### POPULARIZE PARCEL POST

Rates in First and Second Zones Are Reduced.

LIMIT WILL BE TWENTY POUNDS

Government Will Buy Automobiles to Be Used in Deliveries of the Parcels—Chart Will Displace Zone Map.

WASHINGTON, July 19.—Plans for the extension, improvement and reduction in rates of the parcel post were announced today by Postmaster Burleson. The changes, which are to become effective on August 15, include an increase from eleven pounds to twenty pounds in the maximum weight of parcels; a material reduction in the postage rates in the first and second zones and the abandonment of the parcel post map as a means of computing rates and the substitution for it of a rate chart individualized to every postoffice in the United States. The plans contemplate the purchase of a large number of automobiles to be used exclusively for the delivery of parcel post matter.

While, for the present, the maximum weight limit of twenty pounds and the reduction in rates will apply only to the first and second zones, from any given postoffice—a distance of about 125 miles—the changes directed today constitute the first long step towards a universal extension of the system and a general reduction in the rates of postage on parcel post matter.

**Change in Zones and Rates.**  
Mr. Burleson announced the changes as follows: "The first zone shall include the territory within the local delivery of any office and the first zone rate of postage will apply to all parcel post mail deposited at any office for local delivery or for delivery by city carrier, or on rural routes emanating from that postoffice.

**Maximum Weight Increased.**  
"The maximum weight of parcel post packages will be increased from eleven pounds to twenty pounds, the increase of weight to apply only to the first and second zones. No change has been made in the size or form of the package."

**Rate Chart to Be Used.**  
"The rate chart, to be made for each separate post office, will be worked out from the focal point of the unit in which the post office is located. The simplicity of the plan is thought will make easily determinable the rate of postage from that unit to any other on any mailable parcel and will greatly facilitate the handling of parcel post matter at post office windows."

**Will Buy Automobiles.**  
Postmaster General Burleson decided to purchase rather than to lease automobiles for the delivery of parcel post matter in the belief that the machines could be bought outright at much less expense and, in charge of the distribution of the water donations that the larger part of the principal of the proposed loans will be paid back in due time, so that the only loss will be the interest on the bonds to be voted.

**Sacrifice is Small.**  
"Surely this is a small sacrifice for the property owners of this country to make to aid their fellow citizens who have suffered not only great financial losses, but who have in many cases lost friends and relatives, as well as their property. In a great calamity of this character, which strikes at so many of our citizens, it seems to me that the financial loss, insofar as possible, should be equally distributed among all the people who live in the community."

**Death Record.**  
August Shaffer, 70, died at his home near Henderson, Neb., July 18. He was overcome by heat a few days ago, while working in the harvest field, which was the cause of his death. He was 70 years of age.

**Relieved in Five Minutes.**  
Mr. J. H. Mansbach of Wollaston, Mass., writes: "I had Asthma very bad and had to sit up night after night. Could get no relief until I took Warner's Safe Asthma Remedy. In five minutes I was breathing easy and went right to bed and slept. I would not be without it."

**Warner's Safe Asthma Remedy**  
These most annoying of diseases are more prevalent just now than at any other season. The unfortunate sufferers can safely use, and with assured good results, Warner's Safe Asthma Remedy. It is prepared and prescribed for all forms of Asthma, Hay Fever and stuffy colds—it soothes and restores at once.

### TARIFF BILL FAVORS EAST

Senator Cummins Analyzes Proposed Schedules.

### ACCUSES WILSON OF COERCION

Attitude of President and Secrecy of Caucus He Holds Improper—Predicts Defeat of Democrats in Three Years.

WASHINGTON, July 19.—Senator Cummins, opening the tariff debate today for the progressive republicans, declared that the republican party lost the confidence of the people and was "driven from maintenance of import duties, many of which were unnecessarily and oppressively high."

"The democratic party," he asserted, "soon will be overtaken with like disaster because it is about to inflict upon the country a tariff law which, with respect to many things, invites the perils of free trade, and which with respect to many others, imposes duties that are dangerously and destructively low, and which, from end to end, grievously discriminates against the west in favor of the east—that is to say, in favor of the manufacturer against the farmer."

