Arrangements About Completed for Holding the County Primaries.

CHANGES IN THE BOOTHS ARE MADE

City Clerk Will Give Explicit Directions to Election Officers to Have Returns Delivered to Him.

Arrangements have about been completed for the holding of primaries and the first day's registration on Tuesday, September 19. It was necessary for City Clerk Gillin to make a couple of changes in the registration booths and primary voting places but these are now arranged for. The thirty-six members of the board of registration and the two dozen clerks have qualified and should there be any vacancies on Tuesday morning the places will be filled by substitutes. Primaries will be open from 8 a. m. until 5 p. m.

While County Clerk Drexel intends having the returns of the primaries sent to his office in Omaha, Clerk Gillin will ask that the boxes be delivered at his office here as soon as the count is completed Tuesday night along with a copy of the votes given each name on the primary ticket. The boxes will be taken to Omaha Wednesday forenoon.

The city clerk is to give explicit directions to the election officers to see that the returns from each precinct be delivered to him along with the ballot boxes.

Voting and registration places are as follows:

First Ward—First precinct, Twentieth and Missouri streets; Second precinct, Twentieth and J. streets; Third precinct, Twentieth and K. streets; Fourth precinct, Twentieth and L. streets.

Second Ward—First precinct, Twenty-first and Railroad avenues; Second precinct, Twenty-first and U. streets; Third precinct, Twenty-first and V. streets; Fourth precinct, Twenty-first and W. streets.

Third Ward—First precinct, Twenty-third and Railroad avenues; Second precinct, Twenty-third and X. streets; Third precinct, Twenty-third and Y. streets; Fourth precinct, Twenty-third and Z. streets.

Fourth Ward—First precinct, Twenty-fifth and Railroad avenues; Second precinct, Twenty-fifth and AA. streets; Third precinct, Twenty-fifth and AB. streets; Fourth precinct, Twenty-fifth and AC. streets.

Mayor Koutsky said Saturday afternoon that the streets of South Omaha were never in worse condition than at present.

"In some localities," said the mayor, "it is impossible to get around, even with a light buggy. Washouts are being reported from all sections of the city, but nothing can be done towards making repairs until the mud dries up a little."

Missouri avenue, near Fifteenth street, is practically impassable and the other big washout at Twenty-first and Missouri avenue, Thirteenth street for several blocks north of Missouri avenue is almost impassable, and little attempt is made to travel this street south of the avenue. This road to the city dumping ground, on Twelfth street, is washed away and it may be ten days before the hauling of garbage can be resumed. The heavy rains have not improved the condition of Twenty-fourth street any, but the other paved streets have not been damaged to any extent. During the week the electric lights, both street and incandescent, have been out of service about as many hours as they have been in working order. But the man with the real bundle of trouble is Jim Carter, manager of the Nebraska Telephone Company. He has had so much grief during the past two weeks that he could not look pleasant if he tried. Friday night's storm just did a lot of unkind things to the telephone company's wires. A large force of men worked Saturday to get telephones in working order again, with the result that nearly all the lines were cleared before dark. Every effort is to be made now by the telephone company to hasten the laying of conduits so as to get as many wires under ground as possible before another batch of severe storms comes this way.

Paving Histories Sent East.

City Clerk Gillin has sent the histories of the Twenty-fourth street paving bonds to W. J. Hayes & Sons, bankers of Cleveland, Ohio. The report is made by the city clerk which these bankers assert that they will do their utmost to have their bond attorneys pass on the legality of the issue as soon as possible. It is hardly expected that a reply will be received before the middle of October. Then some little time will be taken in preparing the bonds and the signing of the same by the mayor and clerk. There is hope, however, that the

What Sulphur Does

For the Human Body in Health and Disease.

The mention of sulphur will recall to many of us the early days, when our mothers and grandmothers gave us our daily dose of sulphur and molasses every spring and fall.

It was the universal spring and fall "blood" tonic and cathartic, which cleared the mind you, this old-fashioned remedy was not without merit.

The idea was good, but the remedy was crude and unpalatable, and a large quantity had to be taken to get any effect.

Nowadays we get the best of the effects of sulphur in a palatable, concentrated form, so that a single grain is far more effective than a tablespoonful of the crude sulphur.

In recent years research and experiment have proven that the best sulphur for medicinal use is that obtained from Calcium (Calcium Sulphide), and sold in drug stores under the name of Stuart's Calcium Wafers. They are small, chocolate-coated pellets, which act as a cathartic, in accordance with the principle of sulphur in a highly concentrated, effective form.

