LONDON, Get. 9.-Special dispatches to the London newspapers describe the desperate state of affairs at Moscow Saturday and Sunday. Returns received by the government tonight indicate that all the provincial boards will be composed of moderates and followers of General Nunez, with the exception of the provinces of Santiago and Pinar del Rio, in which it is probable the liberals will be represented on the boards by minorities. Each board will be composed of seven members. The province of Havana elected ten moderates and eight Nunez delegates.

General Freye Andrea, secretary of the interior, tonight informed the Associated Press of his intention to resign from the Cabinet and become a candidate for Congress from the province of Matansas. He predicted safe majorities in both branches of Congress, namely 15 to 9 in the Senate 40 to 20 in the House, counting several Nunez men in the latter majority. He asserted that none of the retiring liberals would be succeeded by a liberal.

President Said to Have Eye on Vacant Chairmanships.

of the body of Major General Kondratenko, THIRTY OR MORE TO BE FILLED

Preliminary Maneuvering for Posttions in Struggle Over Railroad Rate Regulation and Other Measures.

(From a Staff Correspondent.) WASHINGTON, Oct. 8 .- (Special.) -- Chairmanships of at least thirty senate committees, regular and select, will be changed when the Fifty-ninth congress meets in December. Already many of the members of the upper branch of congress have been casting about to ascertain what other members desire in the way of committee chairmanships, so that they may take advantage of the knowledge thus gained for their own personal use. These inquiries. so far in advance of the meeting of congress, have had a tendency to focus the spotlight on the reorganization of the senate committee, for it is generally conceded that in the upper body will come the supreme fight for many of the principles for which the president irrevocably

stands. As to these inquiries regarding chairmanships, and chief committee places, the president, it is understood, has had full knowledge and appreciating that there is a strong minority in the senate against many of the questions he will discuss in his forthcoming message, he has, as quietly as the senators, been looking after chairmanships with a view to helping his side when the battle royal is on. One thing seems certain when the curtain rolls up on the Fifty-ninth congress, that President Roosevelt will know where his friends are. and by the same reasoning will know where to put his finger on his opponents.

Chairmanships to Be Filled. The fact that the president has already ommenced to inquire from his senatorial visitors as to the makeup of committees in the upper body has directed the attention to the large number of chairmanships to be filled, larger than in any previous congress since the last Cleveland adminis

Roosevelt Fears Senate. No man appreciates the divisional line etween the executive and legislative branches of the government better than does President Roosevelt.