**Wilson Accused of Coercion.**  
Besides pointing out many things that he considered destructive and entirely unwarranted in the bill, Senator Cummins criticized the president for his influence exerted upon members concerning the tariff bill, an influence he said, "so persistent and determined that it became coercive."

"I do not charge, nor do I believe," said Senator Cummins, "that the president, in terms, bars this power for legislative subordination; but I do say that without better, the knowledge of the consequences that may follow legislative independence, will bring about all the evils of actual wrong-doing unless the most scrupulous care is exercised in communications between the president and members of congress. It lies with the president himself to mark out the path of propriety and to pursue such a course as will enable every member of the legislature to feel free to act independently in every vote that he casts."

### RIOT OF TONGUES GIVES ZEST TO POLICE COURT

Peter Peterson of the Vienna hotel was arrested Friday night for imbibing too freely. When brought to the station the drunk sergeant in charge spoke as good as a dead sergeant in English as he spoke to the citizen. However, when Peterson made his appearance before Judge Altstadt he had lost his Anglo vocabulary and could enunciate only in the Scandinavian tongue. Judge Altstadt, who also has been heard to speak the English language, had evidently got in "Dutch" a fragment of manner that between the two did not discern enough evidence to prosecute. Finally giving up the job, Anhauser arose and requested the court to obtain an interpreter. The only Swede in the place happened to be Clerk of the Court, Tom O'Connor of Dublin, Ireland, who volunteered his services and for the space of fifteen minutes talked Svenska, in regular Stockholm style. The results of the conversation consisted in Mr. O'Connor informing the court that Peterson had been drinking the night before and admitted it. "He don't half to admit it, I know it. I discharge you, take der first road for Sweden."

### Council Bluffs

#### BACK FROM ST. JOE MEETING

Prof. Maney Tells of Doings of Missouri Valley Fruit Growers.

#### CONFERENCE ON FREIGHT RATES

Committee Will Present Schedule to the Officials of the Railroads Operating in Local Territory.

Prof. T. J. Maney, in charge of the experiment stations in the western part of Iowa, conducted by the horticultural department of the Ames college, returned yesterday from St. Joseph, Mo., where he went Tuesday to attend the meeting of the fruit growers of the Missouri river districts, who had arranged a conference with railroad officials concerning freight rates. The purpose of the meeting was to bring about a readjustment of the rates from Missouri river points eastward that would give the western shipper the same rates accorded eastern shippers into western territory.

Iowa fruit men dominated the meeting. J. M. Bechtel of Hamburg, president of the Iowa Fruit Growers' association, was made chairman.

Prof. Laurens Greene of the Iowa experiment station and who is secretary of the Iowa Fruit Growers' association presented the following:

At a meeting of the Iowa Fruit Growers' association held in Des Moines, Ia., July 15, the fact was brought out by members of this association that the discrimination now exists between the freight rates on apples from the territory west of the Missouri valley territory, Cincinnati and other northern, eastern and southern centers of distribution, as compared with the rates on apples from other territory and with whom they come in competition, are shown.

### Parties Stealing Papers Are Known

Newspaper thieves, who have been making a practice of filching their reading matter from subscribers who pay for their daily papers, are due to have some expensive experience. Warrants are now in the police court, being held pending promises of restitution for thefts repeatedly perpetrated at the Frank Street pharmacy, after the identity of the men had been fully established.

Numerous complaints have caused other parties to be spotted, whose depredations have caused much complaint on West Broadway and Pearl and Main streets. Enough evidence has been secured to convict. A penalty of not less than \$5, in addition to the cost and humiliation of exposure, is incurred by every paper thief. The papers are stolen by men going to their work on the early morning street cars and it has been found to be an easy matter to spot them. Prosecutions are to follow future thefts.

### Cottrell Hearing For Next Monday

The preliminary hearing of Warren E. Cottrell, former general secretary of the Young Men's Christian association, will be held in Justice Joseph's court next Monday, where he will be called to plead to the charge of making five attempts to burn the \$100,000 association building here. The citation to answer the charge is due to Deputy State Fire Marshal Tracy's action prior to the formal discharge of Cottrell from the state hospital for the insane at Clarinda, where he had been consigned by the insanity commission following his written admission of probable guilt.

