

PIUS X REIGNS IN VATICAN

Cardinal Sarto Elected Pope on Seventh Ballot.

NEW PONTIFF PLEASES ALL.

As Patriarch of Venice Pius Enjoyed Great Popularity—Is a Man of Liberal Ideas, Simple Tastes and Very Devout—Accepts With Reluctance.

Rome, Aug. 5.—The conclave, after being in session for four days, elected Giuseppe Sarto, patriarch of Venice, as pope, to succeed Leo XIII, and Sarto now reigns at the vatican and over the Catholic world as Pius X. Last night all Rome was illuminated in his honor. His election and the assumption of his holy office were marked by a striking demonstration and impressive ceremonies at the vatican.

The date on which the coronation of Pius X will take place has not been decided, but the impression prevails that it will take place on Aug. 9.

The conclave was not formally dissolved until 5:30 p. m. The cardinals then returned to their various apartments in Rome, with the exception of

makes no change in the relations between the vatican and the quirinal, except perhaps to render them more courteous, inasmuch as he enjoys personal acquaintances with the king and members of the royal family. Queen Margherita holds him almost as a friend.

The relations of Sarto with the house of Savoy are well illustrated by what occurred two months ago, when the king of Italy went to Venice to open the International Art exposition. King Victor Emmanuel gave orders that the patriarch be given precedence over all the local authorities, but Sarto having arrived while the king was speaking to the prefect, refused to be announced and said he would not disturb his majesty. He remained in an ante-chamber, affably conversing with the generals and admirals gathered there. When the king learned of his presence he came to receive him on the threshold of the chamber and kept him in conversation, accompanying him afterwards in a gondola, while all the soldiers and guards rendered Sarto military honors. Naturally this does not mean that Sarto, once pope, will fundamentally change the policy that the church has adopted towards the Italian state, but, certainly his personal feeling will be favorable to moderation.

Rises Form Lowly Position.

The new pontiff is a man of simple origin, and although not a prominent candidate, he had been frequently mentioned as one of the many cardinals who might be taken up as a compromise. In several respects he resembles his predecessor, notably in his reputation for culture and piety. Having been associated with no factions, this fact alone won him much favor from foreign cardinals, who were without a special candidate. In appearance Pius X is a handsome man. He has a fine, erect figure despite his sixty-eight years. When he pronounced his first benediction at St. Peter's his voice rang out with splendid resonance. In every way he showed beyond a doubt that he had dignity and personality in keeping with the best traditions associated with the famous pontiffs, who for centuries have ruled the vatican.

Sarto began his education at a seminary at Treviso and continued it at Padua, the seat of the famous university, one of the best, not only in Italy, but in the world. Pius X was only twenty-three when he was consecrated a priest at Castel Franco, acting for nine years afterwards as coadjutor to the parish priest at Tombola, province of Padua, a small village of 2,950 people, who were the first to appreciate his virtues. His kindness was unfeigned. He sought to fill their wants and never a murmur was heard when he was called in the middle of a winter night to a deathbed which proved to be nothing of the kind. He gave freely of his very small means, until he often went without meals himself, but he kept many a poor family from starvation.

In 1867 he was appointed parish priest at Salzano, which was considered an important promotion, being a village of 3,341 souls. Still he was exceedingly sorry to leave Tombola, having become attached to the people. The peasants, when he left, made a most enthusiastic demonstration, crying "Viva Don Giuseppe," while many women whose children he had nursed cried copiously. He was kept at Salzano only two years, which is remarkable in an Italian parish priest. In 1875 he was elected chancellor of the bishopric of Treviso, then spiritual adviser of that district and finally vicar general.

Leo Pushes Him Forward.

Pope Leo, who had appreciated his cleverness, modesty and piety, appointed him, in November, 1884, at the age of forty-nine years, bishop of Mantua, where he remained nine years, until 1893, when he was made a cardinal and appointed patriarch of Venice. He there distinguished himself as a thorough reformer, suppressing all abuses, restoring the dignity of the clergy and the earnestness of religion. Sarto became the idol of the Venetians. When his gondola went through the canals the people rushed on the bridges and along the sides of the canals, kneeling and saluting the women exclaiming: "God bless the patriarch."

