Is Your Skin a Turncoat?
As night closes and love is found once morning revealing an uncomervised crew of those unnatural complexion caremesses—spelling your pleasure on an important day?
There is a way to avoid this.

You can now be sure of a flawless, beautiful skin

New discovery of science penetrates to the True Skin, eliminating complexion blemishes at their root.

If your skin were a simple covering, any good soap could be relied on to keep it healthy and harmless. But if it has two layers, the surface covering and a complicated structure known as the true skin underneath. Nearly all skin troubles take root in the true skin, beyond the reach of ordinary treatment.

Poultices, gels, and infections developing among the millions of tiny glands in the true skin, interfering with their important work of eliminating waste material from the body. The true skin then shows its distress by pimples, blackheads, eczemas or other serious defects which appear on the surface. The only way to be cured is to remove the health of the true skin.
