

DRAG LAKE FOR THE WOMAN

Police Renew Search for Mrs. Knight Upon Discovery of Fisherman.

FRAGMENT OF DRESS FOUND AT CUT OFF

Incident Revives Interest in Case Whose Mystery Halted Police and Still Remains Beyond Public Knowledge.

A posse of police, accompanied by Tony Poote, who a few days ago discovered what he believed to be the remains of a woman's dress while fishing in Cut-Off lake, yesterday morning, a diligent search of the lake to see if a body can be brought to the surface.

Mr. Poote fished out a piece of a woman's skirt and throwing his line in again hooked a second piece, which he says bore evidence of having been in close contact with a white decomposed body.

The finding of the dress fragments, which are supposed to have wrapped the body of Mrs. Idella Ross Knight, revived interest in a murder mystery regarded by the police as the most perplexing they have had to deal with.

Accepting this statement as an explanation the police returned to the station, but by Mr. Knight was not at the hospital. Meantime Knight had vanished.

WOMAN OF ROYAL ANCESTRY

Mrs. Mary O'Gorman, Cousin of French President and Napoleon's Friend.

SHE MAKES PROTESTS AT THE CITY HALL

Complains to Building Inspector that City Defrauded Her and Now Seeks to Raze an Excellent Barn.

The cousin of Marshal MacMahon, second president of France, and the well-beloved friend of the third Napoleon, had a complaint coming against the building department Friday.

"The fight over the name involves a principle. A portion of the organization wanted to fight the union and another portion wished to organize for defense and with a view to harmonizing and taking in members of other organizations, trade associations, such as the master plumbers, etc. A large majority was strongly inclined to conciliation, and I was surprised, for I had looked for more radical men.

CONSERVATIVE MEN PREVAIL

Dominates Things in Organization of New Association, Says Euclid Martin, Who Attended.

President Euclid Martin of the Omaha Business Men's association is back from Chicago, where a new business men's league was formed.

"No," he said, "the organization of the National Industrial Association of America will not affect, at least for the present, our Omaha organization. We selected a name, and we have a resolution setting forth the important principles of the association. No regulations of second rate importance were considered and we did not a thing I had expected would be done—attempt to bring the various associations to an organization."

SELL UNDER REVENUE LAW

County Treasurer Will Conduct Tax Sales According to its Provisions.

WILL NOT ACCEPT THE TAX SALE ACTS

Eliassser Believes County Commissioners Will Order Sale for Next Year Under the Scavenger Law.

Much interest is manifested relative to the tax sale which is to be held Wednesday under the supervision of County Treasurer Eliassser.

The sale this year will be conducted under the new revenue law, which is identical with the act passed in 1928, with the exception of the interest, which is to be 20 per cent, but under the new revenue law is only 15 per cent.

Mr. Eliassser was restrained from selling under the Micky act, which is house roll No. 10, by an act recently brought in by the district clerk by the city attorney and others. Mr. Eliassser announces that he never intended selling any property under this act, as he had conferred with the county attorney, and it was decided not to sell under that act unless the county treasurer was mandated to do so.

The opinion is held by Mr. Eliassser that the county commissioners, upon whom it devolves, will order the 1932 sale to be under the "scavenger" act, which the commissioners would have adopted had it been possible to get the books ready to file. And it is the full intention of the commissioners to adopt that plan for the next year's sale.

The "scavenger" act provides that "all city and county taxes are to be compiled into one place by the county treasurer, which will combine state, county and municipal taxes, interest and advertising included, or before the 1st day of July. The county treasurer shall file with the district clerk of the county in which the lands are located a petition as provided for by this law, and these shall be docketed with the district clerk as a lien in equity and judgment will be then rendered by the court upon the numerous cases as a unit. After the judgment provision is made for a regular sale the first Wednesday in November, at which the county treasurer is authorized to sell to the highest cash bidder such certificates ory municipality under this act."

Relative to the injunction which was brought by the city attorney and others to restrain County Treasurer Eliassser from selling under the Micky act, it is said to be quite certain that County Attorney H. S. McDonald, who has been retained to make a permanent order, thereby relieving Mr. Eliassser from a suit in mandamus. The application for an injunction will be argued before Judge Day.

Barney Kimmerling was held before Judge Estelle to answer to the charge of larceny. The prisoner was taken to jail. It was charged that he entered the room of the Douglas hotel, where he stole some jewelry, including a diamond ring, a watch and a pair of cuff links. Kimmerling was given a thirty days' term in the county jail.

Sportsmen noted Friday night that the first regular "flight" of ducks had begun. The ducks were seen in the city in large numbers. This is a good time for the man with the gun and a number of hunting parties are expected to be formed to take advantage of the annual migration and flocking of the ducks.

SEVERE STORMS IN ITALY

Lightning Strikes the Hunting Lodge of King, Setting it on Fire.

ROME, Oct. 31.—Distressing accounts have been received from the entire peninsula of the effects of extremely tempestuous weather. In the north and south great quantities of rain have fallen, causing floods and accompanied by heavy lightning and high winds. Severe storms at sea are reported, but no lives are known to have been lost.

Denver, Oct. 30.—The storm which began with rain about 6 o'clock last night, changed in the night to snow. It was general over almost the entire state, delaying railroad traffic considerably. In the mountains snow fell heavily. The weather is not very cold, but a cutting wind was the most disagreeable feature of the storm.

