

## GLAD TO TESTIFY

Says Waterbury Lady, "As To What Cardui Has Done For Me, So As To Help Others."

Watoga, W. Va.—Mrs. S. W. Gladwell, of this town, says: "When about 15 years of age, I suffered greatly. Sometimes would go a month without food, and I had terrible headache, backache, and bearing-down pains, and would just drag and had no appetite. Then... it would last... two weeks, and was so weakening, and my health was awful.

My mother bought me a bottle of Cardui, and I began to improve after taking the first bottle, so kept it up till I took three... I gained, and was well and strong, and I owe it all to Cardui.

I am married now and have 3 children... Have never had to have a doctor for female trouble, and just resort to Cardui if I need a tonic. I am glad to testify to what it has done for me, so as to help others."

If you are nervous or weak, have headaches, backaches, or any of the other ailments so common to women, why not give Cardui a trial? Recommended by many physicians. In use over 40 years. Begin taking Cardui today. It may be the very medicine you need.

## FROM A SOLDIER

A letter from Mr. Walter Blalock somewhere in France, to his sister, October 12, 1918.

Dear Sister:—Wonder what you and Emmett are doing today. I guess you are all picking cotton or grading tobacco. Well, I know you want to hurry up and get ready for the market, the prices are so good this fall. I am glad to know they are, too.

I am still well and working at the same old job. Not doing very much either, except playing with the rats. Honestly there are some in these trenches old enough for captains. I expect to meet one any time with two silver bars pinned on his shoulder. Sergeant killed one last night as large as an ordinary cat. The rats are all that bother us here, and they are sure to keep us awake at night on post.

Annie, I received your letter of Sept. 6th last week with several others. I have already written papa and am now answering yours and Emmett's together.

I wonder if you recognize this paper. I ruined the envelope opening the letter. I received some stationery from pa the same day. You all need not bother to send me stationery. I can get plenty of it right here.

Well, what do you think about the war now? I think it is about over. You may prepare Xmas dinner for me for I am coming after it. It may get a little bit cold before I get there but I am coming pretty soon afterwards anyway. Be sure and save me some of those pear preserves. I could eat a quart now. I would give a pocket full of this French money for one quart jar of them.

I had a letter from old Bass last week. I guess he is having some time around Camp Jackson. Well, he is in heaven if he just knew it. I know, I've been there.

I guess you all will make lots of money this year if prices stay up, am sure Mollie will make lots off my crop. Well, he is welcome to it.

How is papa getting along with his crop? Can he hire any cotton pickers? Tell him not to pick it himself. How are the good old women getting along this time? Tell them hello, and to write me sometime. I write one for all when I write home to give writing so often. Is Miss Sarah Jones' rheumatism any better? Is Miss Valley as busy as ever? Tell

## Mask Against Influenza

As a means of preventing the spread of influenza the North Carolina State Board of Health strongly urges that doctors, nurses and others attending patients sick with this disease wear a mask over the mouth and nose. The manner of wearing is shown in the above picture. The mask should be made according to Red Cross directions, in size about eight by five inches, consisting of four layers of fine mesh gauze, or buttercloth. Do not use coarse mesh gauze, as experiments have shown that protection is not given even when as many as eight layers of the coarse mesh are used. The mask may be sterilized by placing in boiling water for a few minutes and used over and over again. The same side should always be worn next the face and for this purpose one side should be marked, say with a black thread. The precaution is simple, costs almost nothing, and is most effective. PLACE A MASK OVER YOUR MOUTH AND NOSE AND HELP THE SICK OF YOUR COMMUNITY, CAREFULLY WASHING YOUR HANDS AFTER ATTENDING EACH PERSON. IN DOING THIS THE CHANCES OF INFECTION ARE PRACTICALLY NONE.

her to rest up some until I get back, then we will visit some.

I must close this time. With love and best wishes to you and all the rest, I remain as ever.

Walter H. Blalock.

P. S.—Jim is still in the Co. and getting along fine. One or the other of us get mail from around home nearly every day.
