

**LONG CROSS-COUNTRY FLIGHT**

Louis Paulhan Makes Trip to Baldwin Ranch and Return.

**DISTANCE FORTY-FIVE MILES**

Crowd Breaks Through Barriers on His Return to Grandstand—All Previous Records Broken.

LOS ANGELES, Jan. 19.—Louis Paulhan, in his Farman biplane, made Tuesday what aviation experts consider the most remarkable cross-country flight in history. On the wings of a wind that other aviators hesitated long to face, the little Frenchman rode from Aviation field to "Lucky" Baldwin's ranch, twenty-three miles away, circled the old Santa Anita race track and bucked his way back to his tent.

In all he covered an estimated distance of forty-seven and one-half miles in one hour two minutes and forty-two and four-fifths seconds. He went down with the wind in thirty minutes and came back against it in thirty-five minutes. When he climbed out of his car he said that his motor was as cool as when he started and that he could do the trip over again at once.

In sheer beauty and contempt of danger the flight rivals that seen on any aviation field of the old world. The only test approaching it in this country was that made by one of the Wrights last fall, on a flight with an army officer from Washington to Alexandria.

Dierlot, Latham, Farman and Cody have made flights nearly as long, perhaps, but they have not come back. Cody flew forty miles at Alderhot in sixty-three minutes last fall. Farman took a twenty-mile run to spend a day shooting with a friend, but he landed at one end of his journey.

President Cortlandt F. Bishop of the Aero club of America said tonight that he did not know of any flight equal to Paulhan's. It is probable that the prize of \$10,000 will go to him. There will much official pondering and cabling however, before a new world's record is added to the glory of France.

Paulhan maintained an altitude of from 1,000 to 2,000 feet on his way over the valley. His highest point was 1,200 feet, as indicated by the instrument in his car. Under him, speeding over country roads, were automobiles and men on horseback and motorcycles, trying to be near the machine should Paulhan fall or have to descend. Mrs. Paulhan was in an automobile praying and crying.

When Paulhan reached the grandstand on his return he was mobbed. The crowd broke through the barriers. The aviator was lifted up and borne over the field. His countrymen kissed him and wept in joy. This event was the only one of great importance in the day's meet. Curtiss did not go into the air until after Paulhan had been away for half an hour. Then he gave a pretty exhibition of fancy starting and retired.

**Upper Currents Steadier.**  
The wind came up suddenly, and for a time it looked as though the program would be spoiled. At 3 o'clock nothing had happened except a few starts over the field, the crowd began to howl. Paulhan rose to the occasion. Without any announcement his machine appeared on the far west course, beating against the wind. It came around and over the heads of the crowd with the wind at a speed of sixty miles an hour. Paulhan came down as though he had headed against another flying, but before the crowd had time to forget their first wonder, he came over their heads again and pointed the flat nose of his big white plane toward the mountains. It was 7:00 o'clock.

"He's off for the cross-country record of the world," announced the megaphone man. For ten minutes the machine flew onward and upward, straight toward the snowflakes of the Sierra Madre range. Old Baldy peak was the compass point. It lay in shining white relief against the sky. Through the glasses Paulhan could be seen rising above the haze and taking a trail, so it seemed.

to the summit. Soon he disappeared from sight.

Bulletins were sent out and posted on a blackboard as the machine passed over small towns in the west to the Baldwin ranch track. At 4 o'clock there was a great shout. Someone had seen the airship. Soon it came into sight, blown from its outward course and on a line with Mount Wilson. The machine loomed up more and more distinctly and even the experts watching the timing were surprised at the speed with which it returned. Mr. Bishop figured that it would take Paulhan twice as long to come back against the wind as it had to go with it, but the aviator had struck a milder current in the higher altitude and was coming home on this.

Soon he was over the field and setting gently. The rush began. The Frenchman stopped stiffly out of the saddle and asked for a clear. "I will go twice as far some day," he promised.

**Nebraska for Training Table**

Action of Board of Control at Lincoln Will Result in Retention of This Feature.

LINCOLN, Jan. 19.—(Special)—Four out of five important measures passed by the Missouri Valley conference at its last meeting in Des Moines in December met with the disapproval of the Nebraska Board of Control and they will be protested by the Cornhusker representative to the next meeting of the "Big Seven." The four measures on which the Nebraska board opposes the action of the conference are: The abolition of the foot ball training table; placing foot ball scouting under disapprobation, but not prohibiting it; discharging the hammer throw in field events, and adopting the second semester eligibility rule. At its meeting on Monday night the Cornhusker board instructed its representative to protest each of these four rules.

By declaring for the foot ball table, the Nebraska board will prevent the abolition of that institution from Missouri Valley foot ball. At the recent meeting Missouri and Nebraska voted against a motion to do away with the table, and had the Kansas representative been present he would have voted with these two schools, giving enough votes to defeat the measure. As it was, the motion carried, making it necessary for one school to protest the action of the conference within sixty days so as to bring the matter up for another vote. When the question comes before the next meeting Nebraska, Kansas and Missouri will vote to retain the table, and their votes will be enough to bring about that result.