LONDON, Oct. 31.—The Morning Post says today that it understands that Japan is by no means prepared to acquiesce in the suggestion that it give Russia a free hand in Manchuria in exchange for a Japanese free hand in Korea. Japan contends, says the Morning Post, that the two questions are entirely separate, that Korean independence already has been secured by convention and that as Manchuria was reserved to China by Japan at the instigation of European powers, it naturally cannot consent to its occupation by Russia.

Even Baron Shibusawa, at a meeting of the Bankers' union, advocated war, although the interest of the bankers is logically in the direction of peace.

Automatic fire kindler, the operation of which is regulated by an ordinary alarm clock, will doubtless appeal to every person whose duties include getting up early to start the fire in the kitchen stove.

With this new contrivance installed in a house it is necessary, upon retiring, simply to assemble the fuel in the stove, connect the clock and set the latter at any required hour. When the alarm sounds a fulminate is ignited, which, communicating with an automatic substance in the stove, range, furnace or grate, immediately starts the fire. By the time the householder or servant is up the fire is burning briskly and the water boiling.

It is claimed that these new devices may be set that they will start fires whenever heated and thus have a home thoroughly heated before the occupants stir from their beds. From the back of the clock used in connection with the automatic fire kindler extends a shaft, on which is mounted a rotary friction disk or pulley, the periphery of which is milled or otherwise designed to create friction when rotated in contact with a relatively stationary member. By the operation of a pivotal arm, a lug and spring and other attachments in connection with the rotary disk this entire external mechanism is set in motion when the alarm is released.

Instantly a fuse, with an easily ignitable fulminate at its end and held in place in a slot opening against the friction wheel, is set off. The flame, properly confined by the metallic bell, instantly ignites the over the inflammable strand, which is saturated with a free-burning ingredient. The clock may be set on a nearby shelf or on the back of the stove or a furnace projection. As even a small and cheap alarm clock may be used and as the tube-encased fire strand may be safely controlled, that part of the problem is very simple. Moreover, any kind of kindling substance ordinarily used may be utilized. The fuse may be employed merely to ignite paper under the regulation kindling wood fire, with coal or cordwood on top. In such cases the action is similar to that of a match, or rather, of several matches lighted simultaneously and burning longer than ordinary matches.—Saturday Evening Post.

FOREIGN COMPANIES OBJECT

Fire Insurance Concerns from Other States Complain Against New Revenue Law.

Foreign fire insurance companies doing business in Nebraska are objecting to dispositive provisions of the new revenue law relating to them, and have intimated that they will carry their contention into court. They claim that they are discriminated against in favor of home companies of the state by the law permitting certain deductions from the gross premium upon which the state companies are taxed, but does not provide likewise for the foreign concerns.

The 1932 assessment of real and personal property by Tax Commissioner Fleming and his twenty-seven deputies has been completed. He did not permit the publication of the names of the land which he supposed to hold the highest amount of personal property per capita in the city. These persons have not sent in their schedules, and the commissioner will proceed to urge the matter next week. The bulk of the work has been done, however, and only about half the assessing force will be used next week. The next two weeks will be consumed getting the assessment rolls in shape for the Board of Review.

THINKS VICTIM LIVES HERE

Resident of Jacksonville, Illinois, Has Insane Man He Believes Came from Omaha.

John G. Reynolds of Jacksonville, Ill., believes he has an insane man from Omaha. He writes the chief of police that a man about 40 years old, 5 feet 3 inches tall and weighing nearly 140 pounds, is being held by him in the House of Detention for the insane at that place. The insane man has glossy black hair, he writes, but fails to explain why he believes he came from Omaha.

STICKNEY MAKES SUGGESTION

Proposes Some Changes in the Schedule of Entertainment of Millers' Delegation.

The Commercial club entertainment committee has received word from President Stickney as to the program here of the Minneapolis millers. He favors the electric cars for a tour of the city, as they are more rapid than the carriages, and favors the making of acquaintances and general conversation. He does not permit the publication of the names of the land which he supposed to hold the highest amount of personal property per capita in the city. The question of why one man succeeds and another fails is a problem that has puzzled philosophers for centuries. One man attains riches and position, while his neighbor who started with seemingly the same, and better opportunities, exists in poverty and obscurity. No man can win success who is suffering from an irritating and nerve racking disease and the man who possesses a quality of success within him would be quick to recognize this fact and seize the best remedy to eradicate the trouble.

A person afflicted with a serious case of hemorrhoids or piles is handicapped in the race for power and advancement. It is impossible to concentrate the mental energies when this dreadful trouble is sapping the vital forces. To show how easily this success destroying trouble can be overcome, we publish the following letter from a prominent Indiana man:

"When I received the former letter and booklet on hemorrhoids, their nature, cause and cure, I was in critical condition. Ulcers inside of the rectum, culminating in a large tumor on the outside, resembling fish tail. I suffered the most excruciating pain, could get no rest day or night. After reading the booklet I sent my druggist, but he happened to be out of the Pyramid Cure, so I ordered a box from my brother-in-law and began their use. Five pyramids completely cured me. I procured a box later, but have had no occasion to use them. I have been waiting to see that the cure was permanent before writing you of its success. I believe Pyramid Cure to be the greatest and best pile cure on the market, and ask you to please accept of my grateful thanks for this invaluable remedy. I take great pleasure in recommending its use to any sufferer along this line. For many years I was afflicted with this disease." J. O. Littell, Arthur, Ind.

You can obtain a free sample of this wonderful remedy, also the booklet described above, by writing your name and address on a postal card and mailing it to the Pyramid Drug Co., Marshall, Mich.