### SATURDAY SPECIALS IN OUR SANITARY GROCERY

### Business Men Join in Birthday Dinner

Four Council Bluffs business men will join today in celebrating their birthday anniversaries. They will observe the event by taking dinner together at the Metzger cafe. G. H. Chisam will be the toast of the party and will deliver the only one willing to confess his age. The others are Gus Loda, Arthur Hoffmayer and Painter Knox.

A call will be issued today for any other business men who happened to be born on that day of the month to become members of the company at future annual dinners.

Perseverant Advertising is the Road to Big Returns.

### MAYOR OF SEATTLE ORDERS SUSPENSION LOCAL NEWSPAPER

(Continued from Page One.)

salvors roamed through the halls shouting gleefully, thinking the building was used as a lodging house by the Industrial Workers. One woman, a visitor from Hastings, Neb., fainted, but was soon revived.

**Daniels' Speech Blamed.**  
A report was widely circulated today that Secretary of the Navy Daniels in a speech at the Banier club, had taken the Industrial Workers of the World as his subject and had declared that they and all other believers in the red flag should be driven out of the country. Those who heard the address of the secretary say that it was exceedingly moderate and had no reference to any local matter. Nor did he at any time mention the Industrial Workers.

A street fight Thursday night at an Industrial Workers' meeting, in which three soldiers were beaten, had been represented to the naval men as a direct attack upon the service. All day some sort of trouble had been expected. The rioting began before dark. At first only a dozen sailors were engaged, but later the number rose to probably 200. The crowd continued marching through the streets until after midnight, waving American flags and yelling defiance at the Industrial Workers of the World.

Secretary of the Navy Daniels was at the army and navy ball when told of the extent of the damage done by the rioters. He said it would not be fair to ask him to discuss the outbreak because he knew nothing about it. Concerning his speech at the Banier club in which he criticized the Stars and Stripes and condemned the red flag he said:

"What I said last night concerning patriotism had no reference to any local situation. In fact I do not know anything about local troubles, if you have any. I did not mention the Industrial Workers of the World, nor did I know that organization had obtained a foothold here. I confess that my brief talk on the flag was not made here for the first time, but was a repetition from my recent address at Erie, Pa."

**Marines Rounded Up.**  
Rear Admiral Reynolds, commander of the reserve fleet, expressed regret at the outbreak, of which he had heard only indefinite rumors. He was therefore not in a position to discuss the rioting, he said.

The admiral continued: "While I was at dinner with Secretary Daniels on the West Virginia word came from Chief of Police Danick, warning me that he feared there might be trouble between the sailors and Industrial Workers owing to ill feelings that existed between them."

### HARD TIMES FELT NOW IN JERUSALEM

LONDON, July 19.—Since the extension of compulsory military service to non-Moslems, there has been a marked tendency to emigration among the more intelligent Jews and Christians of Jerusalem, a tendency which was further accentuated by the abuses of the tax collector, and the encouraging reports received from friends and relatives already settled in America, according to the report of the British consul stationed there. The population of Jerusalem, according to this report, is composed roughly of 50,000 to 60,000 Jews, 10,000 Christians and 10,000 Moslems. The British community, largely a missionary one, comprises about 20 persons. Owing to the war and the consequent falling off in the pilgrim and tourist traffic on which Jerusalem mainly depends, business was unusually slack and great distress prevailed, aggravated for some time by a financial crisis brought about by a glut of small coin imported by native speculators from Tripoli and Macedonia. The enormous cost of living is also maintained.

### MONEY TO RESTORE HOMES DESTROYED

(Continued from Page One.)

from outside cities would have been small as compared with the good effect in the eyes of nonresidents of the proclamation made by Mayor Dahlgren.

"We were thus left with the duty and responsibility of caring for those who had suffered severe losses and who were not able to care for themselves. The question now is will we carry forward the efficient work that has been done up to date by the committees in charge of the distribution of the funds heretofore so generously given."

### DEATH RECORD

August Shaffer, 70, died at his home near Henderson, Neb., July 18. He was overcome by heat a few days ago, while working in the harvest field, which was the cause of his death. He was 70 years of age.

### Relieved in Five Minutes

Mr. J. H. Mansbach of Wollaston, Mass., writes: "I had Asthma very bad and had to sit up night after night. Could get no relief until I took Warner's Safe Asthma Remedy. In five minutes I was breathing easy and went right to bed and slept. I would not be without it."