He did not like to go out of the sight of the lions of St. Mark, which now he will never see again, if, as is almost sure, he follows the rule inaugurated by his two predecessors, never to leave the vatican.

One of his first steps will be to ameliorate the conditions between the vatican and France and to try to prevent a similar struggle against the congregations in Spain. He is not credited with being favorable to Austria, as he still remembers how much his fatherland suffered under the domination of that country.

Pius X admires the progress of Catholicism in America and believes the United States is a fertile field for Catholicism. The cardinals mentioned as likely to be appointed secretary of state are Ferrata, prefect of the congregation of bishops, Cavagnis and Vincenzo Vannutelli.

Austria and the Vatican.

Vienna, Aug. 5.—According to reports from Ischl, where Emperor Francis Joseph is staying, the election of Cardinal Sarto will not change Austria's relations with the vatican, neither will it relieve the existing uncomfortable situation in regard to the emperor's visit to Rome.

Locomotive Boiler Explodes.

Baltimore, Aug. 5.—By the explosion of the boiler of a Northern Central freight engine at Timonium John Baer, the engineer, and W. J. Chewwith, his fireman, were fatally hurt.

TRAINMEN VOTE TO STRIKE

Conductors Prepare Ultimatum to Rock Island Officials.

INCREASE IN WAGES DEMANDED.

Referendum Vote Has Been Taken on the Proposition and Men Decide to Go Out if Application is Refused. National Officers Work for Peace.

Chicago, Aug. 5.—Trainmen and conductors employed by the Chicago, Rock Island and Pacific railroad have voted to strike unless the road pays the increases in wages that they have demanded. Their determination will be made known to the officers of the railroad company today, when committees representing the Order of Railway Conductors and the Brotherhood of Railroad Trainmen will wait on them. These committees will tell the officers of the railroad company the result of the referendum vote that has been taken on the question of a strike and will ask the officers to meet their demands. In case of a flat refusal, the committees will then adjourn to prepare for the calling of a strike of the 2,000 trainmen and conductors employed by the road. National officers of the two employees' organizations are in Chicago and are doing their best to prevent a strike. The dispute is over the new agreement presented by the conductors and trainmen early this year. This provided for an increase of 12 1/2 per cent in wages for men in the passenger service and of 15 per cent for those in the freight service.

DOCTOR HELPS THE DEFENSE.

Physician Who Attended Marcum Is Witness for Accused Men.

Cynthiana, Ky., Aug. 5.—In the Jett and White trial Dr. J. M. Nash of Jackson testified to attending Marcum as he lay dying in front of the court house. He said that a few minutes before the killing he saw Jett in front of Harkis Bros. store, immediately across the street from the court house, talking to Asbury Spier and Lish Noble.

This contradicted the testimony of at least fifteen witnesses who testified for the prosecution to seeing Jett go into the side door of the court house immediately before the shooting. On cross-examination he did not remember seeing any one else at the time of the killing about the court house. It was claimed by cross-examination that he contradicted his testimony on the former trial at Jackson.

Collision on Montana Central.

Havre, Mont., Aug. 5.—While waiting for a herd of cattle to clear the track, the Montana Central southbound passenger train was run into by the "flyer" on a curve a few miles west of here. The Pullman buffet car was wrecked, the engine of the flyer badly damaged and four persons badly hurt. They are: William Turner, waiter; George Washington, waiter; William DeMossy, news agent, unknown woman, passenger. The passengers on the flyer were all badly shaken up.

Orient Completes Road Into Fairview.