Few people are aware of the value of this form of sulphur in restoring and maintaining bodily vigor and health; sulphur acts directly on the liver, the secretory organs and purifies and enriches the blood by the prompt elimination of waste material.

Our grandmothers knew this when they dozed us with sulphur and molasses every spring and fall, but the crudity and impurity of ordinary flowers of sulphur were often worse than the disease and cannot compare with the modern concentrated preparations of sulphur, of which Stuart's Calcium Wafers is undoubtedly the best and most widely used.

They are the natural antidote for liver and kidney troubles and cure constipation and purify the blood in a way that often surprises patient and physician alike.

Dr. R. M. Watkins, while experimenting with sulphur remedies, soon found that the sulphur from Calcium was superior to any other form. He says: "For liver, kidney and blood troubles, especially when resulting from constipation or malaria, I have seen superior results obtained from Stuart's Calcium Wafers in patients suffering from boils and pimples and even deep-seated carbuncles. I have repeatedly seen them dry up and disappear in four or five days, leaving the skin clear and smooth. Although Stuart's Calcium Wafers is a proprietary article, and sold by druggists, and for that reason taboed by many physicians, yet I know of nothing so safe and reliable for constipation, liver and kidney troubles, and especially in all forms of skin disease, as this remedy."

At any rate, people who are tired of pills, cathartics and so-called blood "purifiers" will find in Stuart's Calcium Wafers a far safer, more palatable and effective preparation.

money will be available before November 1. The understanding seems to be that Parks, Johnson & Parks, the contractors who are doing the paving, will commence work just as soon as Hayes & Sons notify the city officials that the bonds will be accepted. It is hoped that one side of the street can be paved this winter.

Missouri Avenue People Indignant.

Residents on Missouri avenue and in the territory immediately adjacent are saying all kinds of things about the mayor, city council and McGowan the curbing contractor. As soon as the money for the paving of Missouri avenue was received Hugh Murphy who has the contract for paving was notified by McGowan who has the contract for the curbing. Mr. Murphy replied to his notice by saying that he was ready to start the paving just as soon as the curbing was completed. McGowan, however, so much as answered the notice sent him, hence the complaint of indignation about the delay in starting this work. It was stated on the streets yesterday that on Monday night a committee of citizens would request the council to take the curbing contract from McGowan and let it to some one who would at least make a start. What makes the people sore is the fact that the money is available for the improvements and that so far all efforts to get McGowan to start the curbing have failed. More than likely McGowan will be notified next week to make a start or else the contract for curbing will be taken from him.

Stealing Car Doors.

The police are having a great deal of trouble with thieves who steal the inner doors of grain cars. Since the Uptide elevator started in business here a large number of cars of grain arrive daily. As fast as unloaded the cars are set on side tracks. Thieves steal the inner doors from the inner doors of the grain cars and cause delay in getting the cars out again. These inner doors are broken up and carried away and used by the thieves for various purposes. Even though a watch has been kept for several nights the police have not been able to lay hands on the right party.

Missionary Society Meeting.

Arrangements are being made for the holding of the twenty-ninth annual meeting of the Woman's Synodical Missionary Society of Nebraska of the Presbyterian churches at the First Presbyterian church here on September 27. The question of the wisdom of creating a new Presbyterian office to have charge of Sabbath school missionary work will be up for consideration. A program to cover the three days' session has been completed. Dr. Gray W. Wadsworth, president of Bellevue college is to preside. Addresses will be delivered by a number of well known missionary workers. Next Sunday the completed program will most likely be published.

Panchoat for Police Judge.

Mr. C. Panchoat was the young attorney chosen by the reform board of Education as its attorney. He was largely instrumental in driving out the old curbing that used to control the affairs of the school district. His record in that office justifies the confidence that the people of this community have in him. Among certain republicans the word has been passed along to center on Panchoat next Tuesday. Owing to the number of candidates in the race, the center of the vote.

Horribly Burned.

W. C. Rivenbark of Norfolk, Va., but back of the year has been a case of absolute type, there is to be a clamor for the abolition of the starting crank. The lack door has gone. The crank must go. For some time the multi-cylinder cars have been so far from the seat. If the engine has started then it has been stopped too long. This is due to the engine stopping. The possibility of doing this depends upon the nature of the perfectly fitting valves. In particular, the French cars were first to show this development, but some of the American makes are now often started from the seat. After a short time it cannot be done, but with some of the French makes it is possible after the motor has been running for hours.

