

MINING IN THE BLACK HILLS

Highland Chief and Other Properties Under One Management.

ORE MILLED BY A NEW PROCESS

Avoids Difficulty of Slimes After Crushing and Pulverizing—Elkhorn Buys Right of Way Over Mining Claims.

DEADWOOD, S. D., Nov. 9.—(Special).—The properties of the Highland Chief and those of the Ophir syndicate, situated in Spruce gulch, have been consolidated, and are now being worked by the Black Hills and Denver Gold Mining companies.

The first Baptist church organized in Dakota territory was at Yankton, in May, 1854. Indian hostilities scattered the few people in the two or three little settlements along the Missouri river, and the first organization passed out of existence. A later organization was effected at Yankton in February 3, 1857. The church at Vermilion was organized a year later, February 16, 1858. The church at Yankton having become extinct, the one at Vermilion is the oldest of existing organizations, and may properly be regarded as "the mother of us all."

POLITICAL CITY NO. FIGURE

No Unsettling Developments in Election to Effect the Stock Market.

PERIOD OF LIQUIDATION NOT OVER YET

Boom in Real Estate One of Most Notable Conditions in the Financial World—Monetary Condition Improves.

NEW YORK, Nov. 9.—(Special).—Henry Clows in his weekly Wall street letter says:

The elections had little effect upon the stock market. Fortunately there were no unusual developments, although the influence of republican majorities was interpreted in some quarters as an expression of confidence in the policy of expansion in legislation affecting the four leading questions of the day—reciprocity, currency, trusts and public lands. It was expected in about three weeks, and usually this is a period of unusual activity in the market.

More Liquidation Coming.

Very considerable liquidation has already taken place, and more must follow. Fortunately the situation is not so serious as it was at the beginning of the year. The public being practically out of the market, the situation is not so serious as it was at the beginning of the year.

Boom in Real Estate.

Modern history has always given the iron trade the credit of being the truest barometer of business conditions, and today it is still the best indicator of the present and the future. Again, all great eras of prosperity and depression have their origin in real estate, which, usually being the safest and least profitable of investments, is the first to be abandoned in a panic.

Foreign Financial.

LONDON, Nov. 9.—The general outlook on the stock exchange last week was encouraging, but practically no change has been done. The American elections, the improvement in Nebraska, and the excellent traffic reports of home railroads were all quoted by the optimists as presaging a revival of activity.

Manchester Textiles.

MANCHESTER, Nov. 9.—The general tone of the cloth market was unaltered last week and sellers are still holding out for a headway. The lower price of cotton evidenced makers' acceptances which probably were made in the belief that the crop estimates caused a withdrawal of supply from the market.