Fairview, Okla., Aug. 5.—The Kansas City, Mexico and Orient railway has completed its road into Fairview from Milton, Kan., a distance of 100 miles, and began the handling of freight and general business. The first shipment of 300 freight cars ordered for use on this part of the road to be used particularly in moving the wheat crop has arrived. From Kansas City to Milton, Kan., the Orient uses the Missouri Pacific tracks.

Photographers Meet.

Indianapolis, Aug. 5.—The twenty-sixth annual convention of the National Association of Photographers opened with nearly 1,000 members present. Governor Durbin welcomed the visitors. President Nussbaumer delivered his annual address and after naming committees, released the convention that the delegates might inspect the pictures in the International Art salon, which is connected with the assemblage.

THEY COME FOR HUNDREDS OF MILES TO SEE HER.

Nothing so Wonderful in the Days of Specialism.

Dr. Caldwell.

The success of Dr. Caldwell is attributed to her special study of specialism. Dr. Caldwell, student, philanthropist and physician of wide reputation, having given her entire time and practice to a line of special diseases, which enables her from long experience in handling these troubles to certainly come forward as a master specialist. Her faculty for mastering disease, her ability to diagnose, and her plan of treatment is not excelled by few other physicians. Dr. Caldwell, although a young woman in life, a plain woman, and one who is used to the ups and downs in life, puts herself on a level with her patients and does not pretend to practice the old plan of fashion which is to look wise and say nothing. She knows disease; she knows where to look for disease, and the spot where located, and most of all she knows from experience, from what she has done in the past, she can certainly do for others in the future. It is said by Dr. Caldwell's friends that she can diagnose a disease of any patient without asking them a single question, that being the case, she is not likely to doctor them for the wrong ailment; she will not take an incurable disease and lead the patient to believe that she can cure them when there is really no hope for them. Her business is large and she has plenty to do, even at times, more than she can do, without taking incurable diseases and deceiving her patients. Dr. Caldwell is a graduate from one of the best schools in America. She has practiced her profession in some of the principal hospitals in this country. Her specialty comprises that class of diseases which the ordinary home doctor fails to cure, such as female diseases, heart diseases, diseases of children and the many special diseases of hidden nature. Her practice is mostly among the plain, hard working people who are unable to come to her city office for treatment; she is reasonable in her charges and very lenient with those who are not able to pay. She is charitable, and it is said has never been known to refuse to treat a patient who is worthy and in need. A number of the important cases that we hereby take the liberty to publish, which might be of interest to some who wish to know more of Dr. Caldwell's great work:

Sophia Kran, Albion, Neb., cured of a bad skin disease.

Mrs. Lulu Towles, David City, Neb., cured of female trouble and female weakness.

Mrs. C. W. Killian, Wakefield, Neb., cured of a tumor and liver and stomach troubles.

Rheumatism "THE PAIN KING."

Those who have ever felt its keen, cutting pains, or witnessed the intense suffering of others, know that Rheumatism is torture, and that it is rightly called "The King of Pain."

All do not suffer alike. Some are suddenly seized with the most excruciating pains, and it seems every muscle and joint in the body was being torn asunder. Others feel only occasional slight pains for weeks or months, when a sudden change in the weather or exposure to damp, chilly winds or night air brings on a fierce attack, lasting for days perhaps, and leaving the patient with a weakened constitution or crippled and deformed for all time.

An acid, polluted condition of the blood is the cause of every form and variety of Rheumatism, Muscular, Articular, Acute, Chronic, Inflammatory and Sciatic, and the blood must be purged and purified before there is an end to your aches and pains. External applications, the use of liniments and plasters, do much toward temporary relief, but such treatment does not reach the real cause or cleanse the diseased blood; but S. S. S., the greatest of all blood purifiers and tonics, does cure Rheumatism by antidoting and neutralizing the poisonous acids and building up the weak and sluggish blood. It is safe and reliable in all forms of Rheumatism. It makes the old acid blood rich, and the pain-tortured muscles and joints are relieved, the shattered nerves are made strong, and the entire system is invigorated and toned up by the use of this great vegetable remedy.
