DISAPPEARS WITH THE CHILD

Louis H. Potts Takes His Ward Out of Court's Jurisdiction.

MOTHER OF GIRL BREAKS DOWN IN COURT

Judge Vinsonhaler, Who Had Ordered the Child Produced in Court, Issues Warrant for the Arrest of Potts.

There were some sensational developments in the habeas corpus case in which Hannah Segerholm is endeavoring to secure possession of her daughter, Mabel Segerholm, before Judge Vinsonhaler yesterday morning.

The first intimation that there was anything wrong in the matter came when C. R. Scott called the clerk of the court up by telephone and requested him to withdraw the name of Scott as attorney for Potts. The case had been set for yesterday morning when the parties were before the court Saturday and when the case was called the mother was present with a number of friends.

Mrs. Potts came into court a few minutes later and announced that her husband, Louis H. Potts, had left home Wednesday and gone to parts unknown to her, carrying with him the child who was to have been brought into court yesterday morning. When questioned she maintained that she knew nothing about her husband's plan to take the child out of the jurisdiction of the court and that she did not know where he had gone. When the mother found that she could not even see her child until Potts could be located she broke down and cried, while friends endeavored without avail to comfort her.

A warrant was issued by the judge and placed in the hands of the chief of police of the child, and the officers are now looking for him. The case was continued until the child is recovered.

Chamberlain's Stomach and Liver Tablets Better Than Pills.

The question has been asked, in what way are Chamberlain's Stomach and Liver Tablets superior to pills? Our answer is—They are easier and more pleasant to take, more gentle and mild in their action and more reliable, as they can always be depended upon. Then they cleanse and invigorate the stomach and leave the bowels in a natural condition, while pills are more harsh in effect and their use is often followed by constipation.
