

COMING CLEAN-UP IN PANAMA

Will Be the Greatest Single Sanitary Task Ever Undertaken.

CAUSE OF DISEASE ON THE ISTHMUS

American Doctors and Engineers Booked for a Job Surpassing Havana and Santiago—Character of the Work.

(Copyright, 1904, by William Thorp.) Three medical experts connected with the United States army and navy have gone to Panama to make the preliminary arrangements for the cleaning up of the isthmus...

The isthmus of Panama is one of the worst territories in the world, if not the very worst, from a sanitary point of view, and its record of disease and death for centuries past has been appalling.

Conditions Inland. So much for the cities, but the unhealthiness of the isthmus is by no means due to their foul condition alone.

A Marvelous Atmosphere. The hills grow and grow, but maintain a rounded aspect, which is characteristic of most of the mountain scenery in the southern part of the state.

Terrible Mortality. The terrible mortality in the labor camps of the French Canal company was largely due to the fact that many of them were pitched in the worst parts of the low-lying "malarial belt."

Unsanitary Work. The city of Panama and the town of Colon, the terminus of the canal, are just about as unsanitary as any town could be.

Heat and Rain. Practically speaking, the streets of Panama and Colon are only cleaned by the torrential storms of the rainy season.

NEAR APPROACH DISPELS THE ILLUSION

Strange Freak Due to Atmospheric Condition—Material for the Myth-makers on the Boundless Plains.

The wild and woolly west has yielded many a thrilling romance to the literature of the period, yet it is a field as yet but partially explored for romance, myth or reality.

It is nothing more than an enormous circle lined upon the gently sloping side of a low mountain, one of a modest range, creeping north and south across the Colorado-Wyoming line.

Doctors Say Drink More Schlitz

The body requires ten glasses of fluid per day. Most people drink too little to flush the body of its waste. The result is bad blood, nervousness, disease.

Then the doctor says "Drink More;" and he knows this advice to be worth more than medicine.

That's one reason why pure beer is good for you. It leads you to drink more. And the beer is also a food and a tonic.

Schlitz beer is brewed in absolute cleanliness and cooled in filtered air. It is aged for months so it will not cause biliousness.

That's why doctors say "Schlitz." Ask for the Brewery Bottling.