W. P. Duncan has returned from his fishing trip with a brand new fish story. He says he caught it up near the mouth of the Missouri river, and it weighed some time he caught a catfish weighing thirteen pounds. On returning home with a large quantity of fish he got caught in a sandbar and had to wait for the rain which might raise the water and let him off, and then came home in the clearing of the shower.

FOUL CRIME NEAR NEW YORK

Body of Unidentified Young Woman Who Had Been Assaulted and Murdered Found in Bronx.

NEW YORK, Sept. 16.—The finding today of the body of a handsome young woman, about 25 years of age, lying bruised and battered in a clump of birch bushes near the Pelham road in the Bronx, revealed one of the worst crimes with which the police have had to deal in many years. An autopsy tonight showed that the woman had been brutally assaulted and choked to death. There was every indication that she had fought her assailants desperately. Her garments were torn almost to shreds. Tonight the body rests in the Fordham morgue, while half a hundred detectives are endeavoring to establish the victim's identity and to find some clue to the murderers.

At the autopsy physicians were of the opinion that the woman had been dead about twelve hours. Evidence points to the fact that at least two men were implicated in the crime. That the woman was robbed is not doubted, for nothing of value was left on her person, while her fingers show that rings which must have been worn were torn from them.

The girl was five feet two inches in height, of fair complexion, with brown hair and blue eyes.

An empty dress suit case was found near the scene of the crime, but neither on this nor any article of clothing was there the slightest means of identification.

WOMAN HELD UP IN HER OWN HOME. Robber Compels Her to Show Where Money is Concealed.

Mrs. Smock was held up and robbed by a masked bandit last night at her home, 3129 Avenue B, Council Bluffs. Mrs. Smock was in the kitchen, the outer door of which was open, but the screen latched. The bandit broke the screen door open and forced Mrs. Smock into the dining room adjoining the kitchen, where he compelled her to show where she had placed a pocket book containing \$14 in the drawer of the dresser. After securing the money the bandit pushed Mrs. Smock down on the lounge and threatened at the point of a pistol to blow her head off if she made any outcry. He then backed out of the kitchen door and disappeared. No clue has yet been obtained to the identity of the bandit whom Mrs. Smock describes to have been a man about six feet in height.

THE LAST OPPORTUNITY

THIS IS POSITIVELY THE LAST OPPORTUNITY TO TAKE ADVANTAGE OF DR. BRANAMAN'S FAMOUS FREE OFFER.

Every patient beginning a course of treatment during September with Dr. Branaman will be given one month's medicine absolutely free. This offer is not given as a test or trial treatment. Dr. Branaman opened his office in Omaha here during the month of September, and he has given every patient a course of treatment absolutely free as a test. Now he gives a month's medicine and treatment free to prove his skill in curing.

This does not mean that you will get the rest of September free, but if you begin a course of treatment any time during the month of September, even on the last day, you get one month free. The price of treatment is \$5.00 per month.

BEFORE and AFTER. ELECTRICITY Cures deafness and restores hearing. It relieves all permanent deafness by applying it to the ears. A mild current is passed through the ears, reducing all inflammation, relieving all shrunken and thickened conditions of the ear drums. It also acts as a great nerve tonic, restoring and reviving every nerve fiber to a healthy condition.

If you suffer from Deafness, Asthma, Bronchial Catarrh, Stomach, Kidney, or any other Nervous Weakness you should consult Dr. Branaman at once.

BRONCHIAL ASTHMA. Tom Wright says he has suffered for about ten years with coughing, constant wheezing and rattling in his chest, and could not get any relief. He says he has tried all the remedies he could get, but nothing helped. Finally he got so bad he could not work. Doctors told me Asthma could not be cured. I had to sit up all night; the only relief I got was from smoking an asthma powder, which only gave temporary relief. I had lost flesh and strength. I went to Dr. Branaman a physical wreck and in a few days I was a new man. I breathe free and easy. I sleep like a child all night. I do not cough or have any rattling or wheezing. How is that for a cure? I can hear the watch tick easily.

WAS DEAF 25 YEARS. Mr. G. R. Garrison, Reynolds, has been deaf for twenty-five years. My ear drums were totally destroyed. All specialists told me I could not be cured. My ears seemed stopped up. Your treatment has opened my ears, stopped all noises, and I hear my wife's watch tick. I am sure of a cure for deafness. I think it is remarkable that you should cure me and never see me.
