THINKS WHITES TO BLAME

Indian Bureau Will Request Investigation of Recent Battle with Redskins.

COST OF TRANSPORTING THE MAILS

Second Assistant Postmaster General Makes Report on the Operation of His Office for Last Year, Showing Expenditures.

WASHINGTON, Nov. 4.—The commissioner of Indian affairs today received the following telegram from Indian Agent Treman, who is at Newcastle, Wyo.:

Report of Indian trouble here exaggerated. From best information at hand thirty-five miles north of Lake a fight occurred between officers and some twenty Indians. Indians were squaw, were killed also sheriff and one deputy. About ten Indian families under arrest here, will start them for agency tomorrow. My opinion is mistake was made in precipitating the fight. Would recommend that United States attorney of this district be directed to act on behalf of department, make a thorough investigation. Am assured by attorney of this county that no further trouble will occur.

The Indian office sympathizes with the view that the whites were the aggressors and will recommend to Secretary Hitchcock that he ask the attorney general to have the affair investigated.

Work of Transporting Mails.

W. S. Shallenberger, second assistant postmaster general, today submitted his annual report to the postmaster general. It shows that the annual expenditure for all classes of mail transportation service in this country is \$95,844,542, and that the rate of cost per mile traveled is \$12.89. There are 1,496 lines of traveling postoffice, railroad, steamboat and electric cars, covering 19,229 miles in length, with 10,956 employees. It is estimated that the railway postal clerks handled during the year 12,999,023 pieces of mail matter, exclusive of registered matter, and 1,287,864 errors were reported in the distribution, a ratio of 1 to 11,500 correct distributions.

During the year there were 273 casualties to mail cars, in which eleven clerks and four other employees were killed and seventy-eight clerks seriously and 298 slightly injured.

There were 429,776 pounds of paid second-class matter received from publishers and 2,262,284 pounds carried within the county of publication, free of charge, making an aggregate of 2,732,060.

The department is considering the ques-

tion of improved construction of postal cars.

Owing to the large increase in the postal business congress is asked to provide 350 postal cars.

Statistics of parcels post business showed that this country is not profiting under the old arrangement and the maximum weight limit there was reduced to four pounds six ounces.

This government received postage on 17,174 pouches sent to Germany, while the latter received postage on 402,329 pouches sent here and transported long distances.

Mr. Shallenberger says he is inclined to think that the contract system of purchasing mail equipment should be abandoned and the government manufacture its own equipment.

A deficiency approximately \$400,000 is anticipated in the expenditures for railroad transportation for the current year and \$100,000 in wagon mail service.

Star Route Carriers to Deliver Mail.

The feature of delivering mail into boxes along the lines of star routes will be extended to the entire system of star routes, covering more than 30,000 routes, aggregating over 340,000 miles in length. All the new contracts for star routes service, instead of calling for transportation of mail pouches between postoffices, requires the delivery of mail into the boxes or of private mail bags or to mail cranes along the routes for all persons reading upon or near the routes who choose to erect boxes or cranes and request that their mail be so delivered, and also the carrying of private mail bags from cranes to the postoffice. This contract did not obligate the carrier to thus deliver and collect mail.

The rates paid for the service under the contracts this year average an increase of 75 per cent over last year. Attention is called to a recommendation of the general superintendent of the railway mail service to provide some plan whereby clerks of the railway mail service permanently injured in line of duty or worn out by long and faithful service may retire on annuity. Mr. Shallenberger says that if some feasible plan can be devised for deducting a small percentage from the salary of every employe of the service, thereby creating a fund for the retirement of superannuated and incapacitated clerks, it would result in great benefit to the service.

Election Pleases President.

President Roosevelt is greatly pleased over the general result of yesterday's elections. He is, of course, disappointed at the outcome in Greater New York, although pleased that in the latter state the results show an improvement over what happened four years ago and in New York over last year. The president has sent telegrams of congratulation to Senator Hanna and other

leaders in the campaign, and has received congratulatory messages from Chairman Dick of Ohio, Chairman Penrose of Pennsylvania, and Senator Lodge of Massachusetts over the results in these states.

More Warrants for Beavers.

The supreme court of the District of Columbia has issued six "alias" bench warrants for the arrest of George W. Beavers, formerly chief of the salary and allowance division of the Postoffice Department. The action is based on indictments recently returned against Beavers.

Condition of Education.

The report of the commissioner of education for the last fiscal year places the total number of pupils enrolled in the common schools during the year at 15,925,857, or over 20 per cent of the entire population. The average daily attendance for 1902 was 10,988,272, being 68 per cent of the total number enrolled. This is the largest average attendance in the number enrolled ever reported in the United States.