**Government Files**

Brief in Anthracite Coal Trust Case

Taking Evidence in Injunction Suit Against Fuel Combine Occupies Three Years.

PHILADELPHIA, Jan. 19.—The government's brief in its suit to break up the alleged anthracite coal trust was filed in the United States circuit court today by William S. Gregg, special assistant to the attorney general.

The suit was brought in April, 1907. The nearly three years that have intervened since the action was brought were taken up with the examination of witnesses for both sides.

The principle defendants are the Reading company, Philadelphia and Reading Coal and Iron company, Lehigh Valley Railroad company, Delaware, Lackawanna & Western Railroad company, Central Railroad of New Jersey, Erie Railroad company, New York, Susquehanna & Western Railroad company, Lehigh Valley Coal company, Lehigh and Wilkes-Barre coal company, Pennsylvania Coal company, Hillside Coal and Iron Commercial company, New York, Susquehanna & Western Coal company and Temple Iron company.

The government contends that all the defendants have long been parties to a general combination and conspiracy which stifles competition and obstructs trade and commerce among the states in anthracite coal and that they have accomplished the monopoly and to further enjoin the defendants from carrying out the contract with the so-called independent companies by which the latter turn over their product to the larger companies for 65 per cent of the tidewater-selling price.

The defendants have twenty days to file their briefs, which will be heard February 2.

**Liquor Men Praise Whisky Decision**

President of League in Report Says Storm of Prohibition Has Spent Its Force.

WASHINGTON, Jan. 19.—Praise for President Taft's recent decision on "what is whisky" was sung today by Timothy L. McDonough, president of the National Liquor League, in his report to the organization now in national session.

Mr. McDonough declared the president had "given the prohibitionists a vital blow by his decision." He asserted that the "storm of prohibition which has swept the country for the last two years has spent its force," and that the trade will come out of the conflict purged of all "disreputable saloons that have brought so much disgrace upon all of us and in the future we will have a better standing with the public."

R. J. Halle of Chicago, secretary of the league, in his annual report referred to the "direful results of the abolition of the army canteen," and scored General Frederick D. Grant for having complained because of the removal of the canteen and then having "headed a parade instigated and composed of these very same people whose intimidation has wrought such havoc on the defenders of the country."

He denounced the bill now before congress relative to the sale of liquor to Indians as "a retrograde step in the march of civilization." He said the bill would create a prohibition territory of more than 240,000 square miles and would include such large cities as Spokane, Seattle and Sioux City.

**BANKS MUST PAY TAX ON INTEREST ON BONDS**

Attorney General Makes a Ruling Regarding Reports of Incomes of Corporations.

WASHINGTON, Jan. 19.—Financial institutions will be required to take into account the interest on United States bonds owned by them in making returns to the commissioner of internal revenue under the law imposing a tax of 1 per cent on the net income of corporations.

An opinion to this effect has been rendered by Attorney General Wickersham for Secretary of the Treasury MacVeagh. It has been eagerly awaited by national banks and other financial institutions throughout the country.

The total amount of interest-bearing debt of the United States, represented by issues of bonds outstanding December 31 last, was \$912,217,400. More than \$700,000,000 of these securities are deposited by National banks with the treasury to secure circulation and public moneys deposited with them.

**PORK CHOPS ARE LOWER**

Strike Against Meat Price at Cleveland Affects Notice of Packers.

CLEVELAND, Jan. 19.—On the evening of the third day of 10,000 workmen's strike against meat eating, announcement was made tonight by the packing houses which practically control local meat prices of a reduction of 1 cent a pound in the price of pork loins, the commodity which has suffered most from the strike. No change is quoted in the price of live hogs at the stock yards. The Retail Butchers' association meeting to devise ways of fighting the strike, declared before this announcement that the price of meat must rise.

**Tarkie Defeats Amity College.**

ST. LOUIS, Jan. 19.—(Special)—The local basketball was a hot one at St. Louis last night. Tarkie college defeated its most ancient rival, Amity college of College Springs, Ia., by the score of 46 to 19. It was a very hard game. The score at the end of the first half was 21 to 1. Tarkie used three substitutes in the last half of the game.

**S. S. CURE THE SYSTEM OF CATARRH**

Catarrh comes as a result of impurities and morbid matter in the circulation, and is a disease that only attacks mucous membrane. The entire inner portion of the body is lined with a delicate skin or covering of soft, sensitive flesh. Thousands of tiny blood vessels are interlaced throughout this mucous surface, and it is through these that the inner membrane receives its nourishment and is kept in healthful condition. When, however, the blood becomes infected with catarrhal impurities the tissues become diseased and Catarrh gets a foothold in the system. The early stages of Catarrh are characterized by such symptoms as a tight, stuffy feeling in the head, watery eyes, buzzing noises in the ears, with partial deafness and often difficult breathing and chronic hoarseness. These are merely symptoms, and while sprays, inhalations and other local treatment may temporarily relieve them, Catarrh cannot be cured until the blood is purified of the exciting cause. S. S. C. cures Catarrh by cleansing the blood of all impure catarrhal matter. It goes down into the circulation and attacks the disease at its head, and removes every particle of the catarrhal impurity. Then the mucous linings are all supplied with fresh, pure blood, and allowed to heal, instead of being kept in a constant state of irritation by the catarrhal matter. Special Co. on Catarrh and any medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

PA Rourke has added to his pitching staff for the coming year by the purchase of Blaine (Danny Dreamer) Durbin, the southpaw who was recently sold by the Chicago Cubs to Pittsburgh. Pa says he realized there is to be a hot fight in the Western League and he is going to be prepared for it.

