AROUND THE HOUSE

Bacon will not curl up on the edges if the edges are notched with scissors before putting on to cook.

Vinegar or some other acid such as lemon juice added to beets will cut the bland flavor and help to restore the red color lost when cooking.

Before cooking rice place it in a colander and pour boiling water over it. Save this water, as it makes excellent starch for blouses, muslin, laces, et cetera.

To blend cheese with sauces, cut it into small pieces. Cook slowly and stir constantly until it has blended. Or you can press the cheese through a sieve with a spoon and then mix it into the sauce.

Never turn boiled puddings out of the pan the moment they are taken from the fire. They are liable to break if this is done. Let them stand for a few minutes until some of the steam has evaporated and you will find that they will turn out easily.

Frequently the finger is pricked when sewing and a bloodstain left on a light material. To remove it moisten a piece of unbleached baste cotton and rub over stain. Work from outside to center, and it will soon disappear.