The school term for the first time in the history of the United States reached 154 days. The average monthly wage of teachers for 1902 was \$48 for males and \$46 for females. Less than 28 per cent of teachers were males, or 12,232 out of a total of 49,286.

The total number enrolled for the year, including public and private elementary, secondary and higher education, was 17,400,000 pupils, and to this there should be an addition made for evening schools, state schools for defectives, orphans and others, 629,380, making a grand total of 18,029,380 in general and special schools.

The average length of time in the north Atlantic states is 134 days, and in the south central division 92 days. In 1900 the average was eighty-two days. The value of the school property of high schools of the United States amounts to nearly \$125,000,000; that of private schools of the same grade amounts to about \$65,000,000. About 270,000 of the private schools are controlled by religious denominations.

The total number of universities, colleges and technological schools is 628, of which 123 admit women; 134 universities and colleges admit only men; the same department, and 330 admit both men and women. Of the forty-three schools of technology twenty-seven institutions report women among their undergraduates.

OUTPUT OF PACKING HOUSES

Considerable Increase is Noted in Marketing of Hogs During Past Week.

CINCINNATI, Nov. 4.—(Special Telegram.)—The Price Current says: There is some increase in the marketing of hogs, although the number is largely short of the liberal movement a year ago. Total western packing was 285,000, compared with 235,000 the preceding week and 425,000 last year. For the eight months, March 1 to November 1, the preliminary returns and estimates point to a total of about 12,900,000 hogs against 12,440,000 year ago. Prominent places compare as follows:

	1902	1903
Chicago	1,795,000	2,348,000
SOUTH OMAHA	1,750,000	1,277,000
Kansas City	1,250,000	1,377,000
St. Louis	800,000	758,000
Milwaukee	650,000	570,000
Indianapolis	500,000	570,000
Cincinnati	450,000	520,000
Ottawa	350,000	275,000
Cedar Rapids	275,000	248,000
Rioux City	275,000	275,000
St. Paul	275,000	275,000
St. Paul	400,000	355,000

MORE ARMENIANS KILLED

Two Delegates to Convention Shot by Man Who Commits Suicide.

BELIEVED TO BE ASSASSIN OF SAGOINI

Police of London Are at Loss to Understand Affair, as They Have Believed Armenians to Be Feasible.

LONDON, Nov. 4.—The dramatic murder of Sagoini, president of the Armenian Revolutionary society in London, on the night of October 24, was followed this afternoon by the assassination of two more delegates to the Armenian convention here.

The suicide of the assassin, though he has not yet been identified, gives good reason to believe that he also was the slayer of Sagoini.

The murders were carried out in the most daring manner, more so than was the murder of Sagoini. They took place in the headquarters at Peckham Rye. The two victims were shot down from behind at close range. The murderer fired twice at a third member of the group, but missed him, and then attempted to flee. Seeing that his escape was cut off, he drew another revolver and shot himself with his left hand. It is considered a significant fact that the assassin of Sagoini was also left-handed.

The names of the murdered Armenians were Agram Gregarian and Sigran Zmician. Their companion, who escaped assassination, was Rouben Ghribilian. It is believed that the identity of the assassin may remain unsolved unless he has been previously in the hands of the police, when the

scars on his face may render identification easy.

A member of the Armenian revolutionary committee and tonight to the Associated Press correspondent: "The murderer is undoubtedly an Armenian, but he is not one of our people. He looks like a man from the interior districts."

More Peculiar Clothing.

The costume of the assassin was of a curious mixture. A new light overcoat and a new black derby hat gave him a respectable exterior, but his serge suit was extremely ragged and his shoes were much worn. His shirt was shabby, while his underclothes were new and of fine quality. In his pocket he carried a cloth cap, apparently, that is said to have been bought by the slayer of Sagoini on the night of the latter's assassination. It was much too large and its size had been reduced by several rough stitches. It is evident that the cape had been to discard his overcoat and the derby hat and to wear the cap, which would have given him the appearance of a disreputable street loafer, but, his escape being cut off, he determined to commit suicide rather than to submit to capture.

This series of crimes in a hitherto quiet suburb has brought terror to the Armenians, who fear to leave their headquarters except under police protection. The police, while believing that the murderer of Sagoini and the man who killed the Armenians today are identical, fear a continuation of the murderous vendetta owing to the apparent ease with which the assassin escaped them after the killing of Sagoini. It indicates, they say, that the murderer was harbored and given another set of clothing by accomplices.

