WHAT HAS BEEN YOUR EXPERIENCE?

"Figures don't lie, but liars can make figures." If you have followed up some merchant's (red hot) advertisements and been disappointed in the values offered, don't say there is no use in believing our advertisements. Just remember the little quotation given above. We are doing an important work in publishing advertisements which people can believe, for they are simply the plain truth about the store. We find that we are winning friends and customers every day by this policy. If we haven't won your trade yet we will when you learn the advantage of trading here.

Skimming Station.

The skimming station was opened here last Friday about as advertised. Milk began arriving about 9, delivery lasting until 11 o'clock, during which time the machinery was in operation and witnessed by many of our townspeople. Luncheon was had in the hall, after which an address was made by Prof. Davison, Director of Agricultural Department, State University, followed by W. W. Marple of the Creamery Co. Music was furnished by the Young Ladies' Cornet Band and the High School Quartet.

Milk is being delivered this week at the rate of about 1400 pounds per day, which is regarded as a most excellent beginning, particularly for this season of the year. Already the wife of one of the farmers who is supplying milk is complaining of nothing to do, while the milk jars she formerly used in making butter are piled carefully away.

Mr. Marple, of the Creamery Co., will return here, and accompanied by some of our Valentine citizens, will visit Sparks, Monday, 7th. Since there is a whole lot of work in connection with organizing, it is desired that those living in the vicinity of

Sparks, arrive there by 11 a.m., when Mr. Marple will begin outlining the system.

The DEMOCRAT believes the skimming station a good thing. At least it advises taking time for investigation.