**KANE MAY LOSE AN EYE**

Omaha's First Baseman Likely to Be Put Out of Game for Good.

PITTSBURG, Pa., Jan. 19.—(Special Telegram)—Jim Kane, former first baseman of the Omaha club, who played last year for Bill Rourke's Western league team, probably will lose the sight of his right eye as a result of an accident last night while he was playing basketball ball in which he is an expert. Kane had posed for a shot at the basket when the captain of the opposing team, in endeavoring to intercept his shot, struck Kane squarely in Kane's eye. The accident happened at Uniontown, but Kane was brought here for treatment. He is at the Eye and Ear hospital, but the surgeons hold out very little hope of saving the sight of the eye. Should their prediction be correct, Kane's base ball days are over.

**UNIVERSITY WILL ADOPT CHICAGO PLAN OF ATHLETIC ORGANIZATION.**

IOWA CITY, Ia., Jan. 19.—(Special)—At a secret session of the finance committee of the board of education yesterday the board in control of athletics, prominent athletes and alumni of the University of Iowa threshold the local athletic situation. As a result Prof. A. G. Smith, chairman of the board, will appoint this week a committee to secure the adoption of athletics, thus adopting a system such as is now in vogue at the University of Chicago and the University of Wisconsin. The committee had the resignation of Director Hutchins was accepted.

Through the committee were silent, it is known that the delicate subject of student representation by student councils and athletic associations was thoroughly gone over. It is reported that the agitation favoring some form of student representation was discouraged for the present at least.

The "star chamber" session, which lasted for three hours, and which was attended by President George E. MacLean and Dean W. C. Wilcox of the college of liberal arts, besides Chairman W. R. Wood and Thomas Thomas of the finance committee, marks a significant step in the athletic reform under way in the University of Iowa. It showed definitely the importance given the recent agitation by the administration.

**OMAHA DOGS GET RIBBONS**

Pets of Harvey Challa, Mrs. S. B. Stewart and W. T. Hood Win. Omaha dog owners won substantial prizes at the bench show at Sioux City. Italian greyhound owned by Harvey Challa was given the blue ribbon, Mrs. S. B. Stewart, with her two Airdales, Mrs. S. B. Stewart, and also a cup for having the best sporting dog in the show. W. T. Hood, secretary of the Nebraska Kennel club, was superintendent of the Sioux City show. Mr. Hood presented three red ribbons with his collies. The entry list at Sioux City was about half that of the Omaha show.

**The Review of Reviews**  
is the magazine which is pre-eminent up-to-the-minute as regards the topics of the day. Non-partisan in its attitude, international in its scope and judicially impartial in its findings, it is not only the busy man's short-cut to keeping abreast of the times, but the one "necessary" magazine for people of culture and discernment. Each month Dr. Albert Shaw interprets current events with a clarity and accuracy that are born of a keen insight and a rare knowledge of men and affairs, in his profusely illustrated editorial, "The Progress of the World." "The Review of Reviews" character sketches of notable people are intensely interesting; of world-wide fame are its concise and comprehensive reviews of the best which has appeared in other periodicals; and its clever and graphic cartoon reproductions are culled from the newspapers of the world.

**McClure's Magazine**  
Optimistic, enthusiastic, progressive and fearless, "McClure's" is indisputably the real exponent of the "American Idea" in the magazine world. Both in point of artistic make-up and literary merit, "McClure's" leads. Its fiction is the best—being far more expensive than that of any other popular priced magazine on the market. From cover to cover you will find a distinctive snap and sparkle to "McClure's" that will compel your interest. Its problem articles are marked not only by their timeliness, but by a straight-from-the-shoulder directness and a regard for the truth. And when "McClure's" deems it necessary to point the accusing finger at any sore spot in the world, it is done so, not with muck-raking glee, but with a desire to correct. For "McClure's" is fair, square and very American. You'll like it.

HERE you have an unbeatable combine of literature, including *The Twentieth Century Farmer*, your favorite newspaper; the *Review of Reviews*, the acknowledged authority on all matters of national and international import; the *Woman's Home Companion*, the foremost periodical devoted to the interests of woman-kind; and *McClure's*, the brightest and snappiest of the "fact and fiction" magazines. This matchless offer is made possible by reason of our special, short time agreement with the publishers. For solid worth and sterling merit it cannot be surpassed. **Pains in the BACK**

which streak up between the shoulders, or through the loins and down the limbs. Very commonly these pains are associated with a "drawing" sensation at the back of the neck.
