rest of us. It was particularly arduous being blockade duty, when for long stretches no man could get ashore."

Surgeon Page was asked if Admiral Dewey's responsibility had not weighed heavily on him.

"I think not," he answered, "and I believe it will be found that he has just as much nerve as the morning he fought the battle of Manila bay. He is a man who carries responsibility lightly and does not let it break him down. On the morning of the battle he was perfectly cool and only once throughout the action did he show signs of excitement. That was when the head gunner reported that our ammunition was running short. This was about the time we pulled off for breakfast and it had a rather depressing effect. But it was quickly offset when the officer of the deck reported that the Reina Christina and Castalia were afire. That was the turning point and the admiral had no anxiety after that."

"Asked if he had prescribed for Dewey of late, Surgeon Page said:

"No, he has no need for prescriptions. During the last year he has not once asked for a prescription or taken medical advice, except in a casual way. If he wants anything he sends down to the ship's apothecary and gets it. His habits are so regular that he needs little or no medicine. His smoking and drinking are in perfect moderation. He eats well and sleeps well, and it is one of the recognized offences on board ship to tramp heavily over the admiral's cabin after he has retired."

"It has needed a pretty calm man at the head of affairs," said Surgeon Page when asked as to the reports of friction with the German naval officers. "I know nothing of any differences, but we all felt that much reliance was to be placed on the admiral's tact and conservatism as a means of avoiding any possible difference. Throughout the fleet he was universally admired, not only as a naval commander, but for his statesmanship and discretion."

Many are astonished to learn that Hayden Bros. "The Big Store" in Omaha, ship goods to such distant points as Texas. It only illustrates what cash and western grit will do. ### U. S. Patent Office Business.

In 1895 a patent was granted for an invention pointed out in the claim as follows:

As a protection for vessels or other structures, a filler composed essentially of compressed comminuted corn-stalk pith, substantially as described. A second application for a patent for the same material described in a claim as follows:

The within-described new material adapted for use for packings and other purposes, the same consisting of the comminuted cellular portion of corn-pith freed from sappy deleterious and adherent matters and having the characteristics substantially as set forth, has been considered upon appeal by Judge Morris in the Court of Appeals of the District of Columbia, and the distinction between the two inventions stated by the court as follows:—

A material consisting of the comminuted cellular portion of corn-pith freed from sappy, deleterious and adherent matters by subjecting the pith to the action of a blast of air, preferably heated, Hele to be not anticipated by applicant's prior patent disclosing corn-pith obtained by passing corn-stalks through breakers and then separating the pith from the fiber and outside shell, as there is no description in the patent that the pith is subjected to air at a high temperature.

### School Lands at Your Own Price.

As soon after the first of July as practicable I will hold public auctions for leasing about 600,000 acres of school land, under provisions of the new law, in the following counties: Antelope, Banner, Blaine, Box Butte, Brown, Chase, Cherry, Cheyenne, Custer, Dawes, Deuel, Dundy, Garfield, Grant, Hayes, Hitchcock, Holt, Hooker, Keith, Keya Paha, Kimball, Knox, Lincoln, Logan, Loup, McPherson, Pierce, Perkins, Rock, Scotts Bluff, Sheridan, Sioux, Thomas and Wheeler. Under the new law, if these lands will not lease at public auction at a per cent upon the appraised value, they may be leased to the person offering 6 per cent upon the highest valuation. These lands are in the best stock growing portions of the state where cattle, sheep and horses can be produced at less expense and, therefore, at greater profit than anywhere I know of; and yet, surrounded with as good and intelligent a class of citizens as anywhere to be found. The harvest truly is great and lasts almost the year round, and no more inviting field for the intelligent stockman and farmer can be found; and now, there is an opportunity to secure twenty-five year lease contracts thereon at what the lands are worth, the lessee himself being the judge, it is confidently expected that all or nearly all of these lands will be leased during the present year at the public auctions, as above mentioned. Any one desiring to attend any of these leasing auctions will be notified of the time and place of holding the same, as soon as it has been arranged, if they will write me at once giving the names of the counties in which they are interested; and will also be furnished a list of lands to be leased so that they may visit the counties in advance of the leasing auction and examine the lands which will be offered. Notice of the auction will be duly given in the local papers. Send stamp for copy of the new school land law under which the lands will be offered. Any further information will be cheerfully furnished.

"We began giving the pills at once, and the next day we could see a change for the better in her. We gave her one pill after each meal until she was entirely well. She has not been sick a day since. We think the cure almost miraculous."