A prominent police officer said tonight: "We are utterly in the dark regarding this case. Heretofore we have looked upon the Armenians as an inoffensive class and have not coupled them with nihilists or anarchists, with whom we are well ac-

quainted. There is not a man in Scotland

Yard who is at all familiar with the Armenians in London. We don't know where to begin in the work of unravelling these well arranged and successfully carried out killings."

Would Deport Krikorian.

BOSTON, Nov. 4.—Vahtran Krikorian, who was arrested on his arrival here from England, as a suspect in connection with the murder of Sagoini in London, and who having been released on account of a lack of evidence, was ordered deported by the immigration authorities on the ground that he was likely to become a public charge, has appealed to the authorities at Washington. Krikorian is now in the custody of the Cunard steamship company and was scheduled to be taken back to England on next Saturday's steamer. Friends of the Armenian will furnish guarantee against the latter's becoming a public charge.

RUSSIA TO ASSUME CONTROL

Failure of China to Dismiss Officer May Cause It to Lose Manchuria.

TOKYO, Nov. 4.—Reports say Russia now threatens to assume sole charge of the government of Manchuria unless China promptly dismisses Yuen, the taotai of Mukden and decapitates another mandarin who recently punished disorderly Chinese bandits in Russian employ.

This, together with the confirmation of the reports of the reoccupation of Mukden by the Russians and the seizure of Governor Tsang, causes intense feeling here.

Agitates Dreyfus Case.

PARIS, Nov. 4.—The Presse today says that War Minister Andre as a result of the inquiry which he has made into the Dreyfus affair has informed the cabinet that in his opinion the sentence of the Rennes

court-martial should be revoked. The war

minister is also said to have asked for the views of his colleagues on the subject, but they were unable to come to an agreement.

MORE TROUBLE FOR MINISTRY

Workingmen of France Protest Against Laws and Denounce Socialist Leader.

PARIS, Nov. 4.—The difficulties of the ministry have been further increased by a number of workingmen's meetings held to protest against the vote in the Chamber of Deputies continuing the municipal employment agencies, at which a general strike was threatened and which broke up with cries against Premier Combes and M. Jaures, the socialist leader.

Work Resumed in Spanish Mines.

BILBAO, Spain, Nov. 4.—Work was resumed today in the coal mining districts.

SIXTEEN MEN ARE KILLED

Government Powder Magazine on Iona Island in Hudson River Explodes.

PEEKSKILL, N. Y., Nov. 4.—Sixteen men are reported dead and a number wounded as a result of a series of explosions today on Iona Island, in the Hudson, used by the government as a store house for dynamite and powder.

The first explosion occurred shortly before 1 o'clock and was followed by others for more than an hour, the detonations being heard in this city at 12:30.

A telephone call was sent here for every physician available and all who could be found responded to the call. Beyond the fact that sixteen men were dead and many wounded no details of the disaster were obtainable at 2:30.

Married Women

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.

The Bradford Regulator Co., Atlanta, Ga.

Mother's Friend

"No More Aches and Pains."

No. 208 Perdido Street, NEW ORLEANS, LA., March 27, 1903.

For over nine years I had been troubled with leucorrhoea. The discharge was yellowish at times but after the menstrual period it would become reddish, acrid and excoriating. This exhausted my system. I was continually tired while my appetite was poor, my digestion very bad and my sleep fitful and feverish.

Wine of Cardui was the one remedy which helped me in my distress. I soon found that it relieved the pain and imbued me with new strength and after the use of 25 bottles was well. No more discharge. No more aches and pains and oh, what relief, only those who have had my experience can appreciate the value of such a fine medicine as Wine of Cardui.

Ann D. Moore
VICE-PRESIDENT, UNITED DAUGHTERS' INDUSTRIAL CLUB.

WINE of CARDUI

Does not this letter convince the most skeptical sufferer that Wine of Cardui will bring her health?—It is difficult to imagine a case where there are more discouraging features than this before Mrs. Moore began taking Wine of Cardui. Leucorrhoea is an inflammation of the vagina. It is really decay in the vital organs of womanhood. This inflammation often drives women into the direst stages of nervous excitement. At the menstrual period the continual itching is accompanied by the utmost agony. The life of the woman who lets this trouble run on as Mrs. Moore did is one of misery. But Mrs. Moore did not know what medicine to take to cure it. When she had Wine of Cardui brought to her attention she took it and continued the treatment until she was cured. The case was a chronic one and it took persistent effort to bring a permanent cure. This cure can be secured by any woman who takes Wine of Cardui. Mrs. Moore tried everything else and continued to suffer. She tried Wine of Cardui and was cured. You can treat your case successfully in your own home and nobody need know anything about it. Secure a \$1.00 bottle of Wine of Cardui today and begin the treatment.

Ms Anna D. Moore.
